Instagram And OnlyFans Promote Rape Culture And Incel Hate. Congress Should Regulate Them Like TikTok

By Deborah Watson

The recent horrifying story about a Western couple traveling around India to take sexually provocative photos in erotic camping scenarios and then getting raped by seven men, has stirred up a deeper look at OnlyFans and Instagram sites. Normal women do not normally wear scanty clothes, sexy make-up and hair, adopt mopey, submissive, facial pouts and pose in unnatural physical contortions in The Real World. That is reserved for sexual provocation and look-at-me narcissists. It is not about the rationalization that "women are taking their power back". It is about low IQ people, who never did their homework in school, that parted their lives away.

Instagram and OnlyFans creates an expectation of sexual cooperation from all women. Nobody stops to think about the fact that hot women only cooperate sexually with hot rich guys.
