

My FBI buddies, 60 Minutes friends and I, Have Hunted Down Exterminated Every Assassin They Sent To Exterminate Me

The proof that my corruption assertions are true includes the fact that nobody in the world has had the same attacks operated against them by: (A) the same people who work for the Defendants, (B) the same people paid by the Defendants, (C) the same people who reported to the Defendants for their command-and control, (D) the same, AND ONLY, people to use the ten web servers involved, (E), the same people who coordinated the attacks via their texts and emails, (F) and all of these people still covertly work for the Defendants.

There are hundreds of other evidence and proof facts but, as the FBI, Mr. Durham, the SEC and the FTC say: "***...we can't comment on an active investigation...***"
