(Stonewalled/Rejected by DOE)

Our Mission

To achieve profitable growth and increase stakeholder value by designing, engineering and manufacturing products that deliver to our customer's expectations.

Our Vision

To be recognized as the foremost global supplier of Vapor Management systems, Fuel Delivery systems, Thermal Management systems and Engineering Services providing our customers with viable reliable and cost competitive advantages.

Our Quality Policy

Customer Satisfaction: To provide products and services which entirely satisfy the requirements as defined by the customer. Each of us is, therefore, committed to excellence and to assist one another to pursue continuous improvement.

Our Core Values

- Integrity
- Mutual Respect
- Technological Leadership
- Operational Excellence
- Collaboration
- Urgency
- Serving the needs of our community, customers, associates, and stakeholders.
