

# THE WHITE HOUSE AND THE DEPT OF ENERGY RUN PAYOLA SCAMS THROUGH THE STOCK MARKET USES ENERGY CASH

Mon, 20 Nov 2023 17:22:47, swmof88, [category: news, post\_tag: the-white-house-and-the-dept-of-energy-run-payola-scams-through-the-stock-market-uses-energy-cash]

Investigators from The United States Congress have released a series of documents proving that Barack Obama and Joseph Biden, while running the United States Government, from the White House, caused the United States Government to operate a bribery program which offered illicit and covert government favors in exchange for stock market benefits bribes.

United States Government executives from the White House, Department of Energy and other agencies, are operating to harm the public while exclusively benefiting themselves. These public officials are United States government officials who own the stock, real estate perks, future job offers and other payola upsides provided to them as graft.

The White House and the White House political financiers have spent vast amounts of money and influence leverage in order to prevent citizens who were harmed by their corruption from ever receiving a jury trial in these corruption matters. The politicians do this in reprisal against for whistle-blowers reporting an illegal money laundering operation between government officials.

Public officials, including Court officers, were documented, by law enforcement, regulatory and news agencies, receiving payola in family stock market securities, and other influence peddling payola including: **"....Certain California State officials, Obama/Biden White House Staff and Federal Agency staff accepted bribes from Silicon Valley Oligarchs and Investment Bank Cartels. They were bribed with: Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures stock and stock warrants which is never reported to the FEC; Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures search engine rigging and shadow-banning which is never reported to the FEC; Free rent; Male and female prostitutes; Cars; Dinners; Party Financing; Sports Event Tickets; Political campaign printing and mailing services "Donations"; Secret PAC Financing; Jobs in Corporations in Silicon Valley For The Family Members of Those Who Take Bribes And Those Who Take Bribes; "Consulting" contracts from McKinsey as fronted pay-off gigs; Overpriced "Speaking Engagements" which are really just pay-offs conducted for donors; Gallery art; Private jet rides and the use of Government fuel depots (ie: Google handed out NASA jet fuel to staff); Recreational drugs; Real Estate; Fake mortgages; The use of Cayman, Boca Des Tores, Swiss and related money-laundering accounts; The use of HSBC, Wells Fargo, Goldman Sachs and Deutsche Bank money laundering accounts and covert stock accounts; Free spam and bulk mailing services owned by Silicon Valley corporations; Use of high tech law firms such as Perkins Coie, Wilson Sonsini, MoFo, Covington & Burling, etc. to conduit bribes to officials; Payroll W2 and 1099 payments which were actually bribe payments for political work such as character assassinations and internet rigging; and other means now documented by us, The FBI, the FTC, The SEC, The FEC and journalists...."**

Public officials (ie: Newsom, Feinstein, Pelosi, Boxer, etc.) who run the San Francisco Bay Area and Washington DC political quid-pro-quo system known as **"The Political Machine"** owned and were financed and controlled by companies who competed with non-insiders. Those companies include Tesla, Alphabet/Google/YouTube, LinkedIn, Netflix and their ilk, known as **"The Silicon Valley Cartel."** The Cartel has paid more cash and services to these political officials, and received more payola and kick-backs from those officials, THAN ANY ENTITY IN RECORDED HISTORY. It was a clear case of bribery, as proven in over a thousand lawsuits and government investigations conforming the assertions. The XKEYSCORE/ICIJ/FINcen/InterPOL financial crimes databases also prove these assertions.

Federal law enforcement and expert forensic officials have stated that: **"ONLY THE U.S. GOVERNMENT WAS CAPABLE OF OPERATING THE STATE SPONSORED ATTACKS AGAINST THE PUBLIC WHISTLE-BLOWERS."**

Only the US. Government had the means, resources, motivation, command-and-control and proven 'Watergate Plumber'-type history of such attacks on the public. All of the financial compensation and orders for these attacks also ONLY lead back to the US. Government and the Silicon Valley Cartel ownerships by government officials.

As the world, now knows, EVERY White House uses Dirty Tricks and Fusion GPS/Black Cube attack operatives. Watergate was the standard and NOT the exception.

The political reprisal attacks that these politicians engage in against the public include: The federal government staff cut off benefits income and housing since 2008. They cut off government contracts and funding. They blocked patent monetization income. They used their media network, designed to kill off competing Presidential candidates, to run global character assassination revenge attacks against Plaintiffs (via Google, Gawker, Gizmodo, Media Matters, Black Cube, etc.). They used White House 'Plumbers' (Carney, Podesta, Schmidt, Denton, Ratner, Gibbs, Axelrod, etc.) to operate dirty tricks operations. They exposed Plaintiffs to toxins at the Department of Energy labs. They manipulated and 'red flagged' HR databases to cut off jobs for Plaintiffs. The attackers engaged in the bribery of contracting officers and agents to damage competitors and only award the attackers associates. The attackers engaged in internet server manipulation and website spoofing. The attackers used manipulation of online payment transaction systems to cut off Plaintiffs revenue. The state-sponsored attackers also engaged in: Hacking of competitors/witnesses devices; theft of patent materials; threats and possible murders of whistle-blowers; ordering cronies and NVCA allies to black-list competitors/witnesses; bribery of public officials to direct funds and contracts to them and away from competitors/witnesses competing products; government funds embezzlement; placement of sabotage moles, working for the White House, in competitors/witnesses companies to sabotage Plaintiffs plans and report internal data to competitors; Honey traps; DNS re-routing of all internet connections of competitors/witnesses; and more...

Crooked officials and politicians will do anything to cover this up and protect their stock market insider trading bribes. Look at their family stock market transactions and you can see the truth! There is a civil war in America between Democrat and Republican politicians, Judges and insiders but this is about crime, not ideologies. The DOJ and the courts seem to only work for white house financiers per Congressional reports.

Direct evidence review by the FBI, IG, AG, FTC, SEC and other law enforcement and regulatory agencies that they report to has been provided but most agencies report to the current President and will not help you if it involves a sitting President. All of this evidence has been provided to those agencies, in writing. The federal agency officials CHOSE to operate a cover-up. This information proves that a quid pro quo stock market bribery scam exists within, and between, agencies and politicians. "The Machine" politicians take bribes in the form of stock market securities, real estate and internet data manipulation services from Google, Facebook, etc. These politicians are CRIMINALS that only work for themselves.

See further evidence sets at: <https://case-xyz2020a.com> and/or <http://www.report-corruption.com> and/or <https://never-give.in> and/or <http://hardforensics.com> and/or <http://www.stimulus-scam.com> and the Court and Congressional Investigation archives

The corrupt politician lapdogs and their Big Tech oligarch bosses have found that their abusive, self-dealing ACTIONS HAVE CONSEQUENCES.

Criminal politicians and their Silicon Valley oligarch financiers organized a felony-class 'enterprise' to exchange stock market shares, jobs, government cash, sex, exclusive public policy 'switcheroos' and other corrupt actions. They put hit jobs on their competitors and whistle-blowers using government resources. Now those crooks need to be sued and have criminal referrals filed against them with the FBI, DOJ, SEC, FTC, GAO, FEC, FINCEN and Congress! The FBI, and other law enforcement organizations, define a "cartel" as: 'An association of industrialists and business firms organized covertly to establish a national, or international monopoly, by price fixing and ownership of controlling stock, to operate a trust or monopoly to reduce competition between themselves by allocating markets, censoring public knowledge, manipulating governments or controlling the price and production of a product or service.'

This case is about a political "cartel" which meets every aspect of that definition.

[Worse than Watergate DEPT OF ENERGY IS A CRONY SLUSH FUND](#)

he U.S. Energy Department faces major management challenges ranging from hacking vulnerabilities to foreign espionage and could create "massive new risks to the taxpayer" as it spends tens of billions of dollars in new spending from President Joe Biden's signature infrastructure initiative, the agency's internal watchdog warns.

The Office of Inspector General offered a stark assessment of the department under Secretary Jennifer Granholm, pointedly warning losses from fraud in the current infrastructure spending could mirror that seen during the COVID pandemic, where taxpayers now lost an estimated \$200 billion government wide.

The department faces "unprecedented challenges raised by the passage of the Infrastructure Investment and Jobs Act, the Inflation Reduction Act, the CHIPS and Science Act, and the Puerto Rico Energy Resilience Fund," the watchdog reported this month. "Preventing fraud, waste, and abuse in connection with these funds will be extremely difficult."

The report reviewed by *Just the News* noted that the Pandemic Response Accountability Committee (PRAC) offered many "lessons learned" about the risks of spending federal money fast, such as the use of 69,000 questionable Social Security numbers to obtain \$5.4 billion in fraudulent loans and grants.

"Fast money must be balanced against the need for thoughtful and effective internal controls and independent audits," the report declared.

The inspector general urged Congress to provide it more money to launch preventative audits.

"These massive new risks to the taxpayer are occurring in tandem with substantial underfunding of the Office of Inspector General (OIG). Underfunding oversight makes an inherently risky

situation much more amenable to fraud, waste, and abuse," it said.

You can read the full report here.

Outside the risks of new spending, the Energy Department also suffers lapses in its capability to fend off against cyber attacks, the inspector general said.

"The Department continues to experience many challenges related to the implementation of an effective cybersecurity program. The Department's existing governance structure continues to inhibit its ability to respond to cybersecurity evolving risks and mandates," the report warned.

Likewise the department is struggling to combat foreign espionage aimed at stealing its technology, and those risks will only grow as the agency "continues to invest heavily utilizing funds" from the Biden infrastructure initiative. It suggested the agency sometimes suffers from an academic laissez faire in the face of such threats.

"While some of this work is for fundamental research that is freely published in public, much of it is subject to intellectual property protections and/or national security considerations," the report said. "These major investments remain a target for foreign governments seeking to illicitly acquire access to U.S.-funded research and technologies.

"This is particularly troubling given the Department's integral role in the development and maintenance of nuclear weapons systems, along with other pivotal national security missions," it added.

The report said that the department has an enormous opportunity to provide global leadership with the explosion of artificial intelligence, but that it needs to develop an enterprise level strategy rather than ad hoc projects.

"With its research capabilities, the Department has a tremendous opportunity to provide leadership covering research principles and guidelines, processes, and technical rigor," the report said. "As the custodians of the most advanced high-performance supercomputers and massive multimodal data sets stemming from diverse research, the Department and its National Laboratories are well- situated to collaborate with each other and external partners in taking a leading role in developing and deploying AI."
