## Facebook could be forced to pay YOU, personally, \$8000.00

## Facebook security breach: 50 million user accounts affected

Facebook said it discovered a security breach that affects nearly 50 million user accounts. According to the company hackers exploite 'View As' feature on the service and steps are being taken to fix the security problem.

Hacked Facebook users could be owed as much as 6,000 pounds (\$7,800) in compensation as a rest the security breach revealed last week.

Legal experts have told The Sun that damages could run into the "thousands" for anyone affected k hack — if you can prove you felt distressed.

Last Friday, Facebook revealed that hackers gained access to 50 million accounts.
