

**Congress MUST make a law  
against Google and Facebook  
Purge: Here is The List Of  
Pages Deleted by Facebook**

# Soros-funded Media Matters virtually admits it's behind Facebook's purge of political pages

By Jim Simpson -

On Friday, the George Soros-funded **Media Matters for America** **virtually admitted** it was directing a purge of more than 800 Facebook pages and accounts. It noted that Facebook **shut down** a bunch of pages run by "fake news" outlets on Thursday. But then said the social media giant missed some. Would not be surprised to see those "missed" sites shut down soon.

Note that whereas Facebook claimed its decisions were "behavior violations," not "content violations," MMFA goes out of its way to identify the content. It says, *"Facebook's takedown removed a plethora of bad actors who have used networks of pages and groups to coordinate and amplify the spread of anti-immigrant and racist content. However, other similar far-right disinformation pages on the platform are still up."*

According to MMFA, sites that discuss terrorism and the plague of illegal immigration are necessarily "anti-immigrant" and "racist." That is *their* bias. Media

Matters plants disinformation daily, and this is just more of it. If Facebook follows their recommendations, that will be prima facie evidence that this thing is rigged.

**Trending:** Video: Unhinged leftist threatens to throw conservative woman on ground and rape her — on camera

Media Matters should be shut down. It is one of the most prolific purveyors of genuine fake news on the planet. Paid with multi-millions by Soros and other extreme leftists, Media Matters is a propaganda arm for the Democrat Party that polices the web and runs interference against anything embarrassing or revealing about the Left, or for that matter, pretty much anything with factual content. Because facts don't play well for the Left.

As [reported by The Western Journal](#), in what many are calling the “Facebook purge,” Facebook announced on Thursday that it removed over 800 political pages and accounts in a clamp down on what the social media company calls “inauthentic behavior” in the lead-up to the midterm elections next month.

Facebook did not release the full list of pages impacted by this action. Upon being asked, Facebook [refused to disclose the full list](#).

The following is a list of 185 pages that are currently unpublished on Facebook. Some of these have been confirmed by the owners as having been unpublished by Facebook as part of Thursday’s mass purge of pages, while others are currently unconfirmed as being part of the purge. However, all of these pages were still indexed by Google on October 12, 2018, which suggests they were recently active and thus removed recently.

This list of pages purged by Facebook contains nearly 60 million followers in total. Fan totals

were recorded from the cache stored by Google.

To create this list, The Western Journal started with pages that had been confirmed as unpublished by Facebook, took the domains most often shared by those pages, and used Google search to find additional Facebook pages sharing those same domains. When new unpublished pages were found, the process was repeated until this list was generated.

**TRENDING:** [Melania Trump Finally Reveals the Meaning of Her ‘I Really Don’t Care’ Jacket](#)

This list is not complete, as Facebook has publicly stated that they unpublished [559 pages](#) during a large-scale enforcement action on October 11th, 2018. The Western Journal will be updating this article as new unpublished pages are discovered.

If you have been impacted by the Facebook purge or you believe that any of these pages are listed here in error, please use the “submit a correction” link below the article to contact The Western Journal.

The Western Journal has reached out to Facebook to confirm that these pages were part of the purge and will update this article when Facebook responds.

Update: Two more pages have been added after sent in by reader, totaling more than 2.2m additional fans. In addition, one duplicate was removed. The total number of pages and fans has been updated above.
