WASHINGTON—State attorneys general will meet with U.S. Justice Department attorneys next week to share information on their respective probes of [Alphabet](#) Inc.'s Google unit, a step that could eventually lead to both groups joining forces, according to people familiar with the matter.

The meeting is seen as the start of a periodic dialogue that could expand into more formal cooperation as the probes continue, the people said.

To date, federal and state authorities involved in the probe haven't shared investigative materials about their concurrent probes of Google, some of the people said.

At least seven state attorneys general who are part of the investigation have been invited to the meeting, one of the people said. The group—comprising the executive committee of the states' investigation into Google—is led by Ken Paxton, the Texas attorney general.

The DOJ declined to comment. The attorneys general either declined to comment or didn't respond.

### How the Microsoft Antitrust Case Paved the Way for Big Tech

 How the Microsoft Antitrust Case Paved the Way for Big Tech  
How the Microsoft Antitrust Case Paved the Way for Big Tech  
The Department of Justice is investigating the U.S.'s largest tech firms for allegedly monopolistic behavior. Roughly 20 years ago, a similar case threatened to destabilize Microsoft. WSJ explains.

The state and federal investigations have given considerable focus to Google's powerful position in the lucrative market for online advertising. The company's dominant position in online search and possible anticompetitive behavior by Google in its Android mobile operating system have also drawn scrutiny, according to the people familiar with the matter.

The planned meeting is likely to include discussions on those issues, the scope of the probes and the best division of labor as the investigations move forward, some of the people said.

Google didn't respond to requests for comment. After the state attorneys general launched their probe last year, Google senior vice president for global affairs Kent Walker said the company would cooperate and looks forward "to showing how we are investing in innovation, providing services that people want, and engaging in robust and fair competition."

Google is among a handful of giant technology companies that have come under a government spotlight amid rising concerns that they are using their dominance to stifle competition.

In addition to probes by the states and Justice Department, the Federal Trade Commission is examining certain practices at [Facebook](#) Inc., including whether it acquired potential rivals such as Instagram and WhatsApp to head off competition. The House Judiciary Committee is looking at Facebook, Google, [Apple](#) Inc. and [Amazon.com](#) Inc. for possible anticompetitive practices.

The companies have all said they are cooperating with the investigations.

State antitrust enforcers often team up with their federal counterparts, including when the Justice Department and a group of 21 attorneys general worked together when they sued [Microsoft](#)

Corp. in the late 1990s.

## **SHARE YOUR THOUGHTS**

*What do you hope comes from the coordination of state attorneys general when it comes to tech antitrust investigations? Join the conversation below.*

This time around, most state attorneys general have officially joined in the state-level investigation into possible anticompetitive practices by Google.

The size of the coalition reflects “the importance of these issues to Americans across the country, regardless of location or political persuasion,” U.S. Attorney General William Barr said last month in a speech to the National Association of Attorneys General in Washington.

Mr. Barr hinted that a broad approach might be best.

“Many online platforms are not only big, but also offer a wide breadth of products and services,” he said. “Antitrust enforcers therefore must take an equally broad view of these platforms’ offerings, and the relationships between different markets, products and business practices.”

Both the DOJ and the states have been beefing up their legal teams. Some state attorneys general have said publicly they need close cooperation with the DOJ in order to take on Google successfully.

Despite the broad bipartisan support for the Google investigation among the attorneys general, there are still political tensions beneath the surface of the government probes into big tech.

Democratic attorneys general have clashed repeatedly with the Trump administration and have gone to court to challenge dozens of its decisions. Those partisan divisions have crept into antitrust matters, too, especially on the proposed merger of wireless carriers [T-Mobile US](#) Inc. and [Sprint](#) Corp. Though the Justice Department has greenlighted the deal, a group of 13 Democratic-led states and the District of Columbia are suing to stop it.

Coordination broke down in that case to the point that the states didn’t give the Justice Department advance notice before filing a [lawsuit to block the merger](#) in June, The Wall Street Journal reported at the time. The split created hard feelings on both sides, according to people familiar with the matter.

It is possible partisan divisions could re-emerge in the Google investigation. When it comes to large technology companies, some Democrats are privately skeptical that a Republican-led administration will take what Democrats view as sufficient action to curb perceived abuses of market power.

Fueling that sentiment is the outcome of two recent federal investigations of Facebook and Google’s YouTube. Officials on the Federal Trade Commission split along party lines about whether settlements with the firms were tough enough, with Republicans casting the settlements as historic victories and Democrats calling them weak.

- Google's David Drummond had his Woodside, CA Quail Road house bugged revealing sex and financial misdeeds
- 

Google, and it's Cartel (Alphabet, Youtube, and hundreds of other shell-company facades) are a criminal organization engaged in felony-class crimes. Google's bosses bribe politicians, regulators and law enforcement officials to hold off prosecution.

At Google: Kent Walker, Andy Rubin, Larry Page, Eric Schmidt, Sergy Brin, Jared Cohen, Yasmin Green, David Drummond and Ian Fette are so enmeshed in sex scandals, election manipulation, and White House bribes that it is hard to comprehend how they can get any legitimate work done.

Between all of the sex cult activity; hookers; rent boys; political bribes to Pelosi, Harris, Newson, and Feinstein; DDoS attacks they run; CIA and NSA stealth deals; privacy harvesting; Scientology-like employee indoctrination; cheap Asian labor; covert Axiom scams and other illicit things they get up to; one just has to wonder.

Some of the largest political bribes in American or European history were paid via billions of dollars of pre-IPO cleantech stock, insider trading, real estate, Google search engine rigging and shadow-banning, sex workers, revolving door jobs, nepotism, state-supported black-listing of competitors and under-the-table cash. Why are these Silicon Valley Oligarchs and their K-Street law firms and lobbyists immune from the law?

U.S. Senators, Agency Heads and Congress are bribed by Google intermediaries with: Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures stock and stock warrants which is never reported to the FEC; Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures search engine rigging and shadow-banning which is never reported to the FEC; Free rent; Male and female prostitutes; Cars; Dinners; Party Financing; Sports Event Tickets; Political campaign printing and mailing services "Donations"; Secret PAC Financing; Jobs in Corporations in Silicon Valley For The Family Members of Those Who Take Bribes And Those Who Take Bribes; "Consulting" contracts from McKinsey as fronted pay-off gigs; Overpriced "Speaking Engagements" which are really just pay-offs conduited for donors; Private jet rides and use of Government fuel depots (ie: Google handed out NASA jet fuel to staff); Real Estate; Fake mortgages; The use of Cayman, Boca Des Tores, Swiss and related money-laundering accounts; The use of HSBC, Wells Fargo, Goldman Sachs and Deutsche Bank money laundering accounts and covert stock accounts; Free spam and bulk mailing services owned by Silicon Valley corporations; Use of high tech law firms such as Perkins Coie, Wilson Sonsini, MoFo, Covington &

Burling, etc. to conduit bribes to officials; and other means now documented by us, The FBI, the FTC, The SEC, The FEC and journalists.

Google and Youtube are based on technology and business models that Google and YouTube stole from small inventors who had launched other companies that were up and operating before YouTube or Google even existed as business operations.

Google holds the record for the largest number of corporate sex scandals, abuses and sex trafficking charges.

There are only two kinds of people that work at Google: 1.) Cult indoctrinated naive kids with odd sexual quirks and 2.) divisive managers and executives who seek to exploit those eco-chambered employees for nefarious political and stock market manipulation purposes under the Scientology-like guise of "doing good things", when, in fact, they are engaged in horrific crimes against society.

Google has hired almost every technology law firm in order to "conflict them out" from ever working to sue Google. If Google rapes you, robs your patents or does anything awful, you won't be able to find a lawyer to help you.

Most Google executives in control of Google have been indoctrinated by family dynasties to believe that any crime is justified by a bigger cause. Most of those executives are men. The few women in control of departments are figure-heads.

Google bosses attend the same parties and business meetings in which they collude, co-lobby, rig markets and make anti-trust violating plans together.

Google is a private government with more money and power than most smaller nations. Google has more lobbyists bribing more politicians than any other company in America.

Jared Cohen and fashion show-horse Yasmin Green at Google had the job of over-throwing countries in the Middle East. They openly bragged about it. (<https://truthstreammedia.com/2013/06/02/googles-regime-change-agent-jared-cohen/>)

People that work at Google get paid \$260,000.00+ per year to lie, spy, manipulate politics, bribe politicians and engage in other crimes. For that kind of money, a person will do ANYTHING and rationalize it as "part of the higher cause".

The Project X investigation team is publicly quoted as stating: **"...give the same number of lawyers as Google has, with the same level of skills and experience, the same discovery budget, legal expenses budget and expert witness budget, we ABSOLUTELY GUARANTEE that we can put Google staff and investors in federal prison and close Google, in bankruptcy...the Google Cartel has engaged in that much criminal activity..."**

**"Google is the largest financier of the Obama political campaign and exceeded FEC campaign spending limits by tens of billions of dollars. We can prove this in a jury trial, a Grand Jury hearing and a live Congressional hearing.**

**Google is the largest staffing source of the Obama Administration. We can prove this in a jury trial, a Grand Jury hearing and a live Congressional hearing.**

**The largest number of laws and policy decisions, benefiting a single company and its investors, went to: Google. We can prove this in a jury trial, a Grand Jury hearing and a live Congressional hearing.**

**Google, and it's investor's are the single largest beneficiary of the Obama Administration. We can prove this in a jury trial, a Grand Jury hearing and a live Congressional hearing.**

**The Obama Administration only won the White House because Google and Facebook engaged in the largest digital media and search engine manipulation in human history. We can prove this in a jury trial, a Grand Jury hearing and a live Congressional hearing.**

**Google, and it's investors, during the Obama Administration, had most of their competitors denied funding, grants, contracts and tax waivers while Google's investors GOT funding. We can prove this in a jury trial, a Grand Jury hearing and a live Congressional hearing and prove that Google coordinated anti-trust violations with senior Obama Administration White House staff...."**

Google operates it's staffing like a Scientology cult. They control their employees lives, information, transportation, free time, entertainment and social life. A Google life is a glass-bubble of echo-chamber extremist, hyper-sex-kink, reinforcement.

[Project Veritas](#) has been lifting back the veil covering big tech companies and their nefarious activities following the 2016 election. They tried to play left-leaning-but-mostly-fair before the 2016 election, believing in their hearts that Hillary Clinton would be President without their concerted meddling. That didn't work out for them, so they are trying to prevent "another Trump situation" in 2020 by unabashedly [purging, silencing, and censoring conservatives](#) on platforms like Facebook, Google, Twitter, Pinterest, Instagram, and YouTube.

(Article by Michio Hasai republished from [NOQReport.com](#))

The answers delivered today before Congress in response to questions by [Representative Dan Crenshaw](#) weren't the standard denials. They were politically manipulative answers designed to make it known they're doing what we've said they were doing all along, but they feel justified in doing it because "hate speech" must be stopped at all costs. Of course, what constitutes hate speech to the social justice warriors in big tech invariably circles around conservative thought. There is no form of hate speech short of physical threats that can be attributed to progressives, at least not in the minds of the people who control big tech. If conservatives are aggressive, they're delivering hate speech. If progressives are aggressive, they're just being truthful. That's what big tech thinks.

This is the worst-case scenario for conservatives. Before, we could call them liars and cheats. Now, we have to fight them on an ideological level, and while we have the truth on our side, they have the technology. They have the eyeballs. They control what people see and don't see. And as such, they can no longer be trusted to deliver anything even remotely close to fair and balanced. They're unhinged from reality, but instead of coming back to reality once exposed, they're building a new reality around their ideologies.

# Google likely 'thoroughly infiltrated' by Chinese govt., expert warns

[alex stamos](#), [big tech](#), [china](#), [cybersecurity](#), [facebook](#), [google](#), [internet](#), [peter thiel](#), [richard clarke](#), [russia](#)

July 19, 2019 ([LifeSiteNews](#)) – Tech billionaire Peter Thiel recently called on the federal government to investigate Google for potential infiltration by the Chinese government, and now security experts are saying his concerns are well-founded.

Thiel, one of President Donald Trump's most high-profile [gay supporters](#) and an [avowed critic](#) of Silicon Valley, made the remarks at last weekend's National Conservatism Conference, [Axios reports](#). He called on the FBI and CIA to ask Google, "how many foreign intelligence agencies have infiltrated your Manhattan Project for AI"; "does Google's senior management consider itself to have been thoroughly infiltrated by Chinese intelligence"; and whether this alleged infiltration is why the company works with China's military but not America's.

"I'm not sure quite how to put this, I would like them to be asked [these questions] in a not excessively gentle manner," Thiel added.

Alex Stamos, a researcher with the Stanford Internet Observatory and [former chief security officer at Facebook](#), said Tuesday it was "completely reasonable" to assume that both the Chinese and Russian governments have, in some form or another, already infiltrated not only Google but every top tech company:

Note that "subverted" is very different than planting professional spies in "The Americans" style. Each of the big companies employs thousands of employees with family members under the control of these countries, and a gov request might be simple and seem borderline reasonable.

— Alex Stamos (@alexstamos) [July 16, 2019](#)

I expect that there will be a major combined HUMINT/InfoSec attack against a major tech company revealed in the next couple of years, which will trigger the same awakening that Project Aurora did in 2009.

— Alex Stamos (@alexstamos) [July 16, 2019](#)

BTW, I don't blame the foreign-born employees at all. They are just trying to make a good living doing interesting work. If MSS had \*my\* Mom I would do whatever they asked.

— Alex Stamos (@alexstamos) [July 16, 2019](#)

Stamos predicted that the "next couple of years" would see the revelation of a "major combined HUMINT/InfoSec [human intelligence/information security] attack against a major tech company."

He's not the only one who advises that Thiel's warnings be taken seriously. Richard Clarke, a former counterterrorism and cybersecurity advisor to both Democrat and Republican presidents,

[told CNBC](#) Wednesday there was cause for concern.

“Here’s what I think is true: Google refused to work for the Pentagon on artificial intelligence,” Clarke said. “If you turn around and you work on artificial intelligence in China, and you don’t really know what they’re going to do with that, I think there’s an issue.”

The internet giant has denied working with the Chinese military, but opened an artificial intelligence center in Shanghai in 2017 despite the Communist regime’s strict speech and internet controls. On Tuesday, Google executive Karan Bhatia [testified](#) to the Senate Judiciary Committee that the company has terminated a [controversial](#) censored search engine it had been working on for China.

Clarke added that there was no meaningful distinction between Google working with Chinese companies and the Chinese government, given the level of state control in the country.

The specter of foreign influence on the tech industry further intensifies its ongoing controversies regarding [political bias and censorship](#) and [violations of user privacy](#). Responding to Thiel’s original comments, President Trump [said Tuesday](#) that his administration will “take a look” at the matter.

[\[-\] gazillions](#)

Google being biased is glaringly obvious even to a retard. Google forcing their employees to support them politically is a human rights violation.

Th old railroad barons a hundred years ago were bad people, but no where near as abusive as google is to the employees. The old railroad tycoons had their supporters too who thought strikers and protesters against their tyranny were awful people.

Silicon Valley just indoctrinated their followers and employees by brainwashing them first like any cult does. "Do no evil" was always a smarmy block of shit in pixels, no different than the purple dinosaur singing "I love you, you love me". The purple dinosaur never loved you one little bit. It was a lie, and parents had no business being such gullible suckers and allowing their children to be lied to by an actor in a fuzzy suit.

[\[-\] geraldo-0](#)

forcing their employees to support them politically is a human rights violation.

>Civil and political rights are a class of rights that **protect individuals' freedom** from infringement by governments, social organizations, and private individuals. They ensure one's **entitlement to** participate in the **civil** and **political** life of the society and state **without discrimination or repression**.

From the first time they censored, shadow-banned people who opposed their way of viewing world, far-left, SJW, leftards has put cornerstone to **civil rights movement 2.0**, including people who are at the rock bottom and uppermost stairs of oppression. Clearly, this is infringement of rights by gov and private entities, which has been ignored from by the time it was apparent that such violation is well spread and not a unique case.

Those at silicon valley had no idea that their attempt to have conservative and alike voice removed/deplatformed is **someway resemble how "white" and "colored" segregation works;** which is no brainer considering that they did not pay any attention to "obscure" details and only remember famous persons who was oppressed at that time.

So, don't spout only " Hate speech is Freee speech". Tell them that when some peers mock center-right personalities by reenacting what happened prior to Civil Rights Act of 1968,throwing liquids to nigger who ignored the sign, isn't a good joke since **political affiliation is covered in protected class** in District of Columbia, IA,WV state, which put them as the white fellas and anyone who didn't entirely agree with them as the blacks in this reenactment.

If anyone reading this is somehow connected to parliament from local council to state, **consider ammending the laws to add political affiliation as one of class covered by "(unfounded)hate crimes"**. We won't need to see bike lock attacker and his copycat got sweetheart deals. Share this to Trump, since who doesn't love for shit and giggles watching leftards kvetching having cognitive dissonance episode explaining why adding another class would hurt other classes that already existed in last statue
