The romantic relationships within the walls of Google made ideal fodder for gossip columns and magazine profiles.

Co-founder Larry Page dated Google lieutenant Marissa Mayer in the company's early days, and co-founder Sergey Brin later drew attention for dating Amanda Rosenberg, a younger colleague. CEO Eric Schmidt dated publicist Marcy Simon when she did work for Google. The stories had sex, money and power against a backdrop of one of the world's largest tech empires. It was like something out of
