Hi Hankil
Wanted to send to personal notes.

[REDACTED - SBI/NR]

2) We saw this leak: <http://www.theverge.com/2014/1/20/5326682/samsung-galaxy-s5-home-screen-leak-google-now>

Interesting to see how the perception is indeed that this appears to be something born out of the Now concept. I know you reacted negatively to my comment in the meeting about this, but it is not only my perception I believe.

Thanks again for the meeting in Suwon. Let's start planning for our February engagement as well. See you on the 28th.

Regards,
john
