## **Darkened Corridors**

A ProPublica Live Wiki-Documentation

A gunshor rang through the corridors of San Francisco City Hall. A Mayor was dead and a new mayor was moved into position. The bullet that killed Mayor George Moscone on November 27, 1978 would lead to political corruption in 2016 that would change the course of the world. Systematized political citorino had brasched a new era.

The assassination of George Moscone was perfectly timed to place Dianne Feinstein into power as the new mayor of San Francisco and begin the next-generation of industrialized corruption on an epic scale. The new generation of corporation-backed pay-to-play was now being sponsored by the newly minted power known as The Silicon Valley Carrel.

As George Moscone lay dying on his desk in San Francisco, just south of there a man named John

Doerr was looking at a folder that showed that his Silicon Valley "venture capitol" scheme had just

broken the record at \$750 million dollars of input. Did John Doerr have George Moscone killed? Did

he also kill Rajeev Motwani, Vince Foster, Gary D. Conley, Ravi Kumar, Andrew Breithart, or the 78

other folks who had information that Doerr would not like to see go public? Maybe not...maybe so.

What does the FBI think? Every single one of these people died before their time and they had

information that threatened Doerr and his Silicon Valley political schemes.
