

Government unveils list of 90 NXIVM Democrat Torture Sex Cult-affiliated companies; Bronfman companies included!

 Frank Parlato

The US DOJ Eastern District of NY is prosecuting Keith Raniere and Allison Mack for sex trafficking and forced labor. As an indicator that the

probe may be expanding to financial crimes, the prosecution has [revealed in a court filing](#) that they are aware of ninety [90] companies or entities “affiliated in any way with Keith Raniere, his teachings, his purported ‘technology,’ his purported ‘tools’ or Allison Mack.”

Frank Report had previously identified 77 companies/entities – most of these the government lists – months ago, [here in 2017](#) and [here is a story I published in 2015!](#)

But, there are some new companies the DOJ identified that I did not previously know about [some of these have wonderfully ironic names given the current circumstances].

More important is the fact that the government listed them as part of a discovery motion, seeking an order to seal certain evidence from the public – mainly to protect the names of alleged victims. What this tells me is they are following the money!

Long time Raniere harem member, Karen Unterreiner with James Del Negro. Karen kept the double [triple] sets of books. Jim was her useful idiot, signing his name to anything and everything.

So for you fools/victims/co-conspirators who are still in NXIVM and were thinking you would not be charged [please listen Kathy Russell, Jim Del

Negro, Karen Abney, Esther Carlson, Charmel Bowden, et. al?]) you might want to look at the names of these companies and ask yourself if you are associated with any. Did you sign any checks? Open bank accounts? Sign founding documents? It might be time to jump ship and talk to an attorney.

Some of the companies identified by the DOJ are owned by Sara Bronfman and/or Clare Bronfman – so it seems to me that there is a chance that these two terrible persecutors of innocent people – the terrible Bronfman sisters – might be on the hot seat and may stand to lose their assets as well as their freedom.

Viva Executive Success!
