Did you know that John Kerry and Robert Mueller went to school together? This makes so much sense. As Vanity Fair Magazine puts it: **'its main constituency has traditionally been the conservative old Wasp families of New York, Boston, and Philadelphia – the plutocracy that has been running the country for generations'.**

PERHAPS YOU'VE HEARD OF THE RECENT [SHADOW DIPLOMACY BY JOHN KERRY](#):

The Deep State is working overtime these days. Kerry was just spotted in Paris, France with three Iranian diplomats after President Trump announced America's exit from Obama's scam Iran Deal. It had been reported he was meeting with Iranians prior to Trump's announcement to try and salvage the deal.

We've also just learned that Mueller dug up old information on Manafort that he had been cleared on:

Mueller didn't find crimes of Manafort. What he did was he went into old DOJ files, which he knew existed, because he was the FBI director, and pulled out an old case against Manafort, which Manafort had already been cleared of. He did this to get him to flip. All very illegal.
