## Opening Up Obama's Secret Record, All Of America Deserve To Know

Juby IWB

Thinker At long last, the American people may FINALLY get some answers with regards to the Obama administration's infamous g\*n trafficking scandal dubbed "Fast and Furious." As the leftist progressives continue to look for non-existent Russian boogie men under their beds, the Trump administration is promising to release the documents pertaining to the scandal that former Attorney General, Eric Holder, refused to provide. Fast and Furious was one of many scandals under the Obama administration yet there were no special prosecutors appointed, no grand juries convened, no leaked memos to the New York Times by way of a friendly and oh-so-helpful professor from Columbia, and no mysterious anonymous sources speaking to the Washington Post.

In case you have forgotten, Operation Fast and Furious was an operation during the Obama regime that worked in coordination with the Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF) in which the federal government allowed criminals to buy g\*\*s in Phoenix-area shops with the intention of tracking them as they were transported into Mexico. However, the ATF lost track of more than 1,400 of the more than 2,000 g\*\*s they allowed smugglers to buy. Amanda Gonzalez, a spokeswoman for the House Oversight Committee, said in a statement to Fox News – "For over six years, the House Oversight Committee has fought for additional documents related to Operation Fast and Furious. Today, the Committee finally reached a conditional settlement with the Department of Justice. The

Committee seeks all relevant facts so we can learn from the mistakes made by the Justice Department.

We have a responsibility to uncover why they worked so hard to hide this information from the Committee, the family of slain border patrol agent Brian Terry, and the American people."

Terry was murdered in 2010 by an illegal alien with a weapon used in the epically botched Operation Fast and Furious. He died in a gunfight between Border Patrol agents and members of a six-man cartel "rip crew," which patrolled the desert along the U.S.-Mexico border looking for drug dealers to rob. The cartel member suspected of k\*\*\*\*\*g Terry was apprehended in 2017. Terry's family, specifically his brother Kent Terry want the scandal to be investigated and those responsible to be held accountable for their actions. Yet, Obama consistently states his administration was "scandal-free". When reminded of scandals such as Fast and Furious that took place on his watch, Obama referred to them as "phony scandals". American Thinker had this to say of so-called "phony scandals" stating – "Phony scandals are those that do not have a smidgeon of evidence of a crime, like alleged Trump collusion with the Russians or obstruction of an investigation that was never stopped or even slowed down.

Phony scandals do not produce body bags as the Obama administration produced in Benghazi and during Operation Fast and Furious — the Obama administration's g\*n-running operation in which it armed Mexican drug lords and cartels with heavy weapons for which the U.S. Border Patrol had no match or protection. That g\*n-running operation led to the m\*\*\*\*r of U.S. Border Patrol agent Brian Terry." Well, it seems this announcement just blew the lid off of one of the Obama regime's "phony scandals"...

Reuters reports – "The U.S. Justice Department has agreed to provide congressional investigators confidential records on a failed g\*n-trafficking operation during the Obama administration known as "Fast and Furious" that long has been criticized by Republican lawmakers.

OBAMAGATE – Dan Bongino

Fashback to Feb. 2018 – While filling in for Mark Levin, Dan Bongino (www.bongino.com) lays out a case that is very legit. The real collusion lay with those who absolutely detest Republicans, but, specifically a person they could not control.
