# PEER TO PEER MESH NETWORKS TO REPLACE YOUTUBE, NETFLIX AND HULU.

### **NETFLIX RUSHES TO KEEP UP**

Here is the git repository: https://framagit.org/chocobozzz/PeerTube Demo server of PeerTube: https://peertube.cpy.re/videos/list

It's based on WebTorrent, which is built on top of WebRTC. you can host a torrent/magnet server to provide the initial seed, and as more people leech, what they've leeched is seeded from their browser cache.
