

Your Personal Worst Enemy Is Political Corruption And Public Policy Bribery

Did you know that 85% of every dime you earn is affected by political bribery?

Political corruption is the use of powers by public officials, their network contacts, or the coordination of such corruption by Silicon Valley oligarchs, or VC's, for illegitimate private gain.

Forms of [corruption](#) vary, but include [bribery](#), [extortion](#), [cronyism](#), [nepotism](#), [parochialism](#), [patronage](#), [influence peddling](#), [graft](#), and [embezzlement](#). Corruption may facilitate [criminal enterprise](#) such as [drug trafficking](#), [money laundering](#), and [human trafficking](#), though it is not restricted to these activities. Misuse of [government](#) power for other purposes, such as [repression](#) of political opponents and general [police brutality](#), is also considered political corruption. [Masiulis case](#) is a typical example of political corruption.

Over time, corruption has been defined differently. For example, in a simple context, while performing work for a government or as a representative, it is unethical to accept a gift. Any free gift could be construed as a scheme to lure the recipient towards some biases. In most cases, the gift is seen as an intention to seek certain favors such as work promotion, tipping in order to win a contract, job or exemption from certain tasks in the case of junior employee giving the gift to a senior employee who can be key in winning the favor.^[1]

Some forms of corruption – now called "institutional corruption"^[2] – are distinguished from bribery and other kinds of obvious personal gain. A similar problem of corruption arises in any institution that depends on financial support from people who have interests that may conflict with the primary purpose of the institution.

An illegal act by an officeholder constitutes political corruption only if the act is directly related to their official duties, is done under [color of law](#) or involves [trading in influence](#). The activities that constitute illegal corruption differ depending on the country or jurisdiction. For instance, some political funding practices that are legal in one place may be illegal in another. In some cases, government officials have broad or ill-defined powers, which make it difficult to distinguish between legal and illegal actions. Worldwide, bribery alone is estimated to involve over 1 trillion US dollars annually.^[3] A state of unrestrained political corruption is known as a [kleptocracy](#), literally meaning "rule by thieves".

Investigations by the United States Congress have shown that The U.S. Department of Energy, SSA, HUD, IRS, EPA, and other agencies, are used as political slush funds to pay back (In Plain Sight) campaign finance millionaires.

Corrupt politicians steer payola to campaign financiers while blockading the Silicon Valley oligarch's competitors from reaching the market or receiving funding. Jury and FBI-compliant evidence proves this as fact. The White House has total and covert control over those agencies and can order any federal agency to screw over any voter if that citizen "*mouths off*". The Lois Lerner case, and thousands of similar cases, prove that!

In every case, the only entities who participated in the global character assassination and propaganda-media defamation reprisal attacks were those entities owned and controlled by the attackers. Jury and FBI-compliant evidence proves this as fact. Follow-the-money and the proof is quite clear.

The suspects have hired the largest numbers of lobbyists and corporate manipulation lawyers in U.S. history in order to manipulate political decisions. Jury and FBI-compliant evidence proves this as fact.

The suspects have spent more money on political bribes than any group of men has spent in the last century. Jury and FBI-compliant evidence proves this as fact.

The suspects placed top federal law enforcement and agency bosses from their own Cartel, into top government positions, with orders to run cover and protection schemes for them. Jury and FBI-compliant evidence proves this as fact.

California State officials including the Governor, Controller, The Senators, Secretary of State and regional officials participated in these crimes and pocketed the initial profits from these crimes in covert investment banking. Jury and FBI-compliant evidence proves this as fact.

Tesla Motors, Google, Netflix, Facebook, Linkedin, Amazon and other tech Cartel members operate with a common goal of psychological mass ideology manipulation and monopolistic profiteering based on government sponsored anti-trust violations and server control exclusivity. Jury and FBI-compliant evidence proves this as fact.

The Silicon Valley oligarchs campaign contributions to individual federal candidates are well-documented, with each contribution limited to \$2,700 (of visible cash) per cycle to each candidate or their personal political action committee.

But political influence from outside groups, for example via Google's massive army of lobbyists and crooked law firms, is far more than just cold hard cash in the form of direct campaign contributions. A large portion of the people who run political election programs, ie: "Campaign Managers" are no more than mobsters who run various financial shake-down and transparency evasion efforts.

[The Washington Post reports on many bribery matters](#), for example, that the Palo Alto Mafia of High Tech billionaires has donated less than \$4 million publicly visible dollars to members of Congress in the last 18 years.... BUT.. In an era where some Senate races cost nearly \$100 million, \$4 million seems like very little. Here are other ways the Palo Alto Mafia of High Tech billionaires bribe their way into policy and politics:

1. The Palo Alto Mafia of High Tech billionaires also give to party committees and the national party. A maxed-out donation to the national party quickly increases campaign spending to more than \$100,000. Any organization – or person – can also give \$33,400 to a party committee. Finally, state and local parties can each receive a \$10,000, quickly allowing campaign finance totals to sour to nearly half-a-million dollars.
2. While the organization has to follow campaign limits, its members can make their own political donations, also following campaign finance limits noted above. But with

millions of members, political clout builds quickly. The Palo Alto Mafia of High Tech billionaires have people like Steve Spinner and Steve Westly who use computerized manipulation systems to get members to over donate.

3. The Palo Alto Mafia of High Tech billionaires has a politically active membership on the social networks they own. With more than five million members, the Facebook and Google constantly communicates with its members about immigration and climate issues that affect the Palo Alto Mafia of High Tech billionaires stock market holdings and advising them how to vote. The organization is also constantly increasing its voter rolls by registering people to vote.
4. The Palo Alto Mafia of High Tech billionaires also activates its membership when elected officials are facing climate-related legislation, resulting in phone calls and emails and letters to Congress. In addition, lawmakers' votes are noted and advertised to their issue-oriented membership.
5. The Palo Alto Mafia of High Tech billionaires has its a massive number of their own super PAC's and 501c4 political organization which can run hundreds of their own political campaigns. The groups combined spent more than \$40 million in the midterm elections on Senate and Congressional candidates, according to the Center for Responsive Politics. A lot of that money was spent on political advertising on television, radio and digital, and on direct mail.
6. The Palo Alto Mafia of High Tech billionaires tip off Senator's staff as to which stocks to have their Goldman Sachs brokers buy and which laws to manipulate that will pump those stocks that the families of Sen. Reid, Harris, Pelosi, Feinstein, etc. have already insider traded. Why do you think Nancy

Pelosi and Dianne Feinstein have \$100M in their bank accounts from only a \$170K per year salary? (ie: If Tesla Motors went bankrupt would Nancy Pelosi and Dianne Feinstein, who own covert stock in Musk's companies, go bankrupt?)

7. Political attackers spend over \$30M, part of that using taxpayer resources, attacking each victim that exposes them. This is proven in the financial transaction records from hired attackers: Google, Gawker, Gizmodo, Jalopnik, Think Progress, Media Matters, Facebook shadow-banning, troll farms, Media Matters, Black Cube, Fusion GPS, et al. (All of whom are now being forced out of business by federal and public investigations). Jury and FBI-compliant evidence proves the assertions. Hiring services, that wipe out a Senator's adversaries, is an overt form of bribery and Dark Money financing by Oligarchs.
8. There are hundreds of other such examples...

Senior White House staffer Steve Rattner was indicted for stock market securities fraud, Former President's campaign manager and Uber executive David Plouffe has been fined \$90,000 for illegally bribing Chicago mayor Rahm Emanuel (Obama's former Chief of Staff, on behalf of the ride-hailing company, the Chicago Tribune reports.

In another case, White House buddies Marty Nesbitt and Harreld Kirkpatrick III formed a private equity investment firm called Vistria created to interface to the 2012 election.

A curious pattern began to emerge. The White House administration would attack industries with government power, which led to substantially lower valuations for these companies.

Nesbitt and Vistria, or others close to the White House, could then acquire those assets for pennies on the dollar. For example: The for-profit higher education schools like University of Phoenix, ITT Technical Institute, and DeVry University; In 2013, White House staff blamed the schools for taking advantage of students by saddling them with student debt, ruining their credit and making a profit on it. The White House ordered the Federal Trade Commission to go after them. In the case of the University of Phoenix, its parent Apollo Education Group was suspended after a Federal Trade Commission investigation in 2015. The following year, three companies, including Vistria, swooped in to buy what remained of Apollo at a price 90% below its share price before the investigation. As Vistria's education investment portfolio bulged, a number of White House Education Department officials, including Secretary of Education Arne Duncan, ended up taking high-level jobs with Vistria.

In another instance both the Vice President and Secretary of State were deeply [involved in trade and security talks with China](#) even as that country began its aggressive campaign to expand its military and physical presence in the South China Sea. Contrary to standard diplomatic practice, however, both played "good cop," not seriously confronting China on its misbehavior. These two officials were close friends from their years spent together in the Senate. Their families went into business together in 2009. They created a number of equity and real estate investment firms allied to Rosemont Capital, the alternative investment fund of the Heinz Family Office. Over the next seven years, as the Vice President and Secretary of State negotiated sensitive and high-stakes deals with foreign governments, Rosemont entities secured a series of exclusive deals with those same foreign governments. In December of

2013, for instance, when one of those politicians traveled to China for talks. He brought his family along. While there, the father soft-pedaled China's clear aggression, and played up the bilateral trade partnership. Ten days after the trip concluded, China's central bank, the Bank of China, set up a \$1 billion investment joint venture called Bohai Harvest RST. For the record, the "RS" referred to Biden's son's firm, Rosemont Seneca.

That's [questionable enough](#); But months later, in July 2014, the Secretary of State traveled to China, also for talks. He talked little of China's clear aggression, but did conspicuously note that "China and the United States represent the greatest economic alliance trading partnership in the history of humankind." He should know. In the ensuing months, Chinese government-linked firms took major stakes in several of the firms owned or controlled by their family, and provided them with massive funding totaling billions of dollars. Nor is [this the only scandal](#) involving these guys.

While we can provide hundreds of thousands of such examples, it is up to YOU, as a citizen, to call these public figures (who are your EMPLOYEES) to task when it occurs and remove them from office in special elections, mid-term.
