

THE DEADLY LITHIUM BATTERY LIE THAT THE DEPT OF ENERGY IS TELLING

The Truth About Cars That The DOE Does Not Want You To See

If wishes were unicorn's, everybody in the Department of Energy's insider trading club would be riding a horse with a horn, but, alas, you can't fight reality no matter how much ESG stock your family bought. The facts are clear, lithium ion batteries cannot be the source of power for cars beyond a few small "science demo" car start-up runs. There is too much fire danger, too much child labor, too much corruption, too many nation's that hate the U.S. and have the only chemicals, too much toxic poison inside the batteries, too much environmental and worker damage from making the batteries and (most of all) NOT ENOUGH LITHIUM BATTERY CHEMICALS ON EARTH. Hydrogen fuel cells are the only solution whether you like them or not! Trillions of dollars have now been spent trying to find ANY other solution and nobody has found one. It does not matter how many billions of dollars insider Senators and their tech oligarch financiers spend trying to green-wash batteries into place: It just does not work!

There is only enough lithium and cobalt in the world for only the top richest people in the world to EVER afford electric cars. There are 1.5 billion cars in the world. There is only enough lithium ion battery raw material for a tiny percentage of those cars at affordable prices.

Almost all of the lithium and cobalt exists in foreign countries that hate the U.S. - Wars and covert operations are required to control those mines, which creates an even greater national security risk for the USA. None of this is "clean". None of this is "domestic energy". All of this is based in bribes and international corruption!

To mine it, child slave labor is used and massive genocide-class corruption exists around those mines. Tens of thousands of Black children are exploited in Lithium and Cobalt mines.

It will eventually run out totally and the previous materials will no longer be able to be recycled.

Silicon Valley, Goldman Sachs and California politicians push for lithium ion batteries because they own the stock of all the lithium mines. The last heads of the U.S. Department of Energy secretly owned lithium battery companies.

The lithium/Cobalt chemicals in the world will only last another 30 years at the current rate of use.

All lithium ion batteries degrade as they age and grow dendrites inside themselves until they blow themselves up. The increasing number of fires in Tesla cars, burning down homes and offices, is from old lithium ion batteries spontaneously blowing up. Politicians who own electric battery stocks are covering up these dangers!

Even the biggest companies in the world: GM and LG, won't build stupid lithium ion batteries unless the Dept of Energy bribes them to build those worthless batteries. So DOE had to cough up \$2.5B of the taxpayer's cash to these guys because GM and LG are "BROKE"? Give me a break!

You can make fuel cell hydrogen from any ocean or lake water, natural gas or any organic waste garbage. Those raw materials will last another 1000 years.

Silicon Valley, Goldman Sachs, Panasonic and California politicians spend thirty billion dollars a year blockading hydrogen fuel cells and running blogger campaigns against them.

A lithium ion car and/or battery blows up every minutes. A fuel cell car never blows up.

The U.S. Department of Energy has known these facts for decades but would rather lie to the public so it's political buddies can profiteer today, rather than prepare for tomorrow! Dept. of Energy people surround themselves with a glass bubble of "Yes-Men" and spend massive amounts of money bribing reporters to only tell a portion of the truth!

Hydrogen fuel cells hold the true promise. A great deal of energy can be stored in a relatively small amount of hydrogen. Plus, refueling can be done relatively quickly. Pumping more hydrogen simply takes a bit longer. It doesn't scale as badly as recharging a large battery, where higher power delivery is required, along with large uprated cables and connectors. While storage and refueling of hydrogen was once a difficult proposition, the last decade has seen companies like Toyota and Hyundai invest in maturing the technology.

The fast refueling time is really the key to hydrogen's potential in the trucking world. There isn't an electric vehicle on Earth that can add 727 kilometers of range in under an hour. Even if there was, it would likely require cabling and connectors rated for a megawatt or more. However, with hydrogen, Hyundai can offer quick refueling and long range while keeping emissions clean and green.

The other issue is weight. Semis can carry whatever they want up to the aforementioned gross 37,200 kg for Class 8 trucks. Weight carried in batteries directly competes with cargo, and while Tesla still hasn't released any weight data, it's likely that battery weight alone is in the 10,000 kg – 15,000 kg range. Compared with a fuel load of 67 kg of hydrogen, even if there is significant weight reduction in the cab and the motors, Hydrogen makes the most economic sense.

Hydrogen may yet be the ideal solution for cleaning up the heavy truck fleets of the world. That may be via fuel cell trucks, or perhaps via hydrogen-burning combustion engines which aren't quite as clean. Challenges remain around the production of hydrogen from clean sources, though they're not insurmountable. As for the lack of refueling stations, it's not as big a deal for commercial operators, which are often in the habit of refueling from specific depots already.

Why Is The U.S. Department of Energy Only Capable Of Hiring Crooks, Perverts and Assholes?

Over 100 Dept of Energy Officials charged with graft, corruption, insider trading, sex abuse, etc. Including TWO of the most corrupt Secretary's Of Energy in HISTORY!

[Dare to glare: Biden's sticky-fingered nuclear waste staffer Sam Brinton eyeballs the camera in new mugshot as he appears in court following SECOND arrest for stealing woman's airport luggage](#)

Sam Brinton, 35, who identifies as non-binary and uses 'they/their' pronouns, appeared in a Las Vegas courtroom on Wednesday where the judge set their bail at \$15,000. The former Department of Energy official accused of stealing luggage at two airports in two separate incidents has been arrested on a felony grand larceny charge. Brinton was charged for the luggage theft earlier this year at the Harry Reid International Airport in Las Vegas that was captured on security footage. In court on Wednesday, Las Vegas Justice Court Judge Joe Bonaventure also mentioned the theft at the Minneapolis airport and told Brinton to stay out of trouble. Their court date for that incident is on December 19 in Minnesota. Brinton, who was appointed to his Department of Energy position in June, was out of a job on Monday, according to a statement released by the agency.

THE LITHIUM BATTERY POLITICAL PROFITEERING LIES

THIS is the Truth About Cars That Nancy Pelosi And Dianne Feinstein Never Want You To See:

Fuel Cell electric cars solve all of the problems of lithium ion electric cars but DNC billionaires own the mines for lithium ion batteries, so they sabotage and blockade fuel cell electric cars. As warned, there is not enough lithium ion to solve America's electric car problem and the whole lithium ion electric car industry has crashed as everyone realizes that what they were warned about lithium ion is true.

Corrupt political families conspire to give government funds, contracts, tax waivers, buildings, stock market profits and other insider perks to themselves and their friends. They also conspire to blockade, harm, sabotage and black-list those who compete with them and their friends. These corrupt politicians are never prosecuted for their crimes, and can laugh in the face of those who point out their crimes, because they control the prosecution system. Their Quid Pro Quo criminal corruption is the single largest cause of the taxpayer hatred of Congress.

What Went Wrong With The Electric Car Industry?

Only men seem to start car companies. Most psychologists say that this is because men see cars as dick insecurity emblems.

Elon Musk is known to be a wildly insecure narcissist who feels that he must get every woman, that he can find, pregnant in order to prove his manhood to his abusive father, who got his sister pregnant.

Musk embodies the ultimate expression of 'car-as-dick' thinking because Musk was not only molded by his purse-swinging, kept-woman, mother, abusive father and crooked brother but also by the Silicon Valley frat boy rape-culture.

Silicon Valley is, of course, the Eden of modern misogyny and tech-bro douche-baggery.

Musk dragged all of the biggest assholes from Silicon Valley, The DNC and Goldman Sachs into his Tech Cartel. Together they created a temporary monopoly in the electric car industry by exchanging stock market payola with Senators and White House staff who, in exchange, locked off the electric car and space industries just for Musk.

But that scheme was not sustainable. It was amazingly crooked and lucrative but, it could not last. It was Big Tech's Roman Empire and it was doomed to fail spectacularly.

Musk counted on Obama and Biden to stick with his original quid-pro-quo deal to trade government cash for election rigging via his boyfriends at Google and Facebook. Tesla was the money conduit for a bunch of political scammy.

Biden and his cheerleader actress front girl: Jennifer Granholm, bounced into office with a Wizard of Oz promise to give everybody electric cars. They were so wrong about the pitfalls of their plan and they hired so many idiot sex freaks and unicorn fart unaware fools that their scheme blew up...instantly and literally.

Elon Musk and the Senators he owns: Pelosi, Harris and Feinstein, will lie, until their dying day about these batteries that they all own stock in! -

--- Lithium ion batteries: Cause wars, rape and genocide in the Congo, Afghanistan and Bolivia from the corrupt mining deals involved with mining lithium and cobalt; are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu; excrete chemicals that mutate fetuses when they burn; destroy your brain, lungs and nervous system when they burn; kill the factory workers who make them; cause Panasonic to be one of the most corrupt companies in the world; poison the Earth when disposed of; can't be extinguished by firemen; poison firemen when they burn; are based on criminally corrupt mining schemes like URANIUM ONE; Have over 61 toxic chemicals in them; come from an industry that spends billions on internet shills and trolls used to nay say all other forms of energy; are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers.

--- Apple products with lithium ion batteries have been exploding and setting people on fire; over time the chemical dendrites inside each battery grow worse and increase the chances of explosion as they age

- LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE; "Bad Guys" have figured out how to make them explode remotely; have their dangers hidden by CNN and MSM because pretty much only the DNC people profit from them; are the heart of Elon Musk's stock market scam.

--- The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging; United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT and NHTSA from outlawing them. WRITE YOUR ELECTED REPRESENTATIVE AND DEMAND THAT LITHIUM ION BATTERIES BE MADE ILLEGAL TO SELL! NiCAD and Hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownerships.

--- A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him. In Florida two kids died in a Tesla, burned alive, screaming in agony. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire. A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla.

--- There are many more deaths and crashes than you have heard about. The deaths and the cover-ups are endless. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public. They, and their crony's, spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers. Lithium ion EVs are more prone to battery fires. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out.

--- Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers. Elon Musk exists because he bribed DNC politicians and Senators Feinstein, Reid, Boxer, Harris, Clinton and Pelosi to give him free taxpayer cash and government resources from the Dept. of Energy and the Calif treasury.

--- DOE has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors of those DNC campaign financiers who DOE staff share stock market holdings with. Elon Musk is a criminal, a mobster, an asshole, a bald fake-hair wearing, plastic surgery-addicted, douchebag, woman-abusing, sex addicted, tax evader.

--- Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-aggrandizement articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley. Fake News manipulator Google is run by Larry Page and Larry is Musk's investor and bromance butt buddy.

--- Musk uses massive numbers of shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading. A huge number of Tesla drivers have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up.

--- The DNC and the MSM refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes. Musk has been professionally diagnosed as a 'psychotic narcissist.' A 'Silicon Valley Mafia; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates.

--- In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed their by Musk's paid shills. Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders.

--- Elon Musk has gone out of his way to hire hundreds of ex-CIA staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates. Musk never founded his companies. Musk's "Starlink" satellites are domestic spy and political manipulation tools – never get your internet from one. Musk stole Tesla in a hostile ownership take-over from Marty the true inventor of the Tesla.

--- The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla. Musk can't fix a car or build a rocket and has almost no mechanical skills. If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history!

--- Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk. Over 1000 witnesses can prove every one of those claims in any live televised Congressional hearing! Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or its suppliers and mining companies.

--- That is why they criminally help cover-up investigations of Tesla! All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI. The DNC bosses own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC. The DNC bosses use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals.

--- The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives. They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington and Burling and a host of "assassins".

--- It should be a felony to hire character assassins in the USA. DEMAND A LAW and DEMAND the termination of these attack services. IE: Gawker and Gizmodo Media sets-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose!

--- That is why Google is being terminated in the largest, most well resourced anti-corruption public service take-down in history! Tesla and Musk are protected by shareholders Harris, Pelosi, Feinstein, Brown and Newsom. Panasonic (indicted for bribery and Musk's partner) spends billions of dollars annually cover-up lithium battery fires and battery defects.

--- There are hundreds of millions of people in America. The same 120 of them are all involved in operating the same crimes and corruption including: the Sony Pictures corruption; the Afghanistan rare earth mine scandals operated through The Energy Department political slush fund that involves the lithium battery cover-ups (headed by Elon Musk); the Big Tech Brotopia rape, sex trafficking, bribery, exclusionism, racism and misogyny issues they were taught at Stanford University;

--- The Facebook – Meta – Google – Alphabet – Netflix, et al, coordinated news manipulation and domestic spying that they engage in; the hiring of Fusion GPS – Black Cube – Gizmodo/Gawker assassins; the destruction of the housing market by their mass real estate manipulations; patent theft and industrial espionage; and the bribery of almost every politician all the way up to the Oval Office.

--- So, while the categories covered in this investigation may seem diverse. They are connected through an enterprise of criminality and illicit, coordinated operations. We list, by name, the 120 most complicit individuals organizing these crimes, in the evidence documents already submitted to the FBI, FINCEN, DOJ, FTC, SEC, FEC, Congress, InterPol and other authorities. Digital financial tracking of those persons and all of their family members should be assumed to have been under way for some time. Wire-taps and device taps of those persons and all of their family members should be assumed to have been under way for some time.

Elon Musk's Electric Car Batteries Made By Forced Labor Overseas

Increasing ties have been found between the origin of the batteries needed to power the technology and forced labor in Chinese work camps.

Jarryd Jaeger Vancouver, BC

As many environmentalists push for a quick transition to electric vehicles and clean energy, increasing ties have been found between the origin of the batteries needed to power the technology and forced labor in Chinese work camps.

One province in particular, Xinjiang, is facing mounting criticism as more details emerge surrounding working conditions for members of the Uyghur Muslim minority. [According](#) to the *New York Times*, while China produces 75 percent of the world's lithium ion batteries, much of the raw material is mined elsewhere. In recent years, however, the Chinese government has set their sights on controlling all aspects of the supply chain.

In order to compete with other countries, China has ramped up production in the western province of Xinjiang, home to the nation's Uyghur Muslim minority.

As the *Times* [reports](#), companies such as Xinjiang Nonferrous Metal Industry Group have partnered with the Chinese government to move hundreds of Uyghurs from the south to the industrialized north where they are put to work in mines, smelters, and factories producing lithium, nickel, manganese, beryllium, copper and gold.

While such companies deny that their workers are mistreated, reports show that Uyghurs are subject to what could easily be deemed to be forced labor.

Uyghurs who refuse to work in accordance with Chinese government policies are often sent to internment camps, and in May it was [revealed](#) that many of those camps have a "shoot-to-kill" policy for those who attempt to escape.

Thus, the official claim that "all employment is voluntary" is not supported.

In addition to forced labor, Uyghurs are also subjected to re-education, wherein government-appointed "teachers" attempt to create loyal subjects to the nation and communist regime.

On June 21, a new law will go into effect in the United States called the "Uyghur Forced Labor Prevention Act." As NPR [reports](#), it gives the US authority to seize goods produced in Xinjiang unless companies can prove they did not engage in forced labor practices.

It's true that doing so will be resisted by Democrats who don't want to slow the deployment of solar panels and electric cars in the US, and be resisted by free market Republicans, but the evidence is clear and this is becoming a moral and national security imperative.

Environmental realist, author, and California gubernatorial candidate Michael Shellenberger is one of many calling on the Biden administration to go one step further and ban the importation of all goods from Xinjiang. He says the US should instead focus on manufacturing green technology at home.

As he points out, however, the decision would face pushback from both Democrats "who don't want to slow the deployment of solar panels and electric cars in the US," and "free market Republicans."

The world has shone a spotlight on the Chinese government's treatment of the Uyghurs in Xinjiang, but it remains to be seen whether the Communist Party and the companies to which it is so closely tied will change their practices.

Any issues re: culpability can be easily resolved in meetings with the FBI, FINCEN, The SEC, The IRS, The FTC, ICIJ.ORG and open Congressional hearings! Never was the term: "Follow The Money" more appropriate than for these people! Why are these people not yet arrested for election manipulation, RICO and Anti-trust violations, money laundering, bribery and other illicit deeds? Who is protecting them? Who is telling the police not to act? This list also serves as a demand for investigation and prosecution of these individuals who conspired to engage in these illicit acts. This is not the complete list.
