We are seeking a resolution to this matter.

One of our victims was attacked and fully disabled in 2008. The victims were attacked in reprisal for helping law enforcement break a high-end crime case involving public officials. (The keywords: "Solyndra", "Uranium1", "Severstal", "Cleantech Crash", "Flashboy Algorithms" and related, should bring up the case matters in any forensic law enforcement database) (Court records case numbers are also available for additional investigation). Hundreds of thousands of case file records exist about this case.

Victim "A" had personal relationships with some of the most well-known public figures in the nation as proven in letters, videos and news photos. Victim "A" was an eye-witnesses to the crimes under investigation. Victim "A" was a federal contractor/employee.

The Victims have suffered a large number of attacks and many of those attacks (and the attackers) have been forensically tracked back to financing by the public officials under investigation.

We have contacted every law enforcement and regulatory agency already. Each of them finger-point to another agency in an endless blame-game and/or a "not-our-responsibility" stonewalling run-around.

The victims have suffered, and continue to suffer, violation of their civil, human and Constitutional rights.

The victims and their associates were induced to invest millions of dollars, and all of their life savings, in a government run project. It was later discovered that every government operator of that project was either financed by, friends, with, sleeping with, dating the staff of, holding stock market assets in, promised a revolving door job or government service contracts from, partying with, personal friends with, photographed at private events with, exchanging emails with, business associates of or directed by, the victims business adversaries, or the politicians that those business adversaries pay campaign finances to, or supply political digital search manipulation services to.

In addition to the damages from being defrauded by Government officials, each of the attacks on the victims has court precedent metrics, from other cases, that set a value to the additional damages suffered by the victims.

Legal causes of action include: ABUSE OF PROCESS; FTCA VIOLATIONS; ACCOUNT STATED; BREACH OF CONTRACT; CONVERSION; DEFAMATION; FRAUDULENT MISREPRESENTATION; FRAUDULENT CONCEALMENT; INJURIOUS FALSEHOOD, PRODUCT DISPARAGEMENT AND TRADE LABEL; CIVIL RIGHTS VIOLATIONS AND VIOLATIONS OF THE U.S. CONSTITUTION; MISAPPROPRIATION OF TRADE SECRETS; PRIMA FACIE TORT; QUANTUM MERUIT; TORTIOUS INTERFERENCE INCLUDING a.) Tortious interference with an existing contract, b.) Tortious interference with prospective, c.) Tortious interference with business relations contractual relations; PATENT INFRINGEMENT; PERSONAL INJURY; UNJUST ENRICHMENT; ANTI-TRUST LAW VIOLATIONS; LABOR LAW VIOLATIONS AND OTHER CAUSES.

In a past federal lawsuit, the victims won their lawsuit proving that government officials manipulated their funding applications.

Victim "A" is now unable to afford a lawyer. "Free" legal services, such as the government's LSC Corporation, and all other pro bono lawyers have refused to assist because they are conflicted-out as their funding, or support, of one, or another political candidates puts them in conflict-of-interest.

David L. Anderson, U.S. Attorney for the Northern District of California, (San Francisco) and other U.S. Attorney's were asked, in writing, to file a jury trial action on behalf of the Victim but they have not responded to communications.

The FBI has informed us that this is an ongoing active investigation involving major public officials. We have received case numbers from many agencies but those agencies do not provide case updates.

The attacks and damages include physical attacks; ramming of subjects car; death threats; exposure to toxic materials; SSA benefits blockades; tens of millions of dollars of Google/Gawker Media coordinated internet attacks and server manipulations and other tactics.

We demand damages, back-pay, back-benefits, expenses, legal fees and related costs but government officials have cut off our ability to get legal counsel.

How will you help our case?

This case is not about Democrats or Republicans. It is about organized crime, racketeering, mobsters and felony crimes.

White House Staff including Rahm Emanuel, Bill Daley, Jay Carney, David Plouffe, Robert Gibbs, Steve Rattner, David Axelrod, John Podesta, et al; and The Secretary of Energy Steven Chu and the Chief Counsel for the United States Department of Energy Daniel Cohen and Bill Cooper were, (from 2007 forward), either financed by, friends, with, sleeping with, dating the staff of, holding stock market assets in, promised a revolving door job or government service contracts from, partying with, personal friends with, photographed at private events with, exchanging emails with, business associates of or directed by, our business adversaries, or the Senators and Department of Energy politicians that those business adversaries pay campaign finances to, or supply political digital search manipulation services to. Criminal U.S. Senators coordinated and profited in these schemes. Their own family members have now supplied evidence against them. Elon Musk and his frat boys display their self-aggrandizing vanity in sociopath glory because nobody tells them "no". Now we are calling them out!

From 2007 forward, The White House and The Department Of Energy were controlled by the Silicon Valley tech oligarchs for monopolistic profiteering! That is a violation of the law, the Constitution and the American Way. The named person's we have presented to the FBI, DOJ, SEC and other agencies, engaged in crimes to personally profit in the stock market and political venues. At the same time they operated the command and control of millions of dollars of defamation, character assassination and black-list attacks against us for reporting their crimes. These perpetrators are now being exposed, arrested, indicted and drained of their ill-gotten profits. We are owed our damages compensation and we will not rest until we get it! Every member of the public is invited to help crowd-source the termination of these corrupt crooks.

We worked for, with, in and around the White House and The Department of Energy. We were at the homes of the most famous people in government and their Silicon Valley financiers. We have cooperated with top law enforcement and Congressional investigators. Additional whistle-blowers have provided our effort with even more evidence. Ourselves, and investigating agencies, have absolute proof of the crimes, corruption and illicit activities and the ongoing cover-ups.

James Bronkema, Tom Perkins, John Doerr and other well-known oligarchs, invited us to join their organized crime scam. We refused to be a part of their crimes and assisted federal investigators in their investigations and prosecutions of the Cartel operated by a group of technology insiders. The videos: *"The Creepy Line"*; *"Omerta"*; *"Too Big To Fail"*; The 60 Minutes Episodes: *"Cleantech Crash"*; *"The Lobbyists Playbook"*; *"Congress Trading On Insider Information"*; and hundreds of other news segments and documentaries cover these crimes and illicit schemes in great detail.

Since the 70's Applicant has been a USPTO awarded inventor of seminal first-ever inventions now in use by billions of people globally and a program director of national projects. Applicant has been awarded federal commendations, state and federal innovation grants, government R&D contracts,

A group of domestic citizens filed FBI complaints and lawsuits against The President of the United States and his senior staff along with a lawsuit against a rogue off-shoot of the CIA called "In-Q-Tel", a partner/financier of Google and Facebook. These citizens instigated Congressional corruption investigations and hearings against the most senior members of the State and Federal government. These actions resulted in the termination of very famous public officials and their crony criminal embezzlement scams and almost resulted in the President being forced to leave office, mid-term, based on revelations of a massive crony kick-back scheme which began to be exposed after the FBI raid of Solyndra. The director of the FBI was fired for assisting in cover-ups related to this matter.

This natural-born American domestic group of engineers was attacked with a \$30 million dollar+ retribution/political reprisal program contracted by White House political operatives, and their appointees, who were also the business competitors of the engineers. The attackers used Fusion GPS-type character assassination smear campaigns (operated by their cronies at Google, Gawker, Gizmodo, Jalopnik and Facebook), NVCA black-listing, Solyndra-laundering, stone-walling, Lois Lerner-class agency manipulation and search engine rigging. In-Q-Tel turns out to be the only federally financed "charity" whose staff are also employed by each of the suspects in this case and who financed the suspects in this case. It was revealed that White House executives ordered government agencies to harm members of the public and to reprisal with-hold public resources from the public. This was a violation of tort, RICO and anti-trust laws.

The victims fought back.

With the encouragement of members of Congress they used 100% legal tools to interdict the corruption.

Essentially, they helped the United States government sue itself!

First, with a unique new kind of pioneering federal lawsuit, victims established — FOR THE FIRST TIME IN LEGAL HISTORY — that political cronyism is a valid basis for a claim of arbitrary-and-capricious agency action under the Administrative Procedure Act. See: Federal Case One, (D.D.C. 2015).

Second, they prevailed in the United States Court of Appeals for the District of Columbia Circuit on their appeal of the district court's ruling that an agency may escape judicial review of its action by requesting a voluntary remand but refusing to reconsider its initial denial of an application. See: Case Federal Two, (D.C. Cir. 2017). The Washington DC Circuit agreed with the victims that an agency may only seek a remand if it promises to reconsider its initial decision. It is because of that victory that the government, under court order is now re-doing the victims applications and GAO, FBI, IG's and Congressional oversight offices are watching to assure effective ethics and transparency.

Third, these cases placed, on permanent public record, one of the most detailed documentation sets, ever assembled, about how modern political "Dark Money" conduits operate. The legal team hired ex-FBI, CIA and SEC experts to track down covert bank accounts, revolving door bribes, insider stock trades and other payola between the victim's competitors and public officials. This documentation now prevents the use of those kinds of criminal efforts, in the future, by exposing their tactics to the public.

Fourth, the victim's team engaged in the interdiction and termination of corrupt agency executives, contractors and their financiers. This included some of the most well-known names in Washington, DC, at the time. Many of them were, and are still being, investigated and surveilled by the FBI, GAO, SEC and Congress.

Fifth, and most important, the effort put every corrupt political scheme on notice that they WILL be found out and interdicted!

The bottom line?

The victims group WON on every single aspect of their public-interest goals but still have yet to be recompensed for their damages!

Now the "bad guys" have less options to engage in the corruption of our Democracy but the crime Cartel that operated these felonies has still not been arrested because the perpetrators have friendships and payola deals with some of the highest level executives in the intelligence and law enforcement agencies! The cover-ups are still going on! A President of The United States has now publicly testified to the veracity of this fact!

WITNESS STATEMENTS

A. *My co-workers and I witnessed some guys stealing money from both, our company and the US Government Treasury. We reported it to the cops. It turned out to be part of one of the biggest embezzlement crimes ever exposed. Major political figures and tech "bosses" turned out to be running a "PayPal Tech Mafia". The bad guys then began hunting us down and attacking us in reprisal "for the rest of our lives" per their threats and their ongoing retribution vendettas.*

It was found that famous senators, their Silicon Valley oligarch financiers and their associates run an organized crime insider trading scam that abuses taxpayers and sabotages competing businesses. The terminations of the heads of the FBI, The Department of Energy and other famous people in politics is because of their operation, and cover-ups, of this case. The cover-ups are still going on. Our ability to get justice in this matter is still blockaded.

We will fight to the death to get justice because they tried to kill us, ruin our business and destroy our names. Every day an increasingly large number of the 300 million potential voters join the effort to expose, shame, dox, bankrupt, boycott and 100% legally exterminate the corrupt entities who did these illicit things by using our Democracy as their billionaire's plaything.

Hundreds of the perpetrators have already been fired, placed under permanent public surveillance, financially tracked through every asset, reported to federal agencies and targeted for investigation.

This is a large part of all of that "political corruption" and "dirty Dark Money" politics you read about in the newspaper every day.

The goal is to interdict every single person, company and political operative group who is engaging in these crimes using crowd-sourced investigation and intelligence tools.

B. *THIS CASE IS ENTIRELY ABOUT BRIBERY! If you thought that Mossack Fonseca and the Panama Papers was "The Story": it was only the beginning! silicon valley's politicians make policy that, both, ruins taxpayers while making the politicians rich by artificially inflating the value of the politicians secret stock market holdings. now we are exposing their entire scam!*

C. *This is about the Senators and their crony dark money political bribes and criminal kick-backs, the tech oligarchs who deployed the bribes and the victims of these crimes. imagine living in a world where almost every one of the public officials that were supposed to help you turned out to be your business competitors. imagine having them use government resources to profit at your expense, blockade you and treat democracy like a garage sale! this is that story! Google, Tesla, Facebook, LinkedIn and their VC's (and deeply bribed Senators) ordered and operated hit-jobs on the public and their competitors, supported by the Obama White House and U.S. Dept. of Energy. The FBI raided their scheme and the investigations tracked all the way back to the Oval Office! This is about a group of tech oligarchs, and their corrupt Senators, who commit crimes in order to manipulate over a trillion tax dollars (YOUR MONEY) into their, and their friends pockets. They are felons yet they control some of the offices of the agencies who are supposed to*

arrest them. Silicon Valley bought K Street and U.S. Senators, gave them more Dark Money than history has ever seen and then had giant tech-lawfirms bribe, hit-job and blockade any attempts to solve the problem.

D. Some of the largest bribes in American history were paid via billions of dollars of pre-IPO cleantech stock, insider trading, real estate, Google search engine rigging and shadow-banning, sex workers, revolving door jobs, nepotism, state-supported black-listing of competitors and under-the-table cash. Why are these Silicon Valley Oligarchs and their K-Street lawfirms and lobbyists immune from the law? U.S. Senators, Agency Heads and Congress are being bribed with:

- Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures stock and stock warrants which is never reported to the FEC

- Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures search engine rigging including shadow-banning, de-boosting, DNS re-routing, directed search suggestion, subliminal messaging bias, and hundreds of other psychological manipulation tricks; the value of which is never reported to the FEC but proven by invoices and bank payments between Google and Gawker, Gizmodo, DNC, Fusion GPS, Black Cube, etc.

- Free rent

- Prostitutes and Rent Boys

- Cars

- Dinners

- Party Financing

- Sports Event Tickets

- Campaign Services "Donations"

- Secret PAC Financing

- Jobs in Corporations in Silicon Valley For The Family Members of Those Who Take Bribes And Those Who Take Bribes, Themselves

- "Consulting" contracts from McKinsey as fronted pay-off gigs

- Overpriced "Speaking Engagements" which are really just pay-offs conduited for donors

- Private jet rides and use of Government fuel depots (ie: Google handed out NASA jet fuel to staff)

- Real Estate

- The use of Cayman, Boca Des Tores, Swiss and related laundering accounts

- The use of HSBC, Wells Fargo and Deutsche Bank money laundering accounts

- Free spam and bulk mailing services owned by corporations

- Use of high tech lawfirms such as Perkins Coie, Wilson Sonsini, MoFo, Covington & Burling, etc. to conduit bribes to officials

While our investigators were able to get a law produced that made insider trading less attractive for Congress, nothing has been done to stop stock warrant bribes and revolving door payola. Additionally, even with the newlaw, 60% of the U.S. Congress (including their associates and families) STILL engage in insider trading because lawenforcement has not prosecuted many of them.

E. These crooks did this to anybody who they thought might expose the White House use of agencies as "slush-funds" and "Dark Money" campaign finance laundering conduits. They were afraid that exposure of these schemes would cause the President of the United States to be forced to resign in the middle of his term! The provided evidence, signed by thousands of reporters and investigators, that the suspects are: A.) Based around Silicon Valley and Washington DC; B.) Operating as a RICO-violating cartel; C.) Deeply sociopath and sexually disturbed; D.) Money laundering via large lawfirms and investment banks; E.) Using Google, Reddit, Facebook, etc. as mass political behavior-manipulation programs; F.) Paying for and operating character assassination programs against those who defy them; G.) Using "green energy" as one of their facades to steer tax dollars to the companies that they, and their friends, already own and work for; H.) Willing to resort to the most extreme things to protect their scheme; I.) Living in an ideological "echo-chamber" in their tech bubbles; J.) Empowered entirely by the public's lack of willingness to boycott them and demand their arrests. A vast number of individuals and companies, who are willing to testify about these crimes have NEVER BEEN ALLOWED into a Congressional hearing, court-room, FBI 302 interview, etc., because crooked Senators are terrified of the confirming testimony they can all provide.

F. We placed autonomous monitoring applications on a vast number of co-location servers, shared hosting ISPs, stand-alone servers and sites around the world over ten years ago and monitored: 1.) Google search results compared to other search engines, 2.) Google DNS and spoofing activities, 3.) Google results on 100 key search terms including search terms of assets, candidates and business associates connected to Google, 4.) Where Google sends data from users clicking on Google supplied links, 5.) Where fabricated mole data that was injected as user data ultimately ended up later, and other metrics. The results prove that Google abuses the market, the public, politics and human rights. Elon Musk boyfriends: Larry Page, Eric Schmidt, Jared Cohen and Sergy Brin at Google and Mark Zuckerberg at Facebook order their company staff to hide, down-rank, hole-punch the net, shadow-ban, stock market valuation manipulate and exclude this website on the internet. We track every technical trick they use and report it to congress and anti-trust agencies. The more they do it, the more they create evidence that will put them out of business! The Google empire controls most of the media on Earth, via many front corporations, and indoctrinates everyone in it's organization using 'cult' methodologies. Google owner's believe in "our-ideology-at-any-cost" and "the-ends-justify-the-means" scenarios. What could possibly go wrong?

G. Every single Dept of Energy executive, and related Senator, owns stock market assets in Tesla, Fisker, Solyndra, Ener1, etc. so they blockaded and sabotaged every applicant who competed with their holdings in a RICO-violating, felony organized crime, using taxpayer funds. If you are reading this, please demand a public Congressional Special Counsel investigation! Many of those character assassinated, sabotaged, black-listed, poisoned and shadow-banned are still waiting for justice!

H. The Silicon Valley Mafia is The Sandhill Road Venture Capital frat boy company bosses in Palo Alto, their National Venture Capital Association (NVCA) partners and the tech companies (Google, Tesla, Facebook, Amazon, Twitter, LinkedIn, etc.) they control. They are sometimes referred to as The Deep State. They have purchased California, New York and Washington, DC politicians (mostly Senators) who they also control. They hire rogue ex-intelligence agents to operate attacks via Fusion GPS, The Gawker/Gizmodo/Jalopnik/Univision Hatchet-Job Fake Tabloid Facade (ie: Obama had White House staff: Robert Gibbs and John Podesta hire them, in association with Obama financier Elon Musk, to attack XP Vehicles, Bright Automotive and ZAP Vehicles as retribution in violation of anti-trust laws), Black Cube, ShareBlue, NewAmerica, In-Q-Tel, Podesta Group, Media Matters, etc. They spend over \$30M on each massive media attack program against competitors, reporters and outsiders. They collude on black-lists, valuation controls, election manipulation, search engine rigging, domestic spying for political manipulation, stock rigging, insider trading, executive prostitute clubs, trophy wife assignments, the bribery of politicians and worse. They are felons who pay politicians to halt investigations and interdiction efforts. They are widely covered in news media articles as: sex abusers, cult enthusiasts, elitists, rapists, woman beaters, sexual work extortion operators, extremists, arrogant clones of each other, tone deaf, echo-chamber reinforcing, misogynist, racist, manipulative, insecure, covertly gay, corrupt, thieves' and other anti-social revelations.

The divorce and sex abuse court filings against the #PaloAltoMafia men of Silicon Valley are some of the most disturbing and sexually twisted court records you will ever read and they demonstrate a clear and decades-long pattern of collusion and depravity. From Google's "Sex Slaves" to "Sex Penthouses" to "Deaths by Prostitute"; the list is endless.

They are not limited to California and also operate out of New York and Washington DC. They use their monopolistic control of the internet to massively and exclusively scale services that only they control and use to abuse public privacy, human rights, invention rights and information. They run their cartel like the old Italian Mafia once did.

The Hit Jobs

Here is just one of the ways google and the Nick Denton tabloids (Gawker, Gizmodo, Jalopnik, etc.) partnered to attack us, and other members of the public, in exchange for payments from White House staff and Silicon Valley oligarchs:

This is how google rigs elections and character assassination attacks around the globe as researched by Robert Epstein:

Authorities in the UK have finally figured out that fake news stories and Russian-placed ads are not the real problem. The UK Parliament is about to impose stiff penalties—not on the people who place the ads or write the stories, but on the Big Tech platforms that determine which ads and stories people actually see.

Parliament's plans will almost surely be energized by the latest leak of damning material from inside Google's fortress of secrecy: The Wall Street Journal recently reported on emails exchanged among Google employees in January 2017 in which they strategized about how to alter Google search results and other "ephemeral experiences" to counter President Donald Trump's newly imposed travel ban. The company claims that none of these plans was ever implemented, but who knows?

While U.S. authorities have merely held hearings, EU authorities have taken dramatic steps in recent years to limit the powers of Big Tech, most recently with a comprehensive law that protects user privacy—the General Data Protection Regulation—and a whopping \$5.1 billion fine against Google for monopolistic practices in the mobile device market. Last year, the European Union also levied a \$2.7 billion fine against Google for filtering and ordering search results in a way that favored their own products and services. That filtering and ordering, it turns out, is of crucial importance.

As years of research I've been conducting on online influence has shown, content per se is not the real threat these days; what really matters is (a) which content is selected for users to see, and (b) the way that content is ordered in search results, search suggestions, news feeds, message feeds, comment lists, and so on. That's where the power lies to shift opinions, purchases, and votes, and that power is held by a disturbingly small group of people.

I say "these days" because the explosive growth of a handful of massive platforms on the internet—the largest, by far, being Google and the next largest being Facebook—has changed everything. Millions of people and organizations are constantly trying to get their content in front of our eyes, but for more than 2.5 billion people around the world—soon to be more than 4 billion—the responsibility for what algorithms do should always lie with the people who wrote the algorithms and the companies that deployed them.

In randomized, controlled, peer-reviewed research I've conducted with thousands of people, I've shown repeatedly that when people are undecided, I can shift their opinions on just about any topic just by changing how I filter and order the information I show them. I've also shown that when, in multiple searches, I show people more and more information that favors one candidate, I can shift opinions even farther. Even more disturbing, I can do these things in ways that are completely invisible to people and in ways that don't leave paper trails for authorities to trace.

Worse still, these new forms of influence often rely on ephemeral content—information that is generated on the fly by an algorithm and then disappears forever, which means that it would be difficult, if not impossible, for authorities to reconstruct. If, on Election Day this coming November, Mark Zuckerberg decides to broadcast go-out-and-vote reminders mainly to members of one political party, how would we be able to detect such a manipulation? If we can't detect it, how would we be able to reduce its impact? And how, days or weeks later, would we be able to turn back the clock to see what happened?

Of course, companies like Google and Facebook emphatically reject the idea that their search and newsfeed algorithms are being tweaked in ways that could meddle in elections. Doing so would undermine the public's trust in their companies, spokespeople have said. They insist that their algorithms are complicated, constantly changing, and subject to the "organic" activity of users.

This is, of course, sheer nonsense. Google can adjust its algorithms to favor any candidate it chooses no matter what the activity of users might be, just as easily as I do in my experiments. As legal scholar Frank Pasquale noted in his recent book "The Black Box Society," blaming algorithms just doesn't cut it; the responsibility for what an algorithm does should always lie with the people who wrote the algorithm and the companies that deployed the algorithm. Alan Murray, president of Fortune, recently framed the issue this way: "Rule one in the Age of AI: Humans remain accountable for decisions, even when made by machines."

Given that 95 percent of donations from Silicon Valley generally go to Democrats, it's hard to imagine that the algorithms of companies like Facebook and Google don't favor their favorite candidates. A newly leaked video of a 2016 meeting at Google shows without doubt that high-ranking Google executives share a strong political preference, which could easily be expressed in algorithms. The favoritism might be deliberately programmed or occur simply because of unconscious bias. Either way, votes and opinions shift.

It's also hard to imagine how, in any election in the world, with or without intention on the part of company employees, Google search results would fail to tilt toward one candidate. Google's search algorithm certainly has no equal-time rule built into it; we wouldn't want it to! We want it to tell us what's best, and the algorithm will indeed always favor one dog food over another, one music service over another, and one political candidate over another. When the latter happens ... votes and opinions shift.

Here are 10 ways—seven of which I am actively studying and quantifying—that Big Tech companies could use to shift millions of votes this coming November with no one the wiser. Let's hope, of course, that these methods are not being used and will never be used, but let's be realistic too; there's generally no limit to what people will do when money and power are on the line.

1. Search Engine Manipulation Effect (SEME)

Ongoing research I began in January 2013 has shown repeatedly that when one candidate is favored over another in search results, voting preferences among undecided voters shift dramatically—by 20 percent or more overall, and by up to 80 percent in some demographic groups. This is partly because people place inordinate trust in algorithmically generated output, thinking, mistakenly, that algorithms are inherently objective and impartial.

But my research also suggests that we are conditioned to believe in high-ranking search results in much the same way that rats are conditioned to press levers in Skinner boxes. Because most searches are for simple facts ("When was Donald Trump born?"), and because correct answers to simple questions inevitably turn up in the first position, we are taught, day after day, that the higher a search result appears in the list, the more true it must be. When we finally search for information to help us make a tough decision ("Who's better for the economy, Trump or Clinton?"), we tend to believe the information on the web pages to which high-ranking search results link.

As The Washington Post reported last year, in 2016, I led a team that developed a system for monitoring the election-related search results Google, Bing, and Yahoo were showing users in the months leading up to the presidential election, and I found pro-Clinton bias in all 10 search positions on the first page of Google's search results. Google responded, as usual, that it has "never re-ranked search results on any topic (including elections) to manipulate political sentiment"—but I never claimed it did. I found what I found, namely that Google's search results favored Hillary Clinton; "re-ranking"—an obtuse term Google seems to have invented to confuse people—is irrelevant.

Because (a) many elections are very close, (b) 90 percent of online searches in most countries are conducted on just one search engine (Google), and (c) internet penetration is high in most countries these days—higher in many countries than it is in the United States—it is possible that the outcomes of upwards of 25 percent of the world's national elections are now being determined by Google's search algorithm, even without deliberate manipulation on the part of company employees. Because, as I noted earlier, Google's search algorithm is not constrained by equal-time rules, it almost certainly ends up favoring one candidate over another in most political races, and that shifts opinions and votes.

2. Search Suggestion Effect (SSE)

When Google first introduced autocomplete search suggestions—those short lists you see when you start to type an item into the Google search bar—it was supposedly meant to save you some time. Whatever the original rationale, those suggestions soon turned into a powerful means of manipulation that Google appears to use aggressively.

My recent research suggests that (a) Google starts to manipulate your opinions from the very first character you type, and (b) by fiddling with the suggestions it shows you, Google can turn a 50–50 split among undecided voters into a 90–10 split with no one knowing. I call this manipulation the Search Suggestion Effect (SSE), and it is one of the most powerful behavioral manipulations I have ever seen in my nearly 40 years as a behavioral scientist.

How will you know whether Google is messing with your election-related search suggestions in the weeks leading up to the election? You won't.

3. The Targeted Messaging Effect (TME)

If, on Nov. 8, 2016, Mr. Zuckerberg had sent go-out-and-vote reminders just to supporters of Mrs. Clinton, that would likely have given her an additional 450,000 votes. I've extrapolated that number from Facebook's own published data.

Because Zuckerberg was overconfident in 2016, I don't believe he sent those messages, but he is surely not overconfident this time around. In fact, it's possible that, at this very moment, Facebook and other companies are sending out targeted register-to-vote reminders, as well as targeted go-out-and-vote reminders in primary races. Targeted go-out-and-vote reminders might also favor one party on Election Day in November.

My associates and I are building systems to monitor such things, but because no systems are currently in place, there is no sure way to tell whether Twitter, Google, and Facebook (or Facebook's influential offshoot, Instagram) are currently tilting their messaging. No law or regulation specifically forbids the practice, and it would be an easy and economical way to serve company needs. Campaign donations cost money, after all, but tilting your messaging to favor one candidate is free.

4. Opinion Matching Effect (OME)

In March 2016, and continuing for more than seven months until Election Day, Tinder's tens of millions of users could not only swipe to find sex partners, they could also swipe to find out whether they should vote for Trump or Clinton. The website iSideWith.com—founded and run by "two friends" with no obvious qualifications—claims to have helped more than 49 million people match their opinions to the right candidate. Both CNN and USA Today have run similar services, currently inactive.

I am still studying and quantifying this type of, um, helpful service, but so far it looks like (a) opinion matching services tend to attract undecided voters—precisely the kinds of voters who are most vulnerable to manipulation, and (b) they can easily produce opinion shifts of 30 percent or more without people's awareness.

At this writing, iSideWith is already helping people decide who they should vote for in the 2018 New York U.S. Senate race, the 2018 New York gubernatorial race, the 2018 race for New York District 10 of the U.S. House of Representatives, and, believe it or not, the 2020 presidential race. Keep your eyes open for other matching services as they turn up, and ask yourself this: Who wrote those algorithms, and how can we know whether they are biased toward one candidate or party?

5. Answer Bot Effect (ABE)

More and more these days, people don't want lists of thousands of search results, they just want the answer, which is being supplied by personal assistants like Google Home devices, the Google Assistant on Android devices, Amazon's Alexa, Apple's Siri, and Google's featured snippets—those answer boxes at the top of Google search results. I call the opinion shift produced by such mechanisms the Answer Bot Effect (ABE).

My research on Google's answer boxes shows three things so far: First, they reduce the time people spend searching for more information. Second, they reduce the number of times people click on search results. And third, they appear to shift opinions 10 to 30 percent more than search results alone do. I don't yet know exactly how many votes can be shifted by answer bots, but in a national election in the United States, the number might be in the low millions.

6. Shadow-banning

Recently, Trump complained that Twitter was preventing conservatives from reaching many of their followers on that platform through shadowbanning, the practice of quietly hiding a user's posts without the user knowing. The validity of Trump's specific accusation is arguable, but the fact remains that any platform on which people have followers or friends can be rigged in a way to suppress the views and influence of certain individuals without people knowing the suppression is taking place. Unfortunately, without aggressive monitoring systems in place, it's hard to know for sure when or even whether shadowbanning is occurring.

7. Programmed Virality and the Digital Bandwagon Effect (The manually pumped Streisand Effect)

Big Tech companies would like us to believe that virality on platforms like YouTube or Instagram is a profoundly mysterious phenomenon, even while acknowledging that their platforms are populated by tens of millions of fake accounts that might affect virality.

In fact, there is an obvious situation in which virality is not mysterious at all, and that is when the tech companies themselves decide to shift high volumes of traffic in ways that suit their needs. And aren't they always doing this? Because Facebook's algorithms are secret, if an executive decided to bestow instant Instagram stardom on a pro-Elizabeth Warren college student, we would have no way of knowing that this was a deliberate act and no way of countering it.

The same can be said of the virality of YouTube videos and Twitter campaigns; they are inherently competitive—except when company employees or executives decide otherwise. Google has an especially powerful and subtle way of creating instant virality using a technique I've dubbed the Digital Bandwagon Effect. Because the popularity of websites drives them higher in search results, and because high-ranking search results increase the popularity of websites (SEME), Google has the ability to engineer a sudden explosion of interest in a candidate or cause with no one—perhaps even people at the companies themselves—having the slightest idea they've done so. In 2015, I published a mathematical model showing how neatly this can work.

8. The Facebook Effect

Because Facebook's ineptness and dishonesty have squeezed it into a digital doghouse from which it might never emerge, it gets its own precinct on my list.

In 2016, I published an article detailing five ways that Facebook could shift millions of votes without people knowing: biasing its trending box, biasing its center newsfeed, encouraging people to look for election-related material in its search bar (which it did that year!), sending out targeted register-to-vote reminders, and sending out targeted go-out-and-vote reminders.

I wrote that article before the news stories broke about Facebook's improper sharing of user data with multiple researchers and companies, not to mention the stories about how the company permitted fake news stories to proliferate on its platform during the critical days just before the November election—problems the company is now trying hard to mitigate. With the revelations mounting, on July 26, 2018, Facebook suffered the largest one-day drop in stock value of any company in history, and now it's facing a shareholder lawsuit and multiple fines and investigations in both the United States and the EU.

Facebook desperately needs new direction, which is why I recently called for Zuckerberg's resignation. The company, in my view, could benefit from the new perspectives that often come with new leadership.

9. Censorship

I am cheating here by labeling one category "censorship," because censorship—the selective and biased suppression of information—can be perpetrated in so many different ways.

Shadowbanning could be considered a type of censorship, for example, and in 2016, a Facebook whistleblower claimed he had been on a company team that was systematically removing conservative news stories from Facebook's newsfeed. Now, because of Facebook's carelessness with user data, the company is openly taking pride in rapidly shutting down accounts that appear to be Russia-connected—even though company representatives sometimes acknowledge that they "don't have all the facts."

Meanwhile, Zuckerberg has crowed about his magnanimity in preserving the accounts of people who deny the Holocaust, never mentioning the fact that provocative content propels traffic that might make him richer. How would you know whether Facebook was selectively suppressing material that favored one candidate or political party? You wouldn't. (For a detailed look at nine ways Google censors content, see my essay "The New Censorship," published in 2016.)

10. The Digital Customization Effect (DCE)

Any marketer can tell you how important it is to know your customer. Now, think about that simple idea in a world in which Google has likely collected the equivalent of millions of Word pages of information about you. If you randomly display a banner ad on a web page, out of 10,000 people, only five are likely to click on it; that's the CTR—the "clickthrough rate" (0.05 percent). But if you target your ad, displaying it only to people whose interests it matches, you can boost your CTR a hundredfold.

That's why Google, Facebook, and others have become increasingly obsessed with customizing the information they show you: They want you to be happily and mindlessly clicking away on the content they show you.

In the research I conduct, my impact is always larger when I am able to customize information to suit people's backgrounds. Because I know very little about the participants in my experiments, however, I am able to do so in only feeble ways, but the tech giants know everything about you—even things you don't know about yourself. This tells me that the effect sizes I find in my experiments are probably too low. The impact that companies like Google are having on our lives is quite possibly much larger than I think it is. Perhaps that doesn't scare you, but it sure scares me.

The Same Direction

OK, you say, so much for Epstein's list! What about those other shenanigans we've heard about: voter fraud (Trump's explanation for why he lost the popular vote), gerrymandering, rigged voting machines, targeted ads placed by Cambridge Analytica, votes cast over the internet, or, as I mentioned earlier, those millions of bots designed to shift opinions. What about hackers like Andrés Sepúlveda, who spent nearly a decade using computer technology to rig elections in Latin America? What about all the ways new technologies make dirty tricks easier in elections? And what about those darn Russians, anyway?

To all that I say: kid stuff. Dirty tricks have been around since the first election was held millennia ago. But unlike the new manipulative tools controlled by Google and Facebook, the old tricks are competitive—it's your hacker versus my hacker, your bots versus my bots, your fake news stories versus my fake news stories—and sometimes illegal, which is why Sepúlveda's efforts failed many times and why Cambridge Analytica is dust.

"Cyberwar," a new book by political scientist Kathleen Hall Jamieson, reminds us that targeted ads and fake news stories can indeed shift votes, but the numbers are necessarily small. It's hard to overwhelm your competitor when he or she can play the same games you are playing.

Now, take a look at my numbered list. The techniques I've described can shift millions of votes without people's awareness, and because they are controlled by the platforms themselves, they are entirely noncompetitive. If Google or Facebook or Twitter wants to shift votes, there is no way to counteract their manipulations. In fact, at this writing, there is not even a credible way of detecting those manipulations.

And what if the tech giants are all leaning in the same political direction? What if the combined weight of their subtle and untraceable manipulative power favors one political party? If 150 million people vote this November in the United States, with 20 percent still undecided at this writing (that's 30 million people), I estimate that the combined weight of Big Tech manipulations could easily shift upwards of 12 million votes without anyone knowing. That's enough votes to determine the outcomes of hundreds of close local, state, and congressional races throughout the country, which makes the free-and-fair election little more than an illusion.

Full disclosure: I happen to think that the political party currently in favor in Silicon Valley is, by a hair (so to speak), the superior party at the moment. But I also love America and democracy, and I believe that the free-and-fair election is the bedrock of our political system. I don't care how "right" these companies might be; lofty ends do not justify shady means, especially when those means are difficult to see and not well understood by either authorities or the public.

Can new regulations or laws save us from the extraordinary powers of manipulation the Big Tech companies now possess? Maybe, but our leaders seem to be especially regulation-shy these days, and I doubt, in any case, whether laws and regulations will ever be able to keep up with the new kinds of threats that new technologies will almost certainly pose in coming years.

I don't believe we are completely helpless, however. I think that one way to turn Facebook, Google, and the innovative technology companies that will succeed them, into responsible citizens is to set up sophisticated monitoring systems that detect, analyze, and archive what they're showing people—in effect, to fight technology with technology.

As I mentioned earlier, in 2016, I led a team that monitored search results on multiple search engines. That was a start, but we can do much better. These days, I'm working with business associates and academic colleagues on three continents to scale up systems to monitor a wide range of information the Big Tech companies are sharing with their users—even the spoken answers provided by personal assistants. Ultimately, a worldwide ecology of passive monitoring systems will make these companies accountable to the public, with information bias and online manipulation detectable in real time.

With November drawing near, there is obviously some urgency here. At this writing, it's not clear whether we will be fully operational in time to monitor the midterm elections, but we're determined to be ready for 2020.

Our Complaint to The FTC

We have asked FTC task force will take on Silicon Valley tech monopolies and has 1000 page report about Facebook, Tesla, Paypal and Google monopoly crimes from San Francisco insiders

OUR TEAM IS REPORTING DIRECTLY TO THE FTC INVESTIGATORS

And they're going to look at previous mergers

By Makena Kelly

The Federal Trade Commission will be launching a task force to monitor competition in the US's technology markets, commissioners announced today.

The task force will include current officials working in the agency's Bureau of Competition in order to "enhance the Bureau's focus on technology-related sectors of the economy, including markets in which online platforms compete." It will also include 17 staff attorneys who will be tasked with investigating anti-competitive behavior in the tech industry.

"The role of technology in the economy and in our lives grows more important every day," FTC Chairman Joe Simons said. "As I've noted in the past, it makes sense for us to closely examine technology markets to ensure consumers benefit from free and fair competition."

"Technology markets ... raise distinct challenges for antitrust enforcement"

The new task force comes amid growing pressure for antitrust action against large tech companies like Facebook and Google. Earlier this month, it was reported that FTC officials have been looking to levy a multibillion-dollar fine on Facebook for repeatedly violating a privacy agreement the two bodies came to back in 2011. A coalition of advocacy groups argued that a fine would not be enough to incentivize Facebook to be more cautious with consumer data and asked the FTC to force the company spinoffs, Instagram and WhatsApp, back into their own entities once again. The groups argued that Facebook was too big for it to adequately care for user data for all three major apps.

Discussion over retroactive merger reviews that may result in companies divesting previously approved assets has been heating up over the last few months. The Democratic-led House Judiciary Committee has been reportedly beefing up its antitrust arm and hiring on big names like Lina Khan in the academic sphere.

"Technology markets, which are rapidly evolving and touch so many other sectors of the economy, raise distinct challenges for antitrust enforcement," said Bureau Director Bruce Hoffman. "By centralizing our expertise and attention, the new task force will be able to focus on these markets exclusively – ensuring they are operating pursuant to the antitrust laws, and taking action where they are not."

Hoffman confirmed that the task force would look into consummated mergers, but could not name any investigations specifically. When it comes to remedies for problematic mergers, Hoffman said that firms could be "broken out," or could be forced to "spin off" previous acquisitions as new competitors in order to recreate the markets pre-merger.

Hoffman said that the task force would be working closely with the FTC's Consumer Protection Bureau as it relates to consumer privacy enforcement especially in cases in which these issues coalesce.

"Our ongoing Hearings on Competition and Consumer Protection in the 21st Century are a crucial step to deepen our understanding of these markets and potential competitive issues. The Technology Task Force is the next step in that effort," Simons said in the press release.

The Justice Department, which also has antitrust jurisdiction, is aware of the FTC's new task force, according to Hoffman, and both agencies will continue to work separately on this front.

THE ATTACK AGAINST A CITIZEN AS VENDETTA FOR REPORTING A CORRUPTION CRIME TO LAW ENFORCEMENT AND CONGRESS

(revision 2.4)

The FBI, special investigators and Congressional researchers say that there were only a handful of powerful people capable of operating attacks of this scale and sophistication against the victim.

In Sweitzer, T. (1996, September). *Kill or be killed*. [Electronic version] Campaigns & Elections, 17(9), 46-47., the process used to "kill" others is described just as it was used against the victim. In <https://theintercept.com/2014/02/24/jtrig-manipulation/> the formal process of hired character assassination, exactly as it was used against the victim, is detailed. The well-documented process is further outlined in the articles:

Character assassination is at once easier and surer than physical assault; and it involves far less risk for the assassin. It leaves him free to commit the same deed over and over again, and may, indeed, win him the honors of a hero in the country of his victims. All of the attackers people are U.S. Government senior officials working in the White House and/or the U.S. Senate and/or their Silicon Valley oligarch political campaign financiers.

Every one of the attack technologies and resources were previously deployed against Presidential candidates in past elections. The providers, operators and compensation conduits of the attack services are known to law enforcement. The payment records have been uncovered, revealing that over \$30M of attack services billings and/or in-kind services exchanges were incurred by the attackers. By way of contrast: \$30M is the typical WEEKLY expenditure for opposition character assassination programs in a U.S. Presidential election using Gawker, Gizmodo, Facebook, Google and Fusion GPS media attack services.

The Victim and his peers swear, warrant and certify that this is true. The Victim's representatives can prove in a Grand Jury, Civil Jury and Congressional Hearing that White House staff, U.S. Senators and their Silicon Valley financiers did order, operate and finance a massive "hit-job" on the Victim as revenge/retribution/venдетta because he reported an organized crime activity involving well known public officials.

EVERY PUBLIC OFFICIAL WHO WAS, BY LAW, SUPPOSED TO HELP THE Victim HAS, SO FAR, BEEN PROVEN BY INVESTIGATORS TO HAVE BEEN IN DIRECT BUSINESS COMPETITION WITH Victim VIA THEIR "OUTSIDE ACTIVITIES".

The effort made by political executives to steer the annual expenditure of trillions of dollars of taxpayer funds and stock market profits to one group of friends or another.

It is called "Cronyism" and it is operated by U.S. Senators and White House staff for illicit profiteering purposes.

The corrupt public officials involved here used real estate, stock market ownership, revolving door payola jobs and investment bank accounts to profiteer from each deal that the charged officials pushed.

FBHlevel tracking of the covert accounts, trusts, shell corporations, family members and associates of every public official involved in this case proves that they made money by competing with the Victim's business ventures. The Panama Papers Leaks, Swiss Leaks, Snowden Leaks, and all of the other leaks prove this as fact.

THE ATTACKERS

How A Modern Character Assassination and Political "Kill Order" Was Executed By Politicians, and their Silicon Valley Oligarchs, Against The Victim:

This is how a vendetta, revenge and political payback operation was implemented against an American taxpayer when a Senator issued a "kill order" on a whistle-blower

Investigations have revealed that the White House and California Senators hired the character assassination and defamation attack services: [Cardinal & Pine](#); Acronym, Acronym; [The Americano](#); [Investing in US](#); Shadow Inc; Courier Newsroom; IN-Q-Tel; Gawker Media; Jalopnik; Gizmodo Media; K2 Intelligence; WikiStrat; Podesta Group; Fusion GPS; Google; YouTube; Alphabet; Facebook; Twitter; Think Progress; Media Matters; Black Cube; Correct The Record; Orbis Business Intelligence, Undercover Global Ltd; Stratfor; Jigsaw; ShareBlue/Acronym; Versa LLC; American Ledger; Supermajority News; New Venture Fund; Sixteen Thirty Fund; Cambridge Analytica; Sid Blumenthal; [States Newsroom](#); Hopewell Fund; Open Society.; David Brock; AmpliFire News; American Bridge; Plouffe Consulting; Pantsuit Nation; MotiveAI; American Bridge 21st Century Foundation; Priorities USA; PR Firm Sunshine Sachs; The American Independent Foundation; Covington and Burling; Buzzfeed; [The American Independent](#); Perkins Coie; Secondary Infektion; Wilson Sonsini and thousands more to run hit-jobs, character assassinations, dirty tricks and economic reprisal attacks on any targets who reported the crimes. Each of those companies are now under federal and civil investigation. Most of these businesses offer the service of manipulating elections and news coverage in order to steer stock market profits into the pockets of billionaire clients at the expense of the taxpayer and Democracy. They hide their transactions via money-laundering. All of these services, when focused on individual citizens, are lethal.

These attackers deserve to be punished for the rest of their lives for taking away the lives of others in exchange for remuneration. Any company who is corrupt enough to hire any of these assassins should be forced out of business.

These attack services are responsible for 90% of the "Fake News" problem in the world because they are the authors of most fake news. Congress must act to make these kinds of companies illegal!

These digital assassination services offer hit-jobs, character assassinations and economic reprisal programs to famous billionaires and corrupt politicians who are seeking revenge, retribution and vendetta executions.

These are the specific attacks undertaken against the victim:

- Government agency bosses solicited the target with false promises of future loans, contracts or grants from their agency and caused the target victim to expend millions of dollars and years of their time for projects which those government bosses had covertly promised to their friends. They used the target victim as a "smokescreen" to cover their illegal government slush-funds for the victims competitors and personal enemies. By using this tactic, the attackers drain the target victims funds and forced victim into an economic disaster without the government bosses fearing any reprisal for their scam in which they made billions of dollars in profit in the notorious Solyndra scandals as seen in the CBS 60 Minutes episode: "[The Cleantech Crash](#)", thousands of TV news segments and the related GAO and Congressional corruption reports.

- Government officials and LSC corporation (A federal agency dedicated to providing legal services to victims) blockaded victim's rights to legal representation in order to prevent victim from personally suing the attackers because such a lawsuit would have embarrassed corrupt public officials. High tech law firms that were discussing a services agreement with victim were threatened and ordered to not help victim or "*they would be black-listed or be cut-off from tens of millions of dollars of Google, Netflix, Facebook and government contracts*". Individual lawyers were threatened with black-listing and getting "*flooded with more filings than you could ever respond to in your life-time...*" LSC officials, who were almost entirely Obama Administration associates, refused to assist with lawyer referrals, which is against their federal contract.

- An sophisticated animated attack film was produced attacking victim. An animated film is an expensive effort involving considerable time and expense. An attacker must be well financed to undertake such an effort. The film was published on YouTube and locked onto the very top search result line on every YouTube search in front of 5 billion internet users for over a decade. The damage to victim's reputation is estimated in the tens of millions of dollars. YouTube steadfastly refused to remove or adjust the search results even though YouTube executives knew victim and knew that the video represented a character assassination attempt against victim because YouTube owners finance the political campaigns of the public officials who ordered the attacks. While Google/YouTube stated to Congress that all of it's search results are arbitrary, the never-moving search result of this attack video proved that Google's and YouTube's search results are manually manipulated by human maintained black-lists.

- Social networking sites including MeetUp, Match, Facebook, etc. and all other IAC-owned, or similar, sites (IAC is managed by Hillary Clinton's daughter, whose Mother knew victim) have had their profiles, texts, and inter-member communications, since those companies were started, hacked or purchased. The financiers of almost everyone of these sites are also the financiers of the suspects. The attack service providers use Palantir, In-Q-Tel financed data analysis software to analyze every activity in those services in order to find honey-trap, blackmail and social conflict exploitation opportunities. Your social life will, essentially, end. Every photo on every social site is cross checked with every other photo on the internet in order to cull your Facebook, LinkedIn, Snapchat and other social media together to create a total manipulation profile data file on you. New contacts on these sites were contacted by the attackers and told to "avoid" the victim in order to damage victim.

- Social Security, SSI, SDI, Disability and other earned benefits were stone-walled. Applications for benefits for the victim were intentionally "lost" like a "Lois Lerner hard drive". Files in the application process "disappeared". A U.S. Senator ordered Victim's benefits to "never be approved" even though victim worked 60 hour+ weeks for decades in service to their nation and their community. A SSA official in the local SSA office, who had a devout expressed hatred against one United States President ordered a benefits blockade against victim because he found out that victim's ex-lawyer now worked in the White House.

- Government officials and tech oligarchs contacted members of the National Venture Capital association (NVCA) and created national "black-lists" to blockade victim from receiving investor funding. This was also confirmed in a widely published disclosure by Tesla Motors Daryl Siry and in published testimony. If Silicon Valley political campaign finance oligarchs black-list you (see the "AngelGate" Scandal and the "High Tech No Poaching Class Action Lawsuit" cases) you will never get investor funding again.

- Federal FOIA requests were hidden, frozen, stone-walled, delayed, lied about and only partially responded to in order to seek to hide information and run cover-ups.

- State and federal officials play an endless game of Catch-22 by arbitrarily determining that deadlines had passed that they, the government officials, had stonewalled and obfuscated applications for, in order to force these deadlines that they set, to appear to be missed.

- Victims was found to be strangely poisoned, not unlike the Alexander Litvenko case. Heavy metals and toxic materials were found right after victim's work with the Department of Energy weapons and energy facilities. Many wonder if victim was intentionally exposed to toxins in retribution for their testimony. The federal MSDS documents clearly show that a number of victims were exposed to deadly compounds and radiations, via DOE, without being provided with proper HazMat suits which DOE officials knew were required.

- Victims employers were called, and faxed, and ordered to fire target victims from their places of employment, in the middle of the day, with no notice, as a retribution tactic.

- On orders from Obama White House officials Google, YouTube, Gawker Media and Gizmodo Media produced attack articles and defamation videos. Google locked these contrived attack articles from the Nicholas Guido Denton tabloid empire on the top line, of the front page of all Google searches for a decade in front of 7.5 billion people, around the world. This attack-type uses over \$40 million dollars in server farms, production costs and internet rigging. The forensic data acquired from tracking some of these attacks proves that Google rigged these attacks against victim on the internet and that all of Google's "impressions" are manually controlled by Google's executives who are also the main financiers and policy directors of the Obama Administration. This data was provided to the European Union for it's ongoing prosecution of Google's political manipulation of public perceptions. Hired attackers Nicholas Guido Denton, John Herman, Adrian Covert, Ian Fette, Patrick George, Gabrielle Darbyshire and John Cook have been referred to the FBI for surveillance, tracking and interview relative to the command, control and compensation for those attacks.

- Victims HR and employment records, on Taleo, Palantir and EVERY recruiting and hiring database, was embedded with negative keywords and "flags" in order to prevent the victim from ever gaining future employment.

- Gary D. Conley, Seth Rich, Rajeev Motwani who victim knew, and many other whistle-blowers in these matters, turned up dead under strange circumstances. Victim has received ongoing death threats for his help to federal investigations in the larger organized crime investigation relative to this matter.

- Paypal (A DNC-biased operation) and other on-line payments for on-line sales by victim are de-platformed, delayed, hidden, or re-directed in order to terminate income potential for target who competed with the attackers interests and holdings. This further denied victim income. As a test, victim built an online store with hundreds of thousands of products and marketed it globally. Trackers, placed by victim's technicians, on servers, discovered that Paypal and an outside "Virginia-based system" were DNS and payment re-directed all traffic away from the store so that victim received no traffic and no income. In DNS redirection, "website spoofing" sends target victims websites to dead ends where no sales orders or customer inquiries actually get back to the target. These internet revenue activity manipulations are conducted using outside covert servers operated by the attackers and revealed in the Snowden Leaks. All commercial storefronts and on-line sales attempts by target victims, had their sites hidden, or search engine de-linked by a massively resourced facility located in Virginia, Texas or Palo Alto, California in order to terminate revenue potentials for the victim.

- Contracted trolls, shells, botnets and synth-blog deployments are deployed to place defamatory statements and disinformation about victim in front of 7.5 billion people around the world on the internet in order to seek to damage their federal testimony credibility by a massively resourced facility. Some of these troll farms were uncovered in Russia, Ukraine, Israel and Brazil.

- Campaign finance dirty tricks contractors were hired by campaign financiers to attack the friends and family members of the target victim in order to create low morale for the target victims psyche and motivation.

- In one case covert political partner: Google, transferred large sums of cash to dirty tricks contractors and then manually locked the media portion of the attacks into the top lines of the top

pages of all Google searches globally, for years, with hidden embedded codes in the links and web-pages which multiplied the attacks on Victims by many magnitudes.

- Covert Cartel financier: Google, placed Google's lawyer: Michelle Lee, in charge of the U.S. Patent Office and she, in turn, stacked all of the U.S. Patent Office IPR and ALICE review boards and offices with Google-supporting employees in order to rig the U.S. Patent Office to protect Google from being prosecuted for the vast patent thefts that Google engages in. Google has hundreds of patent lawsuits for technology theft and a number of those lawsuits refer to Google's operations as "Racketeering", "Monopolistic Cartel" and "Government Coup-like" behaviors. Thousands of articles and investigations detail the fact that Google, "essentially" ran the Obama White House and provided over 80% of the key White House staff. A conflict-of-interest unlike any in American history. Google's investors personally told Victim they would "kill him". Google and the Obama Administration were "the same entity". Victim testified in the review that got Michelle Lee terminated and uncovered a tactical political and social warfare group inside Google who were financed by Federal and State funds.

- "Honeytraps" and moles were employed by the attackers. In this tactic, people who covertly worked for the attackers were employed to approach the "target" in order to spy on and misdirect the subject.

- Gawker Media, Gizmodo Media, Snopes, SPLC and other hired media assassins were retained to produce "hatchet job" character assassination articles about victim. Then those articles were faxed, mailed and emailed to Kaiser Permanente and investors with a note saying: "You don't want to have anything to do with this person, do you..?" in order to get victim fired from their job and get victim's loans or financing pulled. The attackers use their round one attack media, that they authored, to create a round two second wave attack designed to end victim's life status via economic warfare.

- Mortgage and rental applications had red flags added to them in databases to prevent the targets from getting homes or apartments.

- Krebs On Security, Wired, Ars Technica, The Wall Street Journal and most major IT publications have reported that hundreds of spy "back-doors" have been found on every Intel, AMD, Apple, Xfinity, Cisco, Microsoft, Juniper Networks motherboard, chip-set and hardware component set. This means that the attackers used a "key" code can open any of victims computer, server, router, cloud-network or other network connected device and read every file, photo, video, your calendar and email on devices at any time from any location on Earth. This has been widely reported on by Glenn Greenwald, Edward Snowden, Scahill, Cheryl K of CBS News and others. Victim was hacked at least 10 times. In a number of instances, people, who victim had been communicating with online, were mysteriously contacted by a third party who sent them the Gizmodo attack article or phoned them with warnings to avoid victim. These kinds of Man-In-The-Middle interceptions would only have been possible from hacking and MITM surveillance tactics.

- McCarthy-Era "Black-lists" were created and employed against target victims who competed with Obama Administration executives and their campaign financiers to prevent them from getting funding and future employment. This White House process is known as "RatFucking", a tactic that is documented in a variety of published reports and on Wikipedia.

- The housing rights of Victim were stalled in reprisal. Public records show that tens of thousands of other Victims were moved ahead of victim even though victim's validation metrics exceeded those of almost every other Victim. Victim was "black-listed".

Federal law enforcement, the United States Congress and the highest level investigators in the U.S., and abroad, have documented (per the "FISA Memo", Congressional Reports and federal employee testimony) and proven the fact that the Obama Administration regularly engaged in the operation of retribution, vendetta and reprisal campaigns known as "hit-jobs" against domestic natural born U.S. citizen domestic taxpayers. The Federal Court, in at least one previous court case, has ruled that the corporation in which victim was an investor, in this particular matter, were the victims and target of a number of these attacks designed to inflict permanent medical, emotional, character assassination, brand negation, economic and career damage.

** 'They Can't Beat Him On The Law So They Are Trying To Destroy His Life' -Sen. Graham Questions Dems' Motives On Brett Kavanaugh Sexual Assault Allegations (dailycaller.com)

**** !!!!! Mueller Hears That Silicon Valley Has Been Manipulating The Entire BREXIT Campaign !!!!!** Second former employee of controversial data firm to be questioned by special counsel's inquiry into Russia collusion. Per Carole Cadwalladr: Brittany Kaiser is said to be cooperating fully with the Mueller inquiry. A director of the controversial data company Cambridge Analytica, who appeared with Arron Banks at the launch of the Leave.EU campaign, has been subpoenaed by the US investigation into possible collusion between the Trump campaign and the Russian government. A spokesman for Brittany Kaiser, former business development director for Cambridge Analytica – which collapsed after the Observer revealed details of its misuse of Facebook data – confirmed that she had been subpoenaed by special counsel Robert Mueller, and was cooperating fully with his investigation. He added that she was assisting other US congressional and legal investigations into the company's activities and had voluntarily turned over documents and data.

Kaiser, who gave evidence to the UK parliament last April in which she claimed Cambridge Analytica had carried out in-depth work for Leave.EU, is the second individual connected to the firm subpoenaed by the special counsel. The Electoral Commission has said its investigation into Leave.EU found no evidence that the campaign "received donations or paid for services from Cambridge Analytica ... beyond initial scoping work". Damian Collins, chairman of parliament's inquiry into fake news, said it was "no surprise" that Kaiser was under scrutiny by Mueller because "her work connected her to WikiLeaks, Cambridge Analytica and [its parent company] SCL, the Trump campaign, Leave.EU and Arron Banks". He said it was now vital Britain had its own inquiry into foreign interference: "We should not be leaving this to the Americans."

**** CBS NEWS 60 MINUTES Lara Logan "I'm Being Targeted" . Per Tamar Auber:** former CBS News foreign correspondent Lara Logan spoke with Fox News Sean Hannity about her recent comments slamming the media as "mostly liberal." Logan told Breitbart podcaster Mike Ritland the remarks made on his show — which drew widespread attention online — amounted to "professional suicide." Defending her remarks on Hannity's show, Logan said that as the result of her speaking out about how the media is "mostly liberal" she has been targeted because she is an independent voice. "Any journalists who are not beating the same drum and giving the same talking points," she insisted "pay the price" for not going along with the liberal crowd. She also called out her targeters by name.

"I know they're going to come after me," she told Hannity. "Michael Calderone who is at the Huffington Post. I can give you the script now. I can tell you who the players are. Joe Hagan. Brian Stelter." She added: "They smear you personally. They go after your integrity. They go after your reputation as a person and a professional. They will stop at nothing. I am not the only one. And I am just, I am done, right, I am tired of it. And they do not get to write my story anymore. They don't get to speak for me, I want to say loudly and clearly to anybody who is listening, I am not owned. Nobody owns me, right? I'm not owned by the left or the right." Logan made headlines recently when, during a scorched earth podcast interview with Ritland, she said that there was a lot of "weight" in most news organizations on "one side of the political spectrum." "The media everywhere is mostly liberal. But in this country, 85 percent of journalists are registered Democrats. So that's just a fact, right?" she told Ritland. She also trashed reporting based on single, anonymous government sources. "That's not journalism, that's horseshit," Logan stressed. "Responsibility for fake news begins with us. We bear some responsibility for that, and we're not taking ownership of that and addressing it. We just want to blame it all on somebody else."

** Internal documents from a private Israeli intelligence firm called Psy-Group show that, at the time of many incidents, the company, and possibly other private investigators, were targeting U.S. citizens because they spoke up about crimes. Psy-Group's intelligence and influence operations, which included a failed attempt in the summer of 2017 to sway a local election in central California, were detailed in a New Yorker investigation that I co-wrote earlier this month. Before it went out of business (ie: changed it's name), last year, Psy-Group was part of a new wave of private-intelligence firms that recruited from the ranks of Israel's secret services and described themselves as "private Mossads." Psy-Group initially stood out among its rivals because it didn't just gather intelligence; its operatives used false identities, or avatars, to covertly spread messages in an attempt to influence what people believed and how they behaved. In 2016, Psy-Group held discussions with the Trump campaign and others about conducting covert "influence" operations to benefit the candidate. Psy-Group's founder and C.E.O., Royi Burstien, a veteran Israeli intelligence officer who established the firm in 2014, told me that his talks with the Trump campaign went nowhere. The company's posturing, however, attracted the attention of Robert Mueller, the special counsel, who has been investigating interference in the 2016 Presidential race.'

**** FED BOMBHELL: Fusion GPS Bribed Dozens of MSM Journalists With Cash To Run Character Assassinations.** High-ranking FBI insiders are pulling back the curtain on Fusion GPS, the firm that commissioned and spread the bogus Trump dossier. It appears the embattled intelligence firm was quite busy paying off Big Media reporters, according to federal sources who have traced dozens of transactions between TD Bank and media members as well as media organizations, sources confirm. But stunningly, Big Media organizations have employed Fusion GPS to dig dirt on politicians and D.C.'s elite — namely Donald Trump. "Fusion GPS was on the payroll of the media and in turn had members of the media on its payroll," one FBI insider said. FBI insiders confirm Fusion GPS employed law firms as well as shell companies to send and receive funds to and from media and reporters. But the embattled firm also used its accounts at TD Bank to directly commission reporters. Likewise, Fusion GPS received funds from media companies into its own accounts at TD Bank, FBI insiders said. "There are dozens of payments from the media flowing into their (Fusion GPS') account," one federal law enforcement official said. "One company wired funds to Fusion (GPS) more than a dozen times." Why would media companies commission Fusion GPS? Likely to dig dirt on enemies or secure records that reporters could not legally obtain, one federal law enforcement insider said. One FBI insider said the payments to Fusion GPS coincide with Donald Trump's run for the White House. The payments were made between Sept. 2015 and Sept. 2017, records show. The unthinkable: The mainstream media paying Fusion GPS for dirt on Trump to the same firm the Democratic National Committee paid to fund the bogus Trump dossier. And at the same time Fusion GPS bribing journalists to place stories — likely negative about Trump, as well as spread the bogus Trump dossier around.

A few weeks ago, Glenn **Greenwald**, while working with NBC News, revealed some details of a GCHQ presentation concerning how the surveillance organization had a "dirty tricks" group known as **JTRIG** ...

** Snowden Drip: Government Funded Character Assassination Squads Rampant Online

From [The Intercept](#):

One of the many pressing stories that remains to be told from the Snowden archive is how western intelligence agencies are attempting to manipulate and control online discourse with extreme tactics of deception and reputation-destruction. It's time to tell a chunk of that story, complete with the relevant documents.

Over the last several weeks, I worked with *NBC News* to publish a [series of articles](#) about "dirty trick" tactics used by GCHQ's previously secret unit, JTRIG (Joint Threat Research Intelligence Group). These were based on [four classified GCHQ documents](#) presented to the NSA and the other three partners in the English-speaking "Five Eyes" alliance. Today, we at *the Intercept* are publishing [another new JTRIG document](#), in full, entitled "The Art of Deception: Training for Online Covert Operations."

By publishing these stories one by one, our NBC reporting highlighted some of the key, discrete revelations: the monitoring of YouTube and Blogger, the targeting of Anonymous with the very same DDoS attacks they accuse "hacktivists" of using, the use of "honey traps" (luring people into compromising situations using sex) and destructive viruses. But, here, I want to focus and elaborate on the overarching point revealed by all of these documents: namely, that these agencies are attempting to control, infiltrate, manipulate, and warp online discourse, and in doing so, are compromising the integrity of the internet itself.

In one of our whistle-blower complaints about State and Federal officials conduct in stimulus programs, we made repeated attempts to inform executive leadership and legal advisers about questionable activities of those officials. We have all of the needed additional evidence to back up our allegations against these officials as we reported to the Inspector General. Concerned parties have been blocked from reporting the activity to Offices of Legal Affairs, in violation of the law. In retribution, A number of parties had tax-payer financed revenge programs launched against them using State and Federal resources. We directly witnessed much of the behavior and reported it, personally, to the FBI at their offices. We have made top law enforcement and intelligence officials aware of these concerns on repeated occasions. To our knowledge, none of them ever took action to resolve the issues, and several of them specifically directed subordinate staff to continue facilitating questionable activities after the concerns were raised. We witnessed the concerning activities in Washington, D.C., New York, California and in activities with overseas parties.

White House Staff including Rahm Emanuel, Bill Daley, Jay Carney, Robert Gibbs, Steve Rattner, David Axelrod, John Podesta, et al; and The Secretary of Energy Steven Chu and the Chief Counsel for the United States Department of Energy Daniel Cohen and Bill Cooper were, (from 2007 forward), either financed by, friends with, sleeping with, dating the staff of, holding stock market assets in, promised a revolving door job or government service contracts from, partying with, personal friends with, photographed at private events with, exchanging emails with, business associates of or directed by; our business adversaries, or the Senators and Department of Energy politicians that those business adversaries pay campaign finances to, or supply political digital search manipulation services to. Criminal U.S. Senators coordinated and profited in these schemes. Their own family members have now supplied evidence against them. Nobody is allowed to "win" government funds **unless** they are friends and stock market partners with certain U.S. Senators. Even if your application metrics beat every single other competing Applicant, you will get lied to and defrauded by Department of Energy and White House officials. You will be told that you have a "fair chance", but all of the money is secretly hard-wired to a business partner of a Pelosi or Feinstein and you will just waste your time, staff resources and payroll waiting for years on promised funds that will never come.

From 2007 forward, The White House and The Department Of Energy were controlled by the Silicon Valley tech oligarchs for monopolistic profiteering! (ie: You could not swing a cat in the Obama White House without hitting a Google executive or an ex-lover of Eric Schmidt) That is a violation of the law, the Constitution and the American Way. The named person's we have presented to the FBI, DOJ, SEC and other agencies, engaged in crimes to personally profit in the stock market and political venues. At the same time they operated the command and control of millions of dollars of defamation, character assassination and black-list attacks against us for reporting their crimes. These perpetrators are now being exposed, arrested, indicted and drained of their ill-gotten profits. We are owed our damages compensation and we will not rest until we get it! Every member of the public is invited to help crowd-source the termination of these corrupt crooks.

PUBLIC OFFICIALS INSIDER-RIGGED THE TECH STOCK MARKET AND USED TAXPAYER MONEY TO PROFITEER AND VIOLATE ANTI-TRUST AND 'RICO' RACKETEERING LAWS. THEIR SECRET FAMILY BANKING AND COVERT SECURITIES ACCOUNT RECORDS PROVE IT!

THE DARK-MONEY SECRET CONDUITS HAVE NOW BEEN EXPOSED! OUR COMPETITORS FILLED GOVERNMENT OFFICES WITH THEIR STAFF THEN BLACK-LISTED US AND GAVE OUR MONEY TO THEMSELVES AND THE SENATORS WHO OWNED THEIR STOCK!!!! SEE THIS REPORT TO CONGRESS:

The Silicon Valley High-Tech Black-Listing Antitrust Litigation And Big Tech's Attacks On Democracy

"...Who are the criminal mobsters of Silicon Valley's democracy manipulation millionaires and billionaires known as "The Commission" (Also known as "The Paypal Mafia", "The Deep State", "The Silicon Valley Cartel")? Who are the elitist tax evader, sex freak, money-laundering, [black-list](#) operating, Senator bribing, off-shore cash hiding, election rigging insiders who manipulate the system for their own insider trading schemes: **Reid Hoffman, Larry Page, Sergey Brin, Elon Musk, Dustin Moskovitz, Mark Zuckerberg, Eric Schmidt, Laurene Powell Jobs, Steve Spinner, Steve Westly, Vinod Khosla, Andy Bechtolsheim, Brian Goncher, Cheryl Sandberg, David Drummond, Andy Rubin, David Plouffe, Tim Draper, Jeffrey Epstein, Gilman Louie, Ira Ehrenpreis, Tim Cook, McKinsey Consulting, Deloitte, Goldman Sachs, Jerry Brown, Richard Blum, James Breyer, John Podesta, Joe Lonsdale, John Doerr, Keith Rabois, Marc Andreessen, George Soros, Mario Rosatti, Martin LaGod, Michael Moritz, Viktor Vekselberg, Larry Summers, Pierre Omidyar, Tom Steyer, Steve Jurvetson, Steve Rattner and their CARTEL including their crooked lawyers and lobbyist mobs! They have "command and control and exclusive-beneficiary positions in ongoing, coordinated, criminal and anti-trust activities involving government and stock market funds...". Their crimes financially benefited Dianne Feinstein, Nancy Pelosi, Jerry Brown, Kamala Harris and Barack Obama and their stock market holdings, while harming their competitors on purpose. The securities and stock market records prove that it was crony corruption and payola. The sex crime victims of Cartel member [Jeffrey Epstein](#) reported him to the DOJ a decade ago, yet nothing was done. We reported this Cartel in 2008, STILL, nothing has been done! These people have run a stock market and government funding State and Federal PONZI SCHEME in every "stimulus" from 2008 forward! They use free government money, stock valuation pump-and-dump and black-lists to make certain that no competitor can ever operate against them in any market. The more that the California Senators get to control Congress, the more they get to push laws that benefit companies owned by their spouses! By filling California up with illegal immigrants, enticed by the offer of "free stuff", Dianne and Nancy get to control federal policy by manipulating the census numbers. By controlling government decisions, Nancy and Dianne get to give taxpayer money to their friends (Elon Musk, Eric Schmidt, Mark Zuckerberg, etc, who they**

own stock with) and deny that money to their competitors. They [have a covert news and media network](#) that hides all news coverage about the crimes. Illegal immigrants equal control of the stock market profits for Nancy's, Kamala's and Dianne's investment banker husbands. It is as simple as that!..."

HOW THE U.S. DEPARTMENT OF ENERGY AND CALIFORNIA SENATORS CREATED THE LARGEST INSIDER TRADING SCHEME IN HISTORY

Companies in PR-hype industries sometimes have a history of [reinventing themselves](#). For Tesla Motors and Solyndra the potential transition from start-up to future energy monopoly was being facilitated by the government. Now Kodak has copied this corruption scam. The **U.S. DEPARTMENT OF ENERGY (DOE)** [signed a letter of interest](#) to provide hundreds of millions in favored-nation 'loans' to them to support the company's plans to produce green energy things for the U.S. domestic market. Thereafter, a series of ensuing events raised concerns about potentially illegal insider trading, and of an uneven level playing field for investors in U.S. stock markets. The immediate response by U.S. Congress was to investigate. The new KODAK Covid loan is the same kind of crime, which insiders learned they could get away with in the Obama **U.S. DEPARTMENT OF ENERGY**.

Whether the suspicious trading activity is a case of illegal insider trading activity is difficult to judge without further scrutiny by prosecutors. However, these new types of substantial loans from the government to private companies give rise to a new type of private information. While traditional corporate events, such as earnings announcements or corporate takeovers, are subject to strict rules about the disclosure of information and reporting requirements, it appears that the disbursement of government subsidies and grants falls into a grey area not effectively covered by existing rules. Thus, it is necessary to consider more transparent and consistent protocols on information disclosure to avoid providing unfair advantages to a select group of company insiders including California Senators and Energy Department staff.

Just one day before the official announcement of the loan, on July 27, Kodak's stock price jumped by about 25 percent on a trading volume of 1,645,719 shares, over five times the average daily trading volume in prior months. These unusual trading activities were likely [attributable to the premature release of the news by several media outlets](#).

Unusual trading activity also occurred in Kodak's stock options, even prior to the news leakage. The trading volume was especially strong in out-of-the-money (OTM) call options, which are set to profit especially from a positive jump in stock prices, with daily trading volumes of all OTM call options on July 17, 20 and 27 that was more than ten times larger than average volumes since the beginning of 2020.

Kodak's executives and board members are also linked to controversial transactions. About one month before the announcement, on June 23, the company's executive chair and a director [purchased over 50,000 shares](#) of the company's stock a day during the time when the company was negotiating loans with the government. In addition, four executives were [granted stock options right on July 27](#), just one day before the stock price skyrocketed. Prior to another major stock price drop, due to a freezing of the Kodak loan associated with the congressional investigation, a board [member donated \\$116 million](#) in company shares, entitling the donors to a substantial tax deduction.

These events have alerted legislators and raised concerns that trades of investors may explain the suspicious activity with access to material non-public information. On August 3, Sen. [Elizabeth Warren](#) (D-Mass.) formally [requested the Securities and Exchange Commission \(SEC\)](#) to [investigate](#) the possibility of insider trading and violation of regulatory compliance rules. Two House committee chairs also launched their own inquiries, [requesting detailed records](#) from the loan provider, DFC.

Besides these valid outcries due to concerns about the potential for illegal insider trading, this turn of events raises a question of broad public interest. Why was the usual protocol for the enforcement of news disclosure and insider trading regulations around corporate events not followed in this case? The announcement of the government-sponsored Kodak loan is no different from traditional corporate events, such as earnings disclosures, announcements of mergers and acquisitions, spinoffs, or new product announcements. It also involves secret negotiations in executive offices that give rise to the potential for trading on privileged information.

In the Kodak case, the private information was indeed material. The \$765 million government loan it received amounts to 54 percent of the company's total assets, 78 percent of its annual revenue, and is 64 times larger than its annual operating cash flows, according to its [most recent 10-K filing](#). It is not surprising that such news boosted the stock price from about \$2 to \$60 in a matter of days. Another related issue is that the DFC and Kodak did not release the news at the same time. This lack of consistency in information disclosure makes it difficult to pinpoint when the information was publicly available.

The Kodak experience was not unique. The [massive monetary and fiscal interventions](#) that have been announced in the U.S., Europe and elsewhere are likely to lead to similar types of sensitive news releases. The difference with respect to more traditional corporate announcements is that the government has a seat at the table. U.S. officials and their counterparts elsewhere are picking winners and losers in the disbursement of grants, loans and contracts. Thus, a new source of privileged information has emerged that raises the possibility that insiders may well profit from possession of such information before it is released to the market.

In the Department of Energy Cleantech Crash political payola quid pro quo, government money was used by Goldman Sachs and their clients for the following scams, EVERY SINGLE ONE OF WHICH was used in the Dept of Energy ATVM AND LGP funds manipulations. **Every One** of these financial scam tricks is used **daily** by the suspects in this case:

** The Silicon Valley Stock Scam Called: "[Pools](#)"

Agreements, often written, among a group of traders to delegate authority to a single manager to trade in a specific stock for a specific period of time and then to share in the resulting profits or losses.^[5] In Australia section 1041B prohibits pooling.

** The Silicon Valley Stock Scam Called: "[Churning](#)"

When a trader places both buy and sell orders at about the same price. The increase in activity is intended to attract additional investors, and increase the price.

** The Silicon Valley Stock Scam Called: "[Stock bashing](#)"

This scheme is usually orchestrated by savvy online message board posters (a.k.a. "Bashers") who make up false and/or misleading information about the target company in an attempt to get shares for a cheaper price. This activity, in most cases, is conducted by posting libelous posts on multiple public forums. The perpetrators sometimes work directly for unscrupulous Investor Relations firms who have convertible notes that convert for more shares the lower the bid or ask price is; thus the lower these Bashers can drive a stock price down by trying to convince shareholders they have bought a worthless security, the more shares the Investor Relations firm receives as compensation. Immediately after the stock conversion is complete and shares are issued to the Investor Relations firm, consultant, attorney or similar party, the basher/s then become friends of the company and move quickly to ensure they profit on a classic Pump & Dump scheme to liquidate their ill-gotten shares. (see P&D)

** The Silicon Valley Stock Scam Called: "[Pump and dump](#)"

A [pump and dump](#) scheme is generally part of a more complex grand plan of market manipulation on the targeted security. The Perpetrators (Usually stock promoters) convince company affiliates and large position non-affiliates to release shares into a free trading status as "Payment" for services for promoting the security. Instead of putting out legitimate information about a company the promoter sends out bogus e-mails (the "Pump") to millions of unsophisticated investors (Sometimes called "Retail Investors") in an attempt to drive the price of the stock and volume to higher points. After they accomplish both, the promoter sells their shares (the "Dump") and the stock price falls, taking all the duped investors' money with it.

** The Silicon Valley Stock Scam Called: "[Runs](#)"

When a group of traders create activity or rumours in order to drive the price of a security up. An example is the [Guinness share-trading fraud](#) of the 1980s. In the US, this activity is usually referred to as [painting the tape](#).^[6] Runs may also occur when trader(s) are attempting to drive the price of a certain share down, although this is rare. (see Stock Bashing)

** The Silicon Valley Stock Scam Called: "[Ramping \(the market\)](#)"

Actions designed to artificially raise the market price of listed securities and give the impression of voluminous trading in order to make a quick profit.^[7]

** The Silicon Valley Stock Scam Called: "[Wash trade](#)"

In a [wash trade](#) the manipulator sells and repurchases the same or substantially the same security for the purpose of generating activity and increasing the price.

** The Silicon Valley Stock Scam Called: "[Bear raid](#)"

In a [bear raid](#) there is an attempt to push the price of a stock down by heavy selling or [short selling](#).^[8]

**** The Silicon Valley Stock Scam Called: "[Lure and Squeeze](#)"**

This works with a company that is very [distressed on paper](#), with impossibly high debt, consistently high annual losses but very few assets, making it look as if bankruptcy must be imminent. The stock price gradually falls as people new to the stock short it on the basis of the poor outlook for the company, until the number of shorted shares greatly exceeds the total number of shares that are not held by those aware of the lure and squeeze scheme (call them "people in the know"). In the meantime, people in the know increasingly purchase the stock as it drops to lower and lower prices. When the short interest has reached a maximum, the company announces it has made a deal with its creditors to settle its loans in exchange for shares of stock (or some similar kind of arrangement that leverages the stock price to benefit the company), knowing that those who have short positions will be squeezed as the price of the stock sky-rockets. Near its peak price, people in the know start to sell, and the price gradually falls back down again for the cycle to repeat.

**** The Silicon Valley Stock Scam Called: "[Quote stuffing](#)"**

[Quote stuffing](#) is made possible by high-frequency trading programs that can execute market actions with incredible speed. However, high-frequency trading in and of itself is not illegal. The tactic involves using specialized, high-bandwidth hardware to quickly enter and withdraw large quantities of orders in an attempt to flood the market, thereby gaining an advantage over slower market participants.^[9]

**** The Silicon Valley Stock Scam Called: "[Cross-Product Manipulation](#)"**

A type of manipulation possible when financial instruments are settled based on [benchmarks](#) set by the trading of physical commodities, for example in United States Natural Gas Markets. The manipulator takes a large [long \(short\) financial position](#) that will benefit from the benchmark settling at a higher (lower) price, then trades in the physical commodity markets at such a large volume as to influence the benchmark price in the direction that will benefit their financial position.

**** The Silicon Valley Stock Scam Called: "[Spoofing \(finance\)](#)"**

[Spoofing](#) is a disruptive algorithmic trading entity employed by traders to outpace other market participants and to manipulate commodity markets. Spoofers feign interest in trading futures, stocks and other products in financial markets creating an illusion of exchange pessimism in the futures market when many offers are being cancelled or withdrawn, or false optimism or demand when many offers are being placed in bad faith. Spoofers bid or offer with intent to cancel before the orders are filled. The flurry of activity around the buy or sell orders is intended to attract other [high-frequency traders](#) (HFT) to induce a particular market reaction such as manipulating the market price of a security. Spoofing can be a factor in the rise and fall of the price of shares and can be very profitable to the spoofer who can time buying and selling based on this manipulation.

**** The Silicon Valley Stock Scam Called: "[Price-Fixing](#)"**

A very simple type of fraud where the principles who publish a price or indicator conspire to set it falsely and benefit their own interests. [The Libor scandal](#) for example, involved bankers setting the [Libor](#) rate to benefit their trader's portfolios or to make certain entities appear more creditworthy than they were.

**** The Silicon Valley Stock Scam Called: "[High Closing \(finance\)](#)"**

High closing is an attempt to manipulate the price of a security at the end of trading day to ensure that it closes higher than it should. This is usually achieved by putting in manipulative trades close to closing.

**** The Silicon Valley Stock Scam Called: "[Cornering the market](#)"**

In [cornering the market](#) the manipulators buy sufficiently large amount of a commodity so they can control the price creating in effect a [monopoly](#). For example, the brothers [Nelson Bunker Hunt](#) and [William Herbert Hunt](#) attempted to corner the world [silver](#) markets in the late 1970s and early 1980s, at one stage holding the rights to more than half of the world's deliverable silver.^[10] During the Hunts' accumulation of the precious metal, silver prices rose from \$11 an ounce in September 1979 to nearly \$50 an ounce in January 1980.^[11] Silver prices ultimately collapsed to below \$11 an ounce two months later,^[11] much of the fall occurring on a single day now known as [Silver Thursday](#), due to changes made to exchange rules regarding the purchase of commodities on margin.^[12]

**** The Silicon Valley Stock Scam Called: "[The Conduit Double Blind](#)"**

In this scam, government money is given to a Tesla, Solyndra, etc. who then money launder the cash through executive-held 501 c3 and c4 charities; and company assets and then provide **DARK MONEY** cash and services to political campaigns like Obama and Clinton election funds. In the case of Tesla, Google (an investor and boyfriend of Musk) supplied billions of dollars of web search rigging. Stock ownership in the companies and deals is traded for campaign funds. David Brock is a master of this kind of Dark Money money-laundering for political campaigns using PACS and pass-through spoofing.

Tesla and Solyndra investors have used ALL of the above tactics and more. Goldman Sachs and JP Morgan have thousands of staff who PROVIDE these stock market manipulation tricks to people like Elon Musk, Larry Page, Eric Schmidt, et al. These kinds of financial crimes and corruption account for the manipulation of over **ONE TRILLION DOLLARS** of ill-gotten profits annually!

Given the massive stimulus packages that are in force today and expected to be implemented going forward, regulators need to set clear guidelines for how and when such privileged information can be disclosed, and impose rigorous trading restrictions for investors with access to private information. Failure to do so always gives unfair advantage to some and damages the level playing field in financial markets.

To avoid providing such unfair advantage to selected executives, the SEC and the Department of Justice need to develop new procedures to incorporate potential illegal transactions derived from information about government intervention through diverse channels. We advocate for a more transparent and consistent protocol on information disclosure regarding government's loan programs to prevent similar events from recurring. For example, the government could channel the release of news about COVID-19-related stimulus interventions through a common platform to prevent leakage from diverse sources and reduce information asymmetry among investors.

The DFC loan to Kodak is the first of its kind under the Defense Production Act but not the first ever because DOE already created the pump-and-dump scheme for tech oligarchs. Nobody should be surprised by Kodak trying a proven corruption scam. Since we are in unprecedented times, government agencies and regulators need to make changes to adapt to the current situation and fulfill their mission to ensure a level playing field for investors even during this difficult period. Regulation never happens in these scams because most California Senators and their families profit from these crimes and corruption.

Court Statement By One Of Many Victims: "... We were attacked with a \$30 million dollar+ retribution/political-reprisal/vengeance hatchet-job program contracted by White House and Department of Energy political operatives, their appointees and staffing. We have sourced the payment records evidence to prove it. Those public officials illegally used taxpayer-financed government funds and they were also business competitors of my peers and I. They are mad because they got caught doing crimes with taxpayer funds... There is, now, no legal or historical-fact question about the veracity of the proof that public officials put "hit-jobs" on reporters, whistle-blowers or competitors using government resources to do so. In fact, today, the U.S. Congress is spending nearly a third of it's time on the question of agencies being used as reprisal operations... famous senators, their Silicon Valley oligarch financiers and their associates run a felony-class organized crime insider-trading scam that abuses taxpayers and sabotages competing businesses at the expense of the public treasuries... **IMAGINE LIVING IN A WORLD WHERE ALMOST EVERY ONE OF THE PUBLIC OFFICIALS THAT WERE SUPPOSED TO HELP YOU TURNED OUT TO BE YOUR BUSINESS COMPETITORS. IMAGINE HAVING THEM USE GOVERNMENT RESOURCES TO PROFIT AT YOUR EXPENSE, BLOCKADE YOU AND TREAT DEMOCRACY LIKE A GARAGE SALE!**

This is about a group of U.S. Senators, Silicon Valley Oligarchs, Detroit Oligarchs, Crooked Law Firms and Lobbyists who commit crimes in order to manipulate over a trillion tax dollars into their, and their friends pockets. They use media monopoly tricks to try to shut out any other viewpoints. They push manufactured "emotional trigger" issues that they believe will get more tax money allocated to "issue solutions" that they, and their friends, happen to already own the monopolies for. They are felons yet they control some of the offices of the agencies who are supposed to arrest them. Silicon Valley bought K Street lobby firms and U.S. Senators, gave them more 'Dark Money' than history has ever seen and then had giant tech-law firms bribe, hit-job and blockade any attempts to arrest them... The U.S. Government hired us, paid us part of our money, then asked us to spend OUR life savings and years of our time on THEIR federal project based on their lies and false-promises. Then they took the assets we were asked to invest, plus the money they owed us, and gave it to their friends. When we complained to the FBI, Congress and the SEC, they hired Fusion GPS-like companies to run "hit-jobs" on us and threaten our lives.

WE WERE LIED TO AND DEFRAUDED BY GOVERNMENT AGENCIES. THEY TOOK OUR MONEY AND USED US, AND OUR PEERS, AS A SMOKE-SCREEN TO HIDE THEIR CRONY PAYOLA CRIME THAT PUT TAXPAYER CASH IN THEIR FRIEND'S POCKETS... We have received ZERO justice and ZERO compensation for our damages, our time, our witness testimony and our help provided to the authorities! We demand our compensation from the State And Federal authorities! Neither I, our peers or the voters will ever let this go until we receive justice!..."

KEY POINTS OF NOTE:

- THESE [JEFFREY EPSTEIN-like](#) CROOKS INCLUDE SENATORS, TECHNOLOGY CEO'S AND FAMOUS SAND HILL ROAD VENTURE CAPITALISTS. THOSE SUSPECTS HAVE ENGAGED IN THE LARGEST SETS OF BRIBES IN U.S. HISTORY! DON'T LET THESE SILICON VALLEY SEX-TRAFFICKING, BRIBING, RACIST, MISOGYNIST, TAX-

EVADING, MONEY-LAUNDERING, BLACK-LISTING, FELONY CRIMINALS GET AWAY WITH IT!

- The [Flynn Case](#), The [Strzok Case](#), The [Solyndra Case](#), The [GOOGLE Corruption Cases](#), The 200+ [Silicon Valley Cases](#) and MORE, prove that [White House](#) officials weaponized federal intelligence and services staff and used federal agencies to put hit-jobs on citizens, as anti-trust violating reprisal/revenge vendettas, on orders from their [Silicon Valley](#) campaign financiers. Billionaires and their companies like Tesla, Google, Facebook, Solyndra, Netflix, etc., got kick-backs, government contracts, monopolies and tax evasion perks for their quid-pro-quo! In the current and previous "emergency stimulus bills", under the guise of "it's an emergency, give us all the money", Congressional leaders took taxpayer funds and put the money and stock market perks in their family bank accounts, while sabotaging their business competitors. THE U.S. CONGRESSIONAL HEARINGS HAVE PROVEN IT!

- "We witnessed a series of [felony corruption crimes](#), mind numbing cronyism, and [political payola using insider trading](#) and we reported those crimes. In exchange we got [hit-jobs](#), cover-ups, de-funding, rights-blockades, harassment and ZERO JUSTICE from public officials!"

- [News reports](#) have now [revealed](#) that the Silicon Valley oligarchs are [funding and creating](#) the BLM riots and street ruckus in order to get even more political donations for election manipulations. These are the same Stanford elitists that ran the Cleantech Crash scam. They don't care about the environment, racism or anything but their stock market accounts. They only care about killing off their competitors and they use "green-washing" to cover their crimes. You can find a list of their names at the bottom of this document. They have thousands of operatives like Steve Spinner, David Plouffe, Sid Blumenthal, Nick Denton, etc. that launder hundreds of millions of dollars through a vast number of PAC's and fake 'charities'. This mob had the idea to: "[CONTROL ALL INFORMATION AND MANIPULATE POLITICS FOR THE BENEFIT OF THEIR BANK ACCOUNTS](#)"

- Public forensic investigations are [bringing hell](#) to every big tech crook involved in this scheme, for the rest of their lives, [until they are brought to justice](#). These crooks are now [under surveillance](#) and [investigation](#) by the public, and they are being exposed, doxed, reported and FBI-charged. [Disclosure dossiers](#) have been [produced on every single one of the top 200 culprits!](#) Global citizen social media and news [out-reach programs](#) contact hundreds of thousands of voters per day. By the time the next elections get here, [EVERYBODY](#) will know about this corruption and [EACH](#) of the perpetrators by name! If you have a computer YOU have the tools to investigate them just like the FBI does.

- [We saw criminal actions including bribes, insider trading, etc.](#), that our politicians engaged in, and got no help, no responses and no provision of our Constitutional rights so we are forced to rely on citizen crowd-sourcing of investigations and mass social media out-reach for justice!

- The 2008 Department of Energy [Cleantech Crash](#) proves that a federal agency was used as just one big slush-fund to pay-off political campaign financiers, operate insider-trading stocks and sabotage those financiers competitors using taxpayer-financed resources! We have used private investigator, FBI resources and deep AI research to [reveal that all government staff working on our application were getting quid-pro-quo...they were on the take.](#) (Can anyone point out to us [EVEN ONE person who was in the DOE/White House loop who was not working for, invested in, getting a future job from or other wise conflicted?](#)) What do you do when The U.S. Government convinces you to invest millions of dollars, and your life, into one of their projects. Then their project turns out to be a scam where they had covertly hard-wired the upside to a couple of Senator's and their campaign financier friends. The fix was in and the game was rigged to use a government program as a slush-fund for friends-with-benefits. We, and the public, got defrauded. Now the damages must be paid for, one way, or another. [Every one of the insiders who did get government funding got it in the exact same size and order as their covert political campaign funding and stock market bribes to the deciders.](#) Chamath Palihapitiya and other Silicon Valley insiders have now exposed the fact that Greylock, Kleiner, etc. are just a [VC Ponzi Scheme in this whole mess.](#)

- [Elon Musk got government money by bribing public officials and stacking hundreds of his friends and shareholders, ie: Steven Chu, Matt Rogers, Steve Westly, Steve Spinner's 'special friend', investor Google's employees, etc. on the staff of the Department of Energy and in the White House.](#) In other words, hundreds of Elon Musk's friends and financiers from Silicon Valley (Mostly from his investor: Google) were placed in the very offices that decided if he got the government funds. We have FBI-class records, financial tracking, emails, stock market relay records and other forensic data that proves it. We can swear, warrant, certify and prove these assertions in front of Congress in a live Congressional hearing or Civil Jury trial, given non-compromised legal backing. Musk bribed Senators, bought a President and had his buddies take over most of the Department of Energy. [Lithium metals](#), and other rare earth mining materials, are monopolized by Elon Musk and his Silicon Valley Cartel, in rare-earth corrupt mining scams. Lithium's widespread [use in cars is hindered](#) by a challenging obstacle: upon multiple charge-discharge cycles, [fractal filaments called dendrites](#) always grow through the electrolyte from the negative to the positive electrode and [short-circuit the battery](#) from the inside, thus guaranteeing that [Tesla Cars will eventually all explode.](#) [Musk and Panasonic have known](#) this since 2007 (They are "dumping" the batteries via Tesla) and have paid U.S. Senators, who own stock in Tesla, [to cover it up.](#) [The lithium fires and toxic vapors are a major safety concern because they have killed, poisoned and injured too many citizens.](#) [Musk gets away with his scams because he pays U.S. Senators bribes with stocks in his corporations and has a thousand crooked Goldman Sachs investment bankers selling his hair-brained schemes to your parents pension funds.](#) [Musk's partners created the government policy to sell pretend air, known as carbon credits.](#) [He makes \\$200M per year selling this pretend air.](#) [It is like you getting paid to sell your farts based on the hope that you might eat some beans some day.](#) [Musk's big bucks don't come from selling cars but from government mooch schemes.](#)

- We have formally asked the FBI and DOJ to investigate, engage in surveillance upon and interview attackers: Nicholas Guido Denton, John Hermann, Ian Fette, Adrian Covert, Patrick George, John Cook, Larry Page, Eric Schmidt, David Drummond, David Axelrod, David Plouffe, Lachlan Seward, Jay Carney, Robert Gibbs and their associates and determine how they were compensated for the attacks, who had command and control of their actions and who acted as a conduit for the funds. These people bribed government officials, sold our government and Democratic process like they were running a garage sale and used taxpayer-funded resources to attack anyone who reported the crimes involving their Tech Cartel! Their emails, text messages, stock market accounts, bank accounts, paypal accounts and social accounts prove what they were up to!

- Investigations have revealed that the White House and California Senators hired the character assassination and defamation attack services: [Cardinal & Pine](#); Pacronym, Acronym; [The Americano](#); [Investing in US](#); ShadowInc; Courier Newsroom; IN-Q-Tel; Gawker Media; Jalopnik; Gizmodo Media; K2 Intelligence; WikiStrat; Podesta Group; Fusion GPS; Google; YouTube; Alphabet; Facebook; Twitter; Think Progress; Media Matters; Black Cube; Correct The Record; Orbis Business Intelligence, Undercover Global Ltd; Stratfor; Jigsaw; ShareBlue/Acronym; Versa LLC; American Ledger; Supermajority News; New Venture Fund; Sixteen Thirty Fund; Cambridge Analytica; Sid Blumenthal; [States Newsroom](#); Hopewell Fund; Open Society; David Brock; AmpliFire News; American Bridge; Plouffe Consulting; Pantsuit Nation; MotiveAI; American Bridge 21st Century Foundation; Priorities USA; PR Firm Sunshine Sachs; The American Independent Foundation; Covington and Burling; BuzzFeed; [The American Independent](#); Perkins Coie, Wilson Sonsini and thousands more to run hit-jobs, character assassinations, dirty tricks and economic reprisal attacks on any applicants who reported the crimes. Each of those companies are now under federal and civil investigation. Most of these businesses offer the service of manipulating elections and news coverage in order to steer stock market profits into the pockets of billionaire clients at the expense of the taxpayer and Democracy. They hide their transactions via money-laundering. All of these services, when focused on individual citizens, are lethal.

To William Barr, Attorney General For The United States Of America:

"... We filed a federal Tort Claim 'Form 95' for damages and were informed by federal insiders that the claim was being stone-walled. We need to take deeper legal action against the government entities that caused the damages. Those damages are metricized in the seven to nine figures and proven by forensic data.

We, and our peers, have filed claims and reports with every lawenforcement and regulatory entity we know of and testified for a number of them. My co-investors filed lawsuits and won in federal court on the proof that a government entity engaged in favoritism and quid-pro-quo but I have yet to receive any damages cash as I was an interested party in those other cases. My lawyer now works for you so he is conflicted out from helping us on this case any further.

After completing a federal contract, to perfection, to build America's next generation energy and transportation technologies, our team were promised a factory contract, and funding, to deliver these low-cost, hyper-efficient, job-building, clean solutions to every American.

It turns out, we were lied to and defrauded. My associates found out that crooked politicians had secretly arranged to give our money and contracts to their best friends. That is a felony crime that abuses quite a few State and federal RICO, Anti-Trust laws, Quid-Pro-Quo laws, the public and the roots of Democracy..

We found out, thanks to FBI, OSC, GAO, OMB and private investigators, that the jurisdictional Senators and related politicians were engaged in corruption in partnership with a specific group of Silicon Valley tech oligarchs, now under investigation by various agencies of the U.S. Government.

Investigators have not found a single political entity in this case who was not either; financed by, friends with, sleeping with, dating the staff of, holding stock market assets in, promised a revolving door job or government service contracts from, partying with, personal friends with, photographed at private events with, making profits by consulting for, exchanging emails with, business associates of or directed by; one of those business adversaries, or the Senators and politicians that those business adversaries pay campaign finances to, or supply political search engine manipulation services to.

In other words, the FBI found that the politicians that were supposed to represent and protect us were the owners, financiers and beneficiaries of our local and national competitors. We would be delighted to sit down with you at our regional FBI office to go over the connections and crimes with you and the senior FBI staff again.

We were lied to by government representatives who said we could make "hundreds of millions of dollars in sales profits and carbon credits sales" if we invested millions of dollars of our resources and years of our lives in America. We were induced to invest. We invested, but those representatives secretly knew they had already hard-wired the funds to our competitors. Our competitors made hundreds of millions of dollars at our expense!

Those "representatives" were Senators and government agency bosses who were financed by, friends with, sleeping with, dating the staff of, holding stock market assets in, promised a revolving door job or government service contracts from, partying with, personal friends with, photographed at private events with, making profits by consulting for, exchanging emails with, business associates of or directed by; one of those business adversaries, or the Senators and politicians that those business adversaries pay campaign finances to, or supply political search engine manipulation services to.

Our product and services metrics beat those of every other competitor. We won on every comparison item except we refused to pay the bribes and cooperate with the illegal quid-pro-quo demands.

We found that mega-insider law firms operate a cartel of political appointee placements via quid-pro-quo deals, black-lists and manipulation of public policy and policy decisions via covert perks and payola schemes.

We found out how insider stock trading between politicians and tech companies is the largest form of corruption in America.

We found out who the top 200 dirty politicians, corrupt investment bankers and tech oligarchs were that operated the scheme. We found out thanks to some FBI, GAO, Congressional and Media investigators. The evidence and financial tracking software proves it. The quid-pro-quo tracks back to each and every one of their stock market, i-bank and estate accounts.

Our issues are headline news every day. Nobody can doubt the veracity of our claims since they read about the exact same things in the news every morning.

How might you help me, personally, recover my monies for the damages from fraud, interference and other losses?..."

SEE "THE BASICS" SECTION, AT THE BOTTOM OF THIS REPORT, FOR A CAPSULE EXPLANATION!

We have asked the FBI, OSC, SEC and FTC to investigate the fact that the executives and investors of Google, YouTube, Facebook, Tesla, Netflix, LinkedIn, and their owned politicians, run an organized criminal stock market and public policy manipulation racketeering cartel.

These tech oligarchs have been documented meeting and conspiring to harm others, that they compete with, using mobster-type tactics and methods. That is a FELONY violation of federal RICO laws.

Our elected officials owned portions of these companies, were financed by these companies, allowed these companies to write laws they presented to Congress, slept with the staff of these companies, exchanged staff with these companies, had media manipulated on their behalf by these companies and engaged in other illicit deeds with these companies

Per The United States Congress, The FBI and the FTC: The Previous High-Tech Antitrust Black-Listing Litigation is a [United States Department of Justice \(DOJ\) antitrust](#) action and a civil [class action](#) against several [Silicon Valley](#) companies for secret collusion agreements which targeted high-tech employees. This case was one of the most famous federal lawsuits in Silicon Valley. [Scam fronts for Silicon Valley oligarchs are being exposed daily.](#)

The [tech cartel is evil](#) because: they steal any technology they desire; they run a [prostitution ring](#) and [sexually extort young women and interns](#) in Silicon Valley; they are 'rape culture' [take-what-they-want misogynists](#), ageists and [racists](#) as their history of abuses has proven; their Palo Alto Cartel operates [AngelGate-type](#) collusion and [stock market insider trading schemes that harm independent business and the public](#); their Cartel ran the "no poaching" CEO ring which was class-action sued by DOJ and tech workers; 90% of their divorce court files [reveal horrific abuses](#) and [sex trafficking](#); They have an [army of lobbyists](#) that pay cash, stock market and [revolving door bribes](#) to U.S. Senators; They can even evade FBI & SEC investigations; They hire women to act as [trophy wives](#) and [beards](#); they have [lobbyists rig the U.S. Patent Office](#) in order to block inventor patent rights because they are using stolen technologies; they have been caught on video and recordings [beating, kicking and harming women hundreds of times](#); They have bought up all of the Tier-One tech law firms and order them to [black-list](#), and never help, those who seek equal tech rights; they collude to abuse your privacy and make databases on the public for political control; they have to cheat to compete because they are only good with spread sheets instead of innovation; They run black-lists, character assassination attacks, collusion and other anti-trust violating acts in violation of RICO laws.

Silicon Valley has become the largest assemblage of [douche-bags](#) and [yuppie frat boy criminals](#) in human history. [Theranos](#) is not the exception, it is the standard. [Tesla](#), [Google](#), [Theranos](#), [Wework](#), [Facebook](#) are lies backed by famous political insiders to protect [their insider trading](#) and covered-up by fake news operators. They are also fronts to fund political campaigns via the ill-gotten profits from their endeavors.

When the bad guys, and their lap-dog politicians, attack you because your products are better than theirs they are proving that they are [frat boy scumbags](#), from Stanford and Yale, that operate in a little pack, like dogs! Their Sandhill Road operation should be raided by the FBI! The best thing that could come from the COVID pandemic is that they all are forced into bankruptcy!

When your [Senator holds stock market shares](#) in companies that exist to [profit on the backs of consumers](#), via corruption, then it is impossible for that Senator to ever do anything but be corrupt! We have reported this in writing to winklerm@sec.gov, sanfrancisco@sec.gov and 30+ other federal officers but have yet to see our whistle-blower rewards...or any action! Do you wonder how big politician insider stock trading is? Take a look at how many **TRILLIONS** of dollars pass through the stock markets annually and then look at the reported, **AND UNREPORTED**, securities holdings of famous U.S. Senators and government agency staff. That is what Seth Rich and the people in the *"In Memory Of"* section, below, were disclosing. [These are massive crimes!](#)

The crooks at Google, Facebook, Tesla, LinkedIn, Netflix, etc., broke felony laws and the [basic principles of Democracy](#).

[GOOGLE, Especially, must be exterminated and every executive and investor exposed and prosecuted because of these crimes:](#)

[Google faces \\$5 billion lawsuit in U.S. for tracking 'private' internet use. Google WILL pay for their crimes and must be extinguished as a business because of their corruption!](#)

They bribed your Senators, White House Staff, insider agency staff and operated a Silicon Valley Oligarch sociopath political Cartel.

What kinds of people were some of these high tech oligarchs? Read their divorce Court Records about their Jeffrey **Epstein**, [NXIVM](#) sex trafficking; Andy Rubin and Goguen [sex slaves](#); tax evasions; money laundering; intern abuses; misogyny; racism; political insider-trading stock market bribes to U.S. Senators; a '[Silicon Valley Tech Mafia](#)' and other horrors.

What would you do if you found out that Eric Schmidt, Larry Page, Elon Musk, Sergey Brin, John Doerr and other dynastic elitist insider Stanford frat boys were running a mob-like Cartel? Over 60,000 engineers in Silicon Valley took the problem to Federal Court!

Ask Christopher Wray, John F. Bennett, Craig D. Fair and the other senior officials at the FBI, DOJ, SEC, FTC and other major federal investigation agencies: **Organized crime in Silicon Valley is getting a harder look these days!**

The defendants, in the first case, included [Adobe](#), [Apple Inc.](#), [Google](#), [Intel](#), [Intuit](#), [Pixar](#), [Lucasfilm](#) and [eBay](#), all high-technology companies with a principal place of business in the San Francisco–Silicon Valley area of California where they collude together to harm competitors. **It is a well documented fact that Facebook, Google, Netflix, LinkedIn, etc. use sophisticated psychological testing on each applicant in order to filter out all but the most radical devotees of the founders ideologies. These companies then maintain an echo-chamber resonance, throughout the company, to reinforce their ideological message, much like Scientology does. In these companies one must praise Elon Musk and Mark Zuckerberg and hate those who the founders target. The founders target their competitors, in violation of anti-trust laws.**

The first civil class action was filed by five plaintiffs, one of whom has died in a curious incident; it accused the tech companies of collusion between 2005 and 2009. In [Abolish Silicon Valley: How to liberate technology from capitalism](#) we see another of thousands of insiders expose the fact that Silicon Valley is a pile of filth.

Additional cases are planned for filing. Formal complaints have been filed with **The SEC, The DOJ, The GAO, The FBI, The FTC and The U.S. Congress. Active investigations into 'Angelgate' and related collusion and anti-trust matters are known to be under-way by federal, news outlet and private investigators as of 2020. U.S. Senators, and other politicians, who covertly own stock in these Silicon Valley companies, have been delaying enforcement against these corrupt companies. Consumer rights groups have pledged to take down each and every politician who owns these corrupt stocks and protects these corrupt companies!**

Our alliance of the public, journalists, investigators and agency staff have FBI-level investigated: Steven Chu, Larry Page, David Dummond, Lachlan Seward, Andy Rubin, Jeffrey Epstein, Elon Musk, Nicholas Guido Denton, Harvey Weinstein, Eric Schmidt and the rest of the RICO-violating "Club" and had them fired or removed from their positions. They will remain under public surveillance for the rest of their lives and their case files will be added to monthly via submissions to federal agencies and news entities.

What would an insane tech oligarch (Like Schmidt, Musk, Reid, Brin, Westly, Page, Khosla, etc.) do for trillions of dollars of criminal gain and control of politics and ideology?

When you run the following query on the stock market volume for a single day, ie: `"Select sum(Close*volume*0.001), count(*) from myTable where date = '9/27/2017'";`..you get the following result: 7300 stocks were traded, Total Money flow: \$271,072,334,824. This is how much was traded on that day.

The total world derivatives market has been estimated at about \$791 trillion face or nominal value, 11 times the size of the entire world economy.

The World Bank publishes global data on stocks traded by \$ value [here](#). ie:

- 2016 - \$77.5 trillion for the year.

Most exchanges publish this stat. [Here](#) is the data for NASDAQ

- Feb 6, 2018 - \$192 billion for the day.

And the Indian stock market volume data (in Indian Rupees) is [here](#).

- BSE + NSE cash market, Feb 2018 - About Rs 40,000 crore daily. That's about \$6 billion per day.

Average estimates put daily stock movement between 5 to ten trillion dollars per day. You can buy lot's of Weinstein/Epstein-like private islands, private jets, sex parties, U.S. Senators and crony government contracts with that kind of money. Once an oligarch starts buying sex with underage girls, they don't stop. [In fact, there is nothing that a corrupt tech oligarch and their owned Senator won't do to keep their little pig trough filled up.](#)

The average murder/robbery in the United States is undertaken for an average amount under \$100.00

Thus, an Eric Schmidt, Elon Musk, Steve Westly, David Drummond, Vinod Khosla, Reid Hoffman, Steve Jurvetson, Andy Rubin, Larry Page or similar oligarch, who is sociologically addicted to money and power, is [most certainly capable of ordering and operating election manipulations](#), Presidential bribes, murders and engaging in other crimes to protect those greed-based assets. They have the full resources to do so, have federal records proving that they hire lobbyists and operatives who do these things for them and have a documented history of engaging in extremist actions.

**The Silicon Valley Cartel Hires Gawker, Gizmodo, Jalopnik,
Black Cube, Fusion GPS, etc. to run "hit-jobs" on those who report their crimes!**

The Hit Job

How much do you have to pay Google, Alphabet, YouTube and Black Cube to dedicate a portion of their servers to push a character assassination set of links, against a competitor, to all five billion people on Earth with internet access? How much did Obama, Clinton, Bloomberg spend using those exact same systems to attack their political enemies? How much does it cost to order a citizen's social security benefits blockaded, have their phones and computers hacked and run a global character assassination media campaign to defame and black-list them? Every one of the attack technologies and resources were previously deployed against Presidential candidates in past elections. The providers, operators and compensation conduits of the attack services are known to law enforcement. The payment records have been uncovered, revealing that over \$30M of billings were incurred. By way of contrast: \$30M is the typical WEEKLY expenditure for opposition character assassination programs in a U.S. Presidential election using Gawker, Gizmodo, Facebook, Google and Fusion GPS media attack services. ([See the detailed investigation report on the specific attacks](#))

We know. We have their financial records, invoices and receipts and so does the FBI and the NSA.

How much do you have to pay to get them to lock those attack links on one of the first 4 lines of EVERY search result, in the same position in the search results, for over a decade (which proves that their search results are not "organic", they are manually manipulated by Google and YouTube)? How much did Obama, Clinton, Bloomberg spend using those exact same systems to attack their political enemies?

We know. We have their financial records, invoices and receipts and so does the FBI and the NSA.

How much does it cost to make a Disney-like animated movie about a whistle-blower? How much does the production and software and person-hour billings cost? How much does it cost to distribute that movie world-wide and lock it in the top line of all search results?

We know. We have their financial records, invoices and receipts and so does the FBI and the NSA.

How much does it cost to hire a warehouse full of Russian, Nigerian and Chinese click-farm operators who use Palantir and Google software to instantly be alerted of any mention of a person's name on the internet and to then go slam that person in the comment sections with endless troll remarks? Elon Musk uses these same people to hype his narcissistic need for attention. Obama, Clinton, Bloomberg and other politicians hire these same people to attack their political adversaries. How much does it cost to have anonymous trolls in foreign countries kill a person's brand globally?

We know. We have their financial records, invoices and receipts and a huge number of lawsuits, court records, federal investigation and investigative journalism reports have exposed those records and details. The FBI, NSA, SEC, FTC and Congressional investigators can also confirm these numbers!

So it turns out that it costs: **\$35,422,152.00 to have a person and their business killed!**

That is how much they spent on their attack on the Plaintiff! The people at the top of the heap who organized the attacks were David Plouffe, Jay Carney, David Axelrod, Denis McDonough, Steve Rattner, Robert Gibbs, Rahm Emanuel and their associates and they did it from **The West Wing and The Oval Office in The White House.**

Many of the political attacks were edited by [Nick Denton](#) and his seedy tabloid empire Gawker/Gizmodo.

Media Matters for America founder David Brock is a hired media assassin who reaped illegal profits through the transfer of millions from a nonprofit he founded to a for-profit entity under his control, according to an IRS complaint filed by a watchdog group. The [complaint](#) details how Brock's nonprofit group American Bridge Foundation (AB Foundation) transferred \$2.7 million in tax-exempt assets to True Blue Media, a for-profit company owned by Brock that is the parent company of ShareBlue, a for-profit media company now known as [The American Independent](#). The transfers violated IRS rules that prohibit nonprofit organizations from using their tax-exempt resources to pay personal or private expenses of any key figures connected to the nonprofit, the complaint stated. AB Foundation's transfers to True Blue Media were disclosed in the nonprofit's Form 990s filed to the IRS in [2017](#) and [2018](#). "*Brock is a well-known hit man who took money to target our group in reprisal for whistle-blowing....*" Said Team 7 staff.

The money was conducted and assisted for pass-through by political financiers Eric Schmidt, Larry Page, Sergey Brin, Elon Musk, John Doerr, Vinod Khosla, Steve Westly, Steve Spinner and their [Silicon Valley oligarch Cartel](#) black-listing operation.

It was a felony. It violated RICO, Anti-Trust and Constitutional laws.

So they spent over thirty five million dollars attacking the Plaintiff and shutting down a competitor that was targeted to make over six billion dollars in profits. The attackers then made the six billion dollars in profits for themselves, at the expense of the Plaintiff.

So how much do you think they owe the Plaintiff per previous court awards for such crimes against a member of the public?

- The perpetrators operate a **massive and abusive national sex cult**. [The perverts](#) in the SandHill Road Venture Capital offices, located between Highway 280 down to Santa Cruz Avenue on Sand Hill Road in Menlo Park, California, are the main perpetrators of this global cartel. Their executives at Google, Facebook, Netflix, LinkedIn, Twitter, and their related holdings, comprise the rest. The Harvey Weinstein and [Ed Buck](#) sex scandals are well known. [The Four Seasons Hotel](#) and [Rosewood Hotels](#) in [Silicon Valley](#) are estimated to engage in over \$30,000.00 of high-end escort sex trafficking per day, a portion of it managed by [Eastern Bloc Mafia operators](#). The [Elon Musk sex perversions](#) are the tip of the iceberg. At least 10 Ukrainian escorts fly in and out of SFO and SJO airports every week for these Cartel members. Google boss David Drummond engaged in horrible philandering sexual violations of his wife yet Google covers up every story about it on the web. [Google's Eric Schmidt is under massive investigation](#). You hear about the female victims of this sex cult but you rarely hear about the young male victims. One of their vast numbers of prostitutes is quoted as saying that the girls and boys are paid "not just for sex but for the oligarch's endless need to feel that they can control anyone for any reason...". Multiple attorney general's controlled by their cartel, ie: [Eric Schneiderman](#) and [Eliot Spitzer](#), are involved in these sex rings. *These are the main influencers of a national political party and they are all involved in horrific sex perversions and abuses! The associates political figures financed by this sex Cartel include: Illinois State Representative, Keith Farnham, who has resigned and was charged with possession of child pornography and has been accused of bragging at an online site about sexually molesting a 6-year-old girl; Spokesperson for the Arkansas Democratic Party, Harold Moody, Jr, who was charged with distribution and possession of child pornography; Radnor Township Board of Commissioners member, Philip Ahr, who resigned from his position after being charged with possession of child pornography and abusing children between 2 and 6 years-old; Activist and BLM organizer, Charles Wade, who was arrested and charged with human trafficking and underage prostitution; Texas attorney and activist, Mark Benavides, who was charged with having sex with a minor, inducing a child under 18 to have sex and compelling prostitution of at least nine legal clients and possession of child pornography, he was found guilty on six counts of sex trafficking; Virginia Delegate, Joe Morrissey, who was indicted on charges connected to his relationship with a 17-year-old girl and was charged with supervisory indecent liberties with a minor, electronic solicitation of a minor, possession of child pornography and distribution of child pornography; Massachusetts Congressman, Gerry Studds, who was censured by the House of Representatives after he admitted to an inappropriate relationship with a 17-year-old page; Former Mayor of Stillwater, New York, Rick Nelson who was plead guilty to five counts of possession of child pornography of children less than 16 years of age; Mayor of Clayton, New York, Dale Kenyon, who was indicted for sexual acts against a teenager; Former Mayor of Hubbard, Ohio, Richard Keenan, who was given a life sentence in jail for raping a 4-year-old girl; Former Mayor of Winston, Oregon, Kenneth Barrett, who was arrested for setting up a meeting to have sex with a 14-year-old girl who turned out to be a police officer; The Mayor of Randolph, Nebraska, Dwayne L. Democratic deputy attorney general from California, Raymond Liddy, was arrested for possession of child pornography. There are THOUSANDS of other sex crime cases involving associates of the tech Cartel. All of these perpetrators had financing from and social and political direction from the Silicon Valley controlling perpetrators.

An inordinate number of the [members are closeted homosexuals](#) who seek to use their [media monopolies](#) and [massive lobbyist ownership's](#) to [promote child sex](#) and child sex change consideration. Hence the [massive](#), sudden, [promotion of those issues](#) in all of their [media](#) since they took power in 2008 and pretty much ran the Obama White House. The press has [widely reported](#) on underage boy sex clubs and the payment to [parents for the blood of young boys by these oligarchs](#). Their elitist [Yale and Stanford](#) fraternity house upbringing's promoted "[bromances](#)", "[rape culture](#)" and a "[don't-worry-daddy-will-fix-it](#)" mentality. Highly gay law firms, (like Covington, Perkins and Sonsini), actively lobby to place gay politicians in office from their Bay Area offices.

What some of the fundraisers for the political candidates tell these oligarchs to get their cash: "...We need to control the government or you won't have enough money to buy private islands, ranches and penthouses and have young boys and girls flown in to have sex with. If we don't control the government, no more sex parties for you..."

- The AngelGate Conspiracy (<https://venturecapitalcorruption.weebly.com/the-angelgate-conspiracy.html>); The Job Collusion Case (https://en.wikipedia.org/wiki/High-Tech_Employee_Antitrust_Litigation) and hundreds of other cases, prove that the perpetrators regularly [meet, conspire, collude](#) and racketeer, in [full view](#) of law enforcement, without ever getting arrested by the FBI because they bribe public officials in order to avoid prosecution.

Public officials and Silicon Valley oligarchs exchanged felony bribes and manipulated government actions in order to benefit themselves and harm us. these are the facts including the lists of bribes, attacks and covert financing routes!

Famous members of congress lie, cheat, steal and manipulate public records in order to protect their trillions of dollars of Google, Facebook, Netflix, Tesla and Amazon insider stock market payola.

Now the public is working together, around the globe, to end this corruption forever by exposing every single one of the corrupt and all of their dirty secrets!

The Political Corruption Crimes We Experienced In California And Washington DC

The government is responsible to us for the damages to us. We, as natural born citizens, suffered injuries caused by the crimes of government staff during, and after, our work for the government.

The NY Times reported: "[Ms. Feinstein and her husband sold \\$1.5 million to \\$6 million worth of stock in Allogene Therapeutics, a California-based biotech company, in transactions that took place on Jan. 31 and Feb. 18.](#)" She, as usual, claimed that she has "no involvement in her husband's financial decisions" to avoid criticism. Do you really think that she has no idea about multi-million dollar deals that her husband is involved in? Dianne Feinstein, and her family owned the HR services, the construction company, the leasing services and the stock market accounts in Tesla and Solyndra and got the owners of those companies their government hand-outs. White House Staff and Department of Energy staff were fully aware of this and covered up these conflicts to protect their own stock holdings and revolving door jobs. She, and other Senators, ordered hit-jobs on the competitors to those companies, who were their constituents, in order to protect their stock holding profiteering efforts.

Public integrity at The Department of Energy and The U.S. Congress is in shambles because of this audacious corruption.

WHAT CRIMES AND CORRUPTION DID WE WITNESS?:

These are just a few of the corrupt financial conflicts of interest we experienced while engaging in a federally contracted program:

- We saw Congress not only fail to eliminate both the appearance and the potential for financial conflicts of interest; we saw Senators, White House staff and Department of Energy executives optimize the support structure to engage in such criminality. Americans must be confident that actions taken by public officials are intended to serve the public, and not those officials. The actions taken by Obama Administration staff and Department of Energy officials in illicit coordination with U.S. Senators were criminal acts in violation of RICO and other laws.
- We saw illicit individual stock ownership by Members of Congress, Cabinet Secretaries, senior congressional staff, federal judges, White House staff and other senior agency officials while in office. Those government officials acquired, held, 'pump-and-dumped' and traded stock where its value was influenced by their agency, department, or actions in efforts that harmed us.
- We saw government officials, including our U.S. Senators, engage in organized crime via insider trading, revolving door job payola, sex-for-perks trades, stock valuation fluffs, and more illicit actions.
- We saw conflict of interest laws and ethics violated by the President and Vice President in violation of Conflicts of Interest standards in which the President and the Vice President did not place conflicted assets, including businesses, into a blind trust to be sold off and hid conflicts of interest.
- [We saw senior Department of Energy government officials](#), employees, contractors and White House staff invest in privately-owned assets that did present conflicts and harmed us, including large companies like Tesla, Google, Facebook, Sony, Netflix, etc., and commercial real estate.
- We saw an organized crime scheme to not respond to filings by citizens or reporters. Former White House and Energy Department staff use 'stone-walling' to intentionally delay responses for a decade, or more, and that tactic continues to this day.
- We saw ethics rules violations by government employees, including unpaid White House staff and advisors.
- We saw executive branch employees fail to recuse from all issues that might financially benefit themselves or a previous employer or client from the preceding 4 years in the "Cleantech" programs.
- We saw a 'Revolving Door' between Silicon Valley industry and government and we saw tech companies buying influence in the government or profiting off of the public service of these officials.
- We saw lobbying by the President, Vice Presidents Members of Congress, federal judges, and Cabinet Secretaries; and, we saw other federal employees lobbying their former office, department, House of Congress, or agency.
- We saw our competitors immediately hiring or paying these senior government officials from agencies, departments, and/or Congressional offices recently lobbied by those companies and staff from our Senator's office go freely back-and-forth at jobs at the companies and the offices of the Senators.
- We saw the world's largest companies, banks, and monopolies, especially Goldman Sachs, (measured by annual revenue or market capitalization) hiring or paying former senior government officials mentioned herein. We saw the massive, and unfair, ability of companies to buy influence through current government employees
- We saw current lobbyists taking government jobs after lobbying.
- We saw over 82 of our friends and peers suddenly die under strange circumstances. Some of them appear to have been murdered to shut them up.

- We saw our rights restricted and our access to justice blocked to all but the wealthiest individuals and companies.
- We saw barriers that prevented us as individuals from having our case heard in court via harsh pleading standards that make it too hard for individuals and businesses that have been harmed to make their case before a judge.

- We saw a hiding, by Silicon Valley lobbyists of when they lobby a specific congressional office; specific topics of visit; the official action being requested; and all documents provided to the office during the visit.

- We saw much, much more... **ANY POLITICIAN WHO ALLOWS THESE CRIMES AND CORRUPTIONS TO CONTINUE TO EXIST IS PART OF THOSE CRIMES AND CORRUPTIONS. NEVER BELIEVE ANY CANDIDATE WHO DOES NOT SWEAR TO END EACH OF THE ABOVE LISTED PAYOLA AND CORRUPTION PROCESSES!**

Say Victims: "...We now want to see: 1.) Our damages paid for, 2.) the FBI 302 reports on our case, 3.) arrests of the government employees who engaged in this corruption and 4.) new laws to make sure this never happens again!..." The victims are government whistle-blowers and crime victims in the largest organized crime case in America!

The victims have won White House, Congressional and Mayoral proclamations and commendations for their service; yet, by their hand, the Feds have prevented them from being able to afford housing, or any life more than a Nigerian refugee might expect, since 2008, because their benefits were blockaded as political reprisal.

Some of the victims filed and won one of the largest federal U.S. Court Of Claims citizen lawsuits in history proving that corrupt insiders were manipulating federal agencies to cut off their funding in reprisal. There are front page news stories about it in the New York Times, Wall Street Journal, Major TV shows, etc.

Their case set historical legal precedents that created many federal court firsts and new legal standards. There should be no question in the mind of any court about the fact that these government agency attacks on these victims did occur and were illegally operated as political reprisals. The Courts, the FBI, Congress and extensive investigations have proven these assertions as indisputable fact. Even though they won their historical lawsuit, the victims still never got any compensation aside from knowing they exposed the crime. The victims in this case were damaged by their work for, and whistle-blowing about, criminally corrupt government officials

There are many, many news reports, 60 Minutes episodes and Ethics Committee reports and Pacer.gov filings, that anyone can look up, to see stories about many other people who saw all of these same exact corruption activities.

As federal whistle-blowers and crime victims of a felony crime, the victims have been subjected to political dirty tricks reprisals using taxpayer funded government agency resources. Political dirty tricks services like Fusion GPS, Black Cube, Gizmodo, In-Q-Tel, Gawker, ActBlue, etc. are in the news headlines regularly because of what they do to citizens, like the victims of these crimes, when those kill-services are hired by corrupt Senators and White House staff.

These reprisals are operated by a small, but extremist, handful of government officials because the victims are federal witnesses in an ongoing active major law enforcement investigation involving the political and stock market assets of the associates of those officials. The fact that screwball politicians engage in dirty tricks ops with government agencies is in the headlines of the news every single day! This can no longer be called conspiracy theory because it is now forensic fact!

Those officials are now known to have manipulated government benefits and payments process in reprisal for reporting their crimes.

THE ONGOING ATTACKS ON THE MEMBERS OF THE PUBLIC WHO REPORTED THESE CRIMES

Part of that evidence proof is on display at the url: www.majestic111.com and in the video documentaries provided therein. Millions of citizens have viewed that site and these videos on network TV.

The competing companies to the businesses of these victims are owned by famous U.S. Senators who want the victim's past technologies out of business because those technologies obsolete their insider trading schemes in the companies they own the stocks of. Their actions are a violation of anti-trust and RICO laws.

Most of the government officials working on this and related cases were hand-picked by the victim's business and political adversaries, for stone-walling and obfuscation purposes, to cover up the Afghan and Congo 'Rare Earth' metals mining scams that this investigation exposed and that many of those officials profiteered on. Web searching the term: "trillions of dollars of lithium in Afghanistan", will explain the multi-trillion dollar mining scam crimes quite well.

The victim's cases have never been fairly reviewed by non-biased, non-conflicted officials. The victim's FBI-class investigators and peers have not found a single entity in the government's case reviews, or determinations, who was not either: financed by, friends with, sleeping with, dating the staff of, holding stock market assets in, promised a revolving door job or government service contracts from, partying with, personal friends with, photographed at private events with, making profits by consulting for, exchanging emails with, business associates of or directed by; one of those business adversaries, or the Senators and politicians that those business adversaries pay campaign finances to, or supply political search engine manipulation services to. FBI and CIA-class Forensic data proves it.

The victims have demanded, in writing to SSA, DOJ, OSC, SEC, FBI, that an unbiased lawyer and CPA be provided by The State for the case but none has been provided. As they are now low-income, senior, disabled, felony crime victims, the federal government's LSC Corporation and public-interest law groups have stated that it is their right to receive such case assistance from The State. The victims have contacted NOSSCR, LSC, Legal Aid, NADR, and all known local resources on the list provided by the feds but none of those taxpayer funded entities have been responsive because they are helping the cover-ups.

The assertions provided by a Task Force team of 3 letter agency folks, Congressional staff, investigative reporters and crowd-sourced voters supporting the case investigations are beyond reproach, and true, unless someone refuses to hear the truth due to a personal political agenda.

The victim's government-promised benefits have STILL yet to be provided to them and many of the actions by politically conflicted federal officials, so far, have succeeded in harming the victims further. The peers of the victims have received millions and millions of dollars for their Department of Energy, and other agency, whistle-blowing but the other victims have been blocked from getting legal support.

These abuses and benefits blockades are a violation of the victim's human rights, U.S. Constitution and State Constitutional rights. (Yes, each State has constitutional rights you get, too)

The victims put their lives on the line for their country. They have worked 60 hours, or more, per week, since the 70's. They more than earned their full benefits plus damages, interest and back-fees equal to precedents set in the referenced whistle-blower court cases, below.

The victims are fully qualified for, and have the right to receive, a State supplied law firm to represent them but they have been blockaded from their rights because corrupt political figures are embarrassed about their crimes being exposed.

Elected officials and agency staff have one job, that job it is to work for THESE VICTIMS the citizens. Those politicians, though, have been shown to have millions of dollars in their stock market accounts from competing with these victims via their ownership in competing companies that they are supposed to be regulating.

At least one of the California Senators has over \$100 million dollars in their accounts, (a fact the FBI can confirm), from stock market manipulations like this. Politically driven, and greed motivated, agency staff are constantly looking for any little opportunity or reason to use agency resources to harm any whistle-blower in reprisal for the success of the anti-corruption task forces they have assisted.

Federal officials stealth-hired Google, Gawker, Gizmodo, YouTube, In-Q-Tel, Fusion GPS and Black Cube to produce tens of millions of dollars of political reprisal media attacks and coordinate toxic exposures against the victims. The attacks have been proven by federal and private investigators to have happened. The source of the attacks, the financiers of the attacks, the beneficiaries of the attacks and the operators of the attacks are the same handful of government people.

The victims are seeking an analytical, objective, reasonable, non-political review of their case. Unlike Julian Assange, Edward Snowden and other whistle-blowers, not only did they do nothing illegal but they are law enforcement and intelligence service consultant who HELP the nation! They are Smedley Butler-like and not Edward Snowden-like!

It is foolish for any party to ignore the capacity for crime that the Jeffrey Epstein, Harvey Weinstein (ie: his threat to have Jennifer Aniston killed for reporting his sex crimes) and Larry Page oligarchs get involved in, along with the Senators they own and control.

The nature of the core crime case is profound in that it was driven by White House staff and United States Senators, who ordered attacks on the victims in reprisal. These famous political figures use the trillions of dollars in government treasuries and massive stock market scams for illicit profiteering by rigging the system exclusively for themselves and their crony insiders.

They attacked the victims using government taxpayer funded media (Fusion GPS, Black Cube, Google/YouTube/Alphabet, Pysops, Gizmodo Media, Media Matters, Blumenthal, etc.) and spy agency tools because the victims competed with their businesses and reported their crimes. This month the news headlines reveal that San Francisco Bay Area government has as many corrupt politicians as Chicago and relies on the same RICO-violating insider corruption network to operate; as proven by deep AI searches of their financial records. Arrests of those officials are now underway.

Silicon Valley law enforcement records prove that the tech oligarchs that finance these political figures, engage in an organized, racketeering-based, massive sex trafficking, tax evasion, anti-trust violating, spousal abuse, money laundering, black-listing, racist, ageist, political bribery, crony racketeering crime Cartel. The Famous U.S. Senators, Governors and their staff knowingly engage in, finance, operate and benefit from these crimes in exchange for search engine manipulation and stock market insider trading.

The Google, Facebook and Twitter components of this Cartel censor and cover-up news coverage of these crimes, and attacked the victims, because they have a financial connection to the perpetrators.

All of the crooks have had their files hacked. The evidence is out there at the NSA, FBI, etc. Even hackers from Russia and China have copies of the incriminating data. The bad guys will eventually lose!

It is unlikely that any whistle-blowers have as productive a domestic resume, as many letters of reference from famous third-parties and as much proof-of-work as these victims have proven in their evidence sets. The victims have been friends with, and shared homes with, multiple White House and Senate staff and family members and some them have even vouched for the victims. These whistle-blowers know the 'inside scoop'.

The victims are bi-partisan and not affiliated with any political party but they hate political corruption and have the connections to fight it when it affects them and America. Pictures and videos of famous political figures hugging them and meeting with them abound.

In a positive turn of events Whistle-blower Walter Tamosaitis" (easily found on web searches) who was also a Department of Energy Whistle-blower, got a rare victory. Walter got \$4.1 MILLION DOLLARS for his whistle-blower work about the Department of Energy malfeasance.

The rest of the victims have gotten nothing but punishing benefits blockades and benefit reductions that guaranteed they would never be able to afford rent, going to a show or a restaurant, legal services or anything else in their lives! One of the people they helped get arrested sits around and drinks and collects over \$150,000.00 per year in government benefits...and they are an arrested crook. The victims are having a hard time seeing how they have been treated fairly in light of their deeply documented public service!

SSA, and other agencies, were weaponized as political reprisal tools against the victims. James Brown, Jr, the HHS California head of Obamacare was arrested by the FBI for political corruption and racketeering during this. In Marin county HHS investigators were also arrested for sex crime. These tiny victories do not pay the rent for the victims, though.

Some of the victims were awarded a Congressional commendation award in the Iraq War Bill under the United States Congress. They, and their team were to build America's alternative energy back-up plan for the nation under the Department of Energy. They fully executed their federal agreement and did not go bankrupt, embezzle funds, bribe California politicians or get FBI-raided like their competitor: Solyndra!

U.S. Senators, Agency Heads and Congress are bribed with:

Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures stock and stock warrants which is never reported to the FEC; Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures search engine rigging and shadow-banning which is never reported to the FEC; Free rent; Male and female prostitutes; Cars; Dinners; Party Financing; Sports Event Tickets; Political campaign printing and mailing services "Donations"; Secret PAC Financing; Jobs in Corporations in Silicon Valley For The Family Members of Those Who Take Bribes And Those Who Take Bribes; "Consulting" contracts from McKinsey as fronted pay-off gigs; Overpriced "Speaking Engagements" which are really just pay-offs conducted for donors; Private jet rides and use of Government fuel depots (ie: Google handed out NASA jet fuel to staff); Real Estate; Fake mortgages; The use of Cayman, Boca Des Tores, Swiss and related money-laundering accounts; Bribes to Stanford officials to admit their kids to college; The use of HSBC, Wells Fargo, Goldman Sachs and Deutsche Bank money laundering accounts and covert stock accounts; Free spam and bulk mailing services owned by Silicon Valley corporations; Use of high tech law firms such as Perkins Coie, Wilson Sonsini, MoFo, Covington & Burling, etc. to conduit bribes to officials; and other means now documented by us, The FBI, the FTC, The SEC, The FEC and journalists.

Part of this matter was featured on CBS News 60 Minutes investigative news segments. (ie: the segments: "THE CLEANTECH CRASH", "CONGRESS TRADING ON INSIDER INFORMATION", "THE LOBBYISTS PLAYBOOK" and investigations into hundreds of billions of dollars of stock market payola illicitly routed through Silicon Valley tech companies). *If the White House, at that time, had been charged for these stock market campaign payola crimes, The President would have been forced out of office. Instead, the AG, Eric Holder, was impeached/Held-In-Contempt-Of-Congress and he had to leave office.*

This is why the attacks on the victims have been so spy agency-oriented and sophisticated: To punish them for helping law enforcement and because the victims accidentally competed with Senator's stock market schemes by making their products obsolete via BETTER products.

There are now thousands of news and Congressional reports; from "Spygate", to The IRS Lois Lerner case to the FBI McCabe case and a vast number of SSA IG reports, particularly SSA about government agencies being weaponized against citizens for political reprisals. Compromised staff used SSA resources to harm the whistle-blowers and block their benefits because they helped halt one of the largest corruption schemes in modern American history.

This case is still an active case via many federal law enforcement and regulatory agencies. Some of the victims were cellular-level blood poisoned by exposure to toxic chemicals, compounds, powders and radioactive materials in their work environments for the Department of Energy projects. It is unclear if this poisoning was intentional "Alexander Valtterovich Litvinenko-like" reprisal poisoning or accidental. The minimal Obamacare medical coverage that some of the victims have does not fund the testing and treatment of Cesium, Thorium overdose, micro-particulate toxins, radical solvents, high energy EMF and the kinds of exotic materials that Department of Energy weapons and energy labs, that victims worked with, use in their locations.

While the victims benefits application was underway in one part of the federal building, on the upper floors of the same building, victims were assisting a federal crime investigation against powerful local and Washington DC politicians and their oligarch financiers, on other floors of that federal building, corrupt political officials were figuring out how to harm the victims and engage in reprisals.

From FBI-class federal investigators and private investigators, records prove that well known California Senate officials and well known White House officials ordered government benefits to be blocked, delayed, obfuscated, denied and otherwise harmed as political reprisal and retribution for the assistance the victims supplied to law enforcement.

Criminal forensic data has proven that digital manipulation of some of victims records and files did occur and that SSA computers are regularly hacked by many parties including the China 'Cloud Hopper' APT 10 group, currently under federal indictment, and hundreds of domestic attack groups, some of whom are hired by U.S. Senators. A number of California and Washington DC Senators and agency heads have already been arrested, indicted and/or removed from office in these matters.

Over 40 of the victims peers in this matter (Rajeev Motwani, Gary D. Conley, Seth Rich, Dr. Epstein's wife, etc.) are now dead from mysterious circumstances. Victims have received

numerous death threats and have been personally attacked on multiple occasions including getting their cars rammed and drive-by death threats.

Some of those victims may have been murdered for whistle-blowing. Multiple senior government officials and Senators have been exposed hiring Google, YouTube, Fusion GPS, In-Q-Tel, PsyOps, Cambridge Analytica, ShareBlue, Media Matters, Black Cube, Gizmodo and other "kill services" to attack citizens in political reprisals.

[Justice Department Requires Six High Tech Companies to ...](#)

One of the complaints arose out of a larger investigation by the Antitrust Division into employment practices by **high tech** firms. The division continues to investigate other similar **no** solicitation agreements. Adobe Systems Inc. is a Delaware corporation with its principal place of business in San Jose, Calif., and 2009 revenues of nearly \$3 billion.

Cold calling is one of the main methods used by companies in the high-technology sector to recruit employees with advanced and specialised skills, such as software and hardware engineers, programmers, animators, digital artists, Web developers and other technical professionals.^[1] Cold calling involves communicating directly in any manner with another firm's employee who has not otherwise applied for a job opening. Cold calling may be done in person, by phone, letter, or email.^[2] According to the legal brief filed by a plaintiff in one of the class-action cases, cold calling is an effective method of recruiting for the high-technology sector because "employees of other [high-technology] companies are often unresponsive to other recruiting strategies... [and] current satisfied employees tend to be more qualified, harder working, and more stable than those who are actively looking for employment."^[3]

Amy Lambert, Google's associate general counsel, noted in a blog post shortly after the DOJ's actions, that Google's definition of cold calling does not necessarily eliminate recruiting by letter or email, but only the process of calling on the telephone. By implication, recruiting through LinkedIn incurs recruiting by "InMail" - LinkedIn's own mail contact system: "In order to maintain a good working relationship with these companies, in 2005 we decided not to "cold call" employees at a few of our partner companies. Our policy only impacted cold calling, and we continued to recruit from these companies through LinkedIn, job fairs, employee referrals, or when candidates approached Google directly. In fact, we hired hundreds of employees from the companies involved during this time period."

The challenged "no cold call" agreements are alleged bilateral agreements between high technology companies not to cold call each other's employees. The DOJ alleges that senior executives at each company negotiated to have their employees added to 'no call' lists maintained by human resources personnel or in company hiring manuals. The alleged agreements were not limited by geography, job function, product group, or time period. The alleged bilateral agreements were between: (1) Apple and Google, (2) Apple and Adobe, (3) Apple and Pixar, (4) Google and Intel, (5) Google and Intuit,^[4] and (6) Lucasfilm and Pixar.^[5]

The civil class action further alleges that agreements also existed to (1) "provide notification when making an offer to another [company]'s employee (without the knowledge or consent of the employee)" and (2) "agreements that, when offering a position to another company's employee, neither company would counteroffer above the initial offer."^[3]

Department of Justice antitrust action

The [United States Department of Justice Antitrust Division](#) filed a complaint in the [US District Court for the District of Columbia](#) alleging violations of Section 1 of the [Sherman Act](#). In *US v. Adobe Systems Inc., et al.*, the Department of Justice alleged that Adobe, Apple, Google, Intel, Intuit, and Pixar had violated Section 1 of the Sherman Act by entering into a series of bilateral "No Cold Call" Agreements to prevent the recruitment of their employees (a similar but separate suit was filed against Lucasfilm on December 21, 2010^[6]). The DOJ alleged in their Complaint that the companies had reached "facially anticompetitive" agreements that "eliminated a significant form of competition...to the detriment of the affected employees who were likely deprived of competitively important information and access to better job opportunities." The DOJ also alleged that the agreements "were not ancillary to any legitimate collaboration," "were much broader than reasonably necessary for the formation or implementation of any collaborative effort," and "disrupted the normal price-setting mechanisms that apply in the labor setting."^[4] The same day it filed the suit, the DOJ and the defendants proposed a settlement.^[7]

A final judgment enforcing the settlement was entered by the court on March 17, 2011.^[8] Although the DOJ Complaint only challenged the alleged "no cold call" agreements, in the settlement, the companies agreed to a more broad prohibition against "attempting to enter into, entering into, maintaining or enforcing any agreement with any other person to in any way refrain from, requesting that any person in any way refrain from, or pressuring any person in any way to refrain from soliciting, cold calling, recruiting, or otherwise competing for employees of the other person", for a period of five years; the court can grant an extension.^[8] The settlement agreement does not provide any compensation for company employees affected by the alleged agreements.^[9] Lucasfilm entered into a similar settlement agreement in December 2010.^[5]

Civil class action

In re: High-Tech Employee Antitrust Litigation (U.S. District Court, Northern District of California 11-cv-2509 [10]) is a [class-action](#) lawsuit on behalf of over 64,000 employees of [Adobe](#), [Apple Inc.](#), [Google](#), [Intel](#), [Intuit](#), [Pixar](#) and [Lucasfilm](#) (the last two are subsidiaries of [Disney](#)) against their employer alleging that their wages were repressed due to alleged agreements between their employers not to hire employees from their competitors. [11][12] The case was filed on May 4, 2011 by a former software engineer at Lucasfilm and alleges violations of California's antitrust statute, Business and Professions Code sections 16720 et seq. (the "Cartwright Act"); Business and Professions Code section 16600; and California's unfair competition law, Business and Professions Code sections 17200, et seq. Focusing on the network of connections around former Apple CEO [Steve Jobs](#), the Complaint alleges "an interconnected web of express agreements, each with the active involvement and participation of a company under the control of Steve Jobs...and/or a company that shared at least one member of [Apple's board of directors](#)." The alleged intent of this conspiracy was "to reduce employee compensation and mobility through eliminating competition for skilled labor." [13]

On October 24, 2013 the [United States District Court for the Northern District of California](#) granted class certification for all employees of Defendant companies from January 1, 2005 through January 1, 2010. [9]

As of October 31, 2013, Intuit, Pixar and Lucasfilm have reached a tentative settlement agreement. Pixar and Lucasfilm agreed to pay \$9 million in damages, and Intuit agreed to pay \$11 million in damages. [9] In May 2014, Judge [Lucy Koh](#) approved the \$20 million settlement between Lucasfilm, Pixar, and Intuit and their employees. Class members in this settlement, which involved fewer than 8% of the 65,000 employees affected, will receive around \$3,840 each. [14]

The trial of the class action for the remaining Defendant companies was scheduled to begin on May 27, 2014. The plaintiffs intended to ask the jury for \$3 billion in compensation, a number which could in turn have tripled to \$9 billion under antitrust law. [15] However, in late April 2014, the four remaining defendants, [Apple Inc.](#), [Google](#), [Intel](#) and [Adobe Systems](#), agreed to settle out of court. Any settlement must be approved by Judge [Lucy Koh](#). [16][17]

On May 23, 2014, Apple, Google, Intel, Adobe agreed to settle for \$324.5 million. Lawyers sought 25% in attorneys' fees, plus expenses of as much as \$1.2 million, according to the filing. Additional award payments of \$80,000 would be sought for each named plaintiff who served as a class representative. [18] Payouts will average a few thousand dollars based on the salary of the employee at the time of the complaint.

In June 2014, Judge Lucy Koh expressed concern that the settlement may not be a good one for the plaintiffs. Michael Devine, one of the plaintiffs, said the settlement is unjust. In a letter he wrote to the judge he said the settlement represents only one-tenth of the \$3 billion in compensation the 64,000 workers could have made if the defendants had not colluded. [19]

On August 8, 2014, Judge Koh rejected the settlement as insufficient on the basis of the evidence and exposure. Rejecting a settlement is unusual in such cases. This left the defendants with a choice between raising their settlement offer or facing a trial. [20]

On September 8, 2014, Judge Koh set April 9, 2015 as the actual trial date for the remaining defendants, with a pre-trial conference scheduled for December 19, 2014. Also, as of early September 2014, the defendants had re-entered mediation to determine whether a new settlement could be reached. [21]

A final approval hearing was held on July 9, 2015. [22] On Wednesday September 2, 2015, Judge Lucy H. Koh signed an order granting Motion for Final Approval of Class Action Settlement. The settlement website stated that Adobe, Apple, Google, and Intel has reached a settlement of \$415 million and other companies settled for \$20 million.

According to the settlement website, Gilardi & Co., LLC distributed the settlement to class members the week of December 21, 2015.

The Techtopus: How Silicon Valley's most celebrated CEOs conspired to drive down 100,000 tech engineers' wages

[By Mark Ames](#)

In early 2005, as demand for Silicon Valley engineers began [booming](#), Apple's Steve Jobs sealed a secret and illegal pact with Google's Eric Schmidt to artificially push their workers wages lower by agreeing not to recruit each other's employees, sharing wage scale information, and punishing violators. On February 27, 2005, Bill Campbell, a member of Apple's board of directors and [senior advisor](#) to Google, emailed Jobs to confirm that Eric Schmidt "got directly involved and firmly stopped all efforts to recruit anyone from Apple."

Later that year, Schmidt instructed his Sr VP for Business Operation Shona Brown to keep the pact a secret and only share information "verbally, since I don't want to create a paper trail over which we can be sued later?"

These secret conversations and agreements between some of the biggest names in Silicon Valley were first exposed in a Department of Justice antitrust [investigation](#) launched by the Obama Administration in 2010. That DOJ suit became the basis of a [class action lawsuit](#) filed on behalf of over 100,000 tech employees whose wages were artificially lowered — an [estimated \\$9 billion](#) effectively stolen by the high-flying companies from their workers to pad company earnings — in the second half of the 2000s. Last week, the 9th Circuit Court of Appeals denied attempts by Apple, Google, Intel, and Adobe to have the lawsuit tossed, and gave final approval for the class action suit to go forward. A jury trial date has been set for May 27 in San Jose, before US District Court judge Lucy Koh, who presided over the Samsung-Apple patent suit.

In a related but separate investigation and ongoing suit, eBay and its former CEO Meg Whitman, now CEO of HP, are being sued by both the [federal government](#) and the [state of California](#) for arranging a similar, secret wage-theft agreement with Intuit (and possibly Google as well) during the same period.

The secret wage-theft agreements between Apple, Google, Intel, Adobe, Intuit, and Pixar (now owned by Disney) are described in court papers obtained by PandoDaily as "an overarching conspiracy" in violation of the Sherman Antitrust Act and the Clayton Antitrust Act, and at times it reads like something lifted straight out of the robber baron era that produced those laws. Today's inequality crisis is America's [worst on record](#) since statistics were first recorded a hundred years ago — the only comparison would be to the era of the railroad tycoons in the late 19th century.

Shortly after sealing the pact with Google, Jobs strong-armed Adobe into joining after he complained to CEO Bruce Chizen that Adobe was recruiting Apple's employees. Chizen sheepishly responded that he thought only a small class of employees were off-limits:

I thought we agreed not to recruit any senior level employees.... I would propose we keep it that way. Open to discuss. It would be good to agree.

Jobs responded by threatening war:

OK, I'll tell our recruiters they are free to approach any Adobe employee who is not a Sr. Director or VP. Am I understanding your position correctly?

Adobe's Chizen immediately backed down:

I'd rather agree NOT to actively solicit any employee from either company....If you are in agreement, I will let my folks know.

The next day, Chizen let his folks — Adobe's VP of Human Resources — know that "we are not to solicit ANY Apple employees, and visa versa." Chizen was worried that if he didn't agree, Jobs would make Adobe pay:

if I tell Steve [Jobs] it's open season (other than senior managers), he will deliberately poach Adobe just to prove a point. Knowing Steve, he will go after some of our top Mac talent...and he will do it in a way in which they will be enticed to come (extraordinary packages and Steve wooing).

Indeed Jobs even threatened war against Google early 2005 before their "gentlemen's agreement," telling Sergey Brin to back off recruiting Apple's Safari team:

if you [Brin] hire a single one of these people that means war.

Brin immediately advised Google's Executive Management Team to halt all recruiting of Apple employees until an agreement was discussed.

In the geopolitics of [Silicon Valley tech power](#), Adobe was no match for a corporate superpower like Apple. Inequality of the sort we're experiencing today affects everyone in ways we haven't even thought of — whether it's Jobs bullying slightly lesser executives into joining an illegal wage-theft pact, or the tens of thousands of workers whose wages were artificially lowered, transferred into higher corporate earnings, and [higher compensations](#) for those already richest and most powerful to begin with.

Over the next two years, as the tech industry entered another frothing bubble, the secret wage-theft pact which began with Apple, Google and Pixar expanded to include Intuit and Intel. The secret agreements were based on relationships, and those relationships were forged in Silicon Valley's [incestuous boards of directors](#), which in the past has been recognized mostly as a problem for shareholders and corporate governance advocates, rather than for the tens of thousands of employees whose wages and lives are viscerally affected by their clubby backroom deals. Intel CEO Paul Otellini [joined](#) Google's board of directors in 2004, a part-time gig that netted Otellini [\\$23 million in 2007](#), with tens of millions more in Google stock options still in his name — which worked out to \$464,000 per Google board event if you only counted the stock options Otellini cashed out — dwarfing what Otellini made off his Intel stock options, despite spending most of his career with the company.

Meanwhile, Eric Schmidt served on Apple's board of directors until 2009, when a [DoJ antitrust investigation](#) pushed him to resign. Intuit's chairman at the time, Bill Campbell, also served on Apple's board of directors, and as official advisor — "[consigliere](#)" — to Google chief Eric Schmidt, until he [resigned](#) from Google in 2010. Campbell, a celebrated figure ("a quasi-religious force for good in Silicon Valley") played a key behind-the-scenes role connecting the various CEOs into the wage-theft pact. Steve Jobs, who took regular Sunday walks with Campbell near their Palo Alto homes, valued Campbell for his ability "to get A and B work out of people," gushing that the conduit at the center of the \$9 billion wage theft suit, ["loves people, and he loves growing people."](#)

Indeed. Eric Schmidt has been, if anything, even more profuse in his praise of Campbell. Schmidt credits Campbell for structuring Google when Schmidt was brought on board in 2001:

His contribution to Google — it is literally not possible to overstate. He essentially architected the organizational structure.

Court documents show it was Campbell who first brought together Jobs and Schmidt to form the core of the Silicon Valley wage-theft pact. And Campbell's name appears as the early conduit bringing Intel into the pact with Google:

Bill Campbell (Chairman of Intuit Board of Directors, Co-Lead Director of Apple, and advisor to Google) was also involved in the Google-Intel agreement, as reflected in an email exchange from 2006 in which Bill Campbell agreed with Jonathan Rosenberg (Google Advisor to the Office of CEO and former Senior Vice President of Product Management) that Google should call [Intel CEO] Paul Otellini before making an offer to an Intel employee, regardless of whether the Intel employee first approached Google.

Getting Google on board with the wage-theft pact was the key for Apple from the start — [articles](#) in the tech press in 2005 pointed at Google's recruitment drive and incentives were the key reason why tech wages soared that year, at the highest rate in well over a decade.

Campbell helped bring in Google, Intel, and, in 2006, Campbell saw to it that Intuit — the company he [chaired](#) — also joined the pact.

From the peaks of Silicon Valley, Campbell's interpersonal skills were [magical](#) and awe-inspiring, a crucial factor in creating so much unimaginable wealth for their companies and themselves. Jobs [said](#) of Campbell:

There is something deeply human about him.

And Schmidt [swoned](#):

He is my closest confidant...because he is the definition of trust.

Things — and people — look very different when you're down in the Valley. In the nearly 100-page court opinion issued last October by Judge Koh granting class status to the lawsuit, Campbell comes off as anything but mystical and "deeply human." He comes off as a scheming consigliere carrying out some of the drearier tasks that the oligarchs he served were constitutionally not so capable of arranging without him.

But the realities of inequality and capitalism invariably lead to mysticism of this sort, a natural human response to the dreary realities of concentrating so much wealth and power in the hands of a dozen interlocking board members at the expense of 100,000 employees, and so many other negative knock-off effects on the politics and culture of the world they dominate.

One of the more telling elements to this lawsuit is the role played by "Star Wars" creator George Lucas, who emerges as the Obi-Wan Kenobi of the wage-theft scheme. It's almost too perfectly symbolic that Lucas — the symbiosis of Baby Boomer New Age mysticism, Left Coast power, political infantilism, and dreary 19th century labor exploitation — should be responsible for dreaming up the wage theft scheme back in the mid-1980s, when Lucas sold the computer animation division of Lucasfilm, Pixar, to Steve Jobs.

As Pixar went independent in 1986, Lucas explained his philosophy about how competition for computer engineers violated his sense of normalcy — and profit margins. According to court documents:

George Lucas believed that companies should not compete against each other for employees, because "[i]t's not normal industrial competitive situation.' As George Lucas explained, 'I always — the rule we had, or the rule that I put down for everybody,' was that 'we cannot get into a bidding war with other companies because we don't have the margins for that sort of thing.'

Translated, Lucas' wage-reduction agreement meant that Lucasfilm and Pixar agreed to a) never cold call each other's employees; b) notify each other if making an offer to an employee of the other company, even if that employee applied for the job on his or her own without being recruited; c) any offer made would be "final" so as to avoid a costly bidding war that would drive up not just the employee's salary, but also drive up the pay scale of every other employee in the firm.

Jobs held to this agreement, and used it as the basis two decades later to suppress employee costs just as fierce competition was driving up tech engineers' wages.

The companies argued that the non-recruitment agreements had nothing to do with driving down wages. But the court ruled that there was "extensive documentary evidence" that the pacts were designed specifically to push down wages, and that they succeeded in doing so. The evidence includes software tools used by the companies to keep tabs on pay scales to ensure that within job "families" or titles, pay remained equitable within a margin of variation, and that as competition and recruitment boiled over in 2005, emails between executives and human resources departments complained about the pressure on wages caused by recruiters cold calling their employees, and bidding wars for key engineers.

Google, like the others, used a "salary algorithm" to ensure salaries remained within a tight band across like jobs. Although tech companies like to claim that talent and hard work are rewarded, in private, Google's "People Ops" department kept overall compensation essentially equitable by making sure that lower-paid employees who performed well got higher salary increases than higher-paid employees who also performed well.

As Intel's director of Compensation and Benefits bluntly summed up the Silicon Valley culture's official cant versus its actual practices,

While we pay lip service to meritocracy, we really believe more in treating everyone the same within broad bands.

The companies in the pact shared their salary data with each other in order to coordinate and keep down wages — something unimaginable had the firms not agreed to not compete for each other's employees. And they fired their own recruiters on just a phone call from a pact member CEO.

In 2007, when Jobs learned that Google tried recruiting one of Apple's employees, he forwarded the message to Eric Schmidt with a personal comment attached: "I would be very pleased if your recruiting department would stop doing this."

Within an hour, Google made a "public example" by "terminating" the recruiter in such a manner as to "(hopefully) prevent future occurrences."

Likewise, when Intel CEO Paul Otellini heard that Google was recruiting their tech staff, he sent a message to Eric Schmidt: "Eric, can you pls help here???"

The next day, Schmidt wrote back to Otellini: "If we find that a recruiter called into Intel, we will terminate the recruiter."

One of the reasons why non-recruitment works so well in artificially lowering workers' wages is that it deprives employees of information about the job market, particularly one as competitive and overheating as Silicon Valley's in the mid-2000s. As the companies' own internal documents and statements showed, they generally considered cold-calling recruitment of "passive" talent — workers not necessarily looking for a job until enticed by a recruiter — to be the most important means of hiring the best employees.

Just before joining the wage-theft pact with Apple, Google's human resources executives are quoted sounding the alarm that they needed to "dramatically increase the engineering hiring rate" and that would require "drain[ing] competitors to accomplish this rate of hiring." One CEO who noticed Google's hiring spree was eBay CEO Meg Whitman, who in early 2005 called Eric Schmidt to complain, "Google is the talk of the Valley because [you] are driving up salaries across the board." Around this time, eBay entered an illegal wage-theft non-solicitation scheme of its own with Bill Campbell's Intuit, which is still being tried in ongoing federal and California state suits.

Google placed the highest premium on "passive" talent that they cold-called because "passively sourced candidates offer[ed] the highest yield," according to court documents. The reason is like the old Groucho Marx joke about not wanting to belong to a club that would let you join it — workers actively seeking a new employer were assumed to have something wrong with them; workers who weren't looking were assumed to be the kind of good happy talented workers that company poachers would want on their team.

For all of the high-minded talk of post-industrial technotopia and Silicon Valley as worker's paradise, what we see here in stark ugly detail is how the same old world scams and rules are still operative.

THE INVESTIGATIONS OF THE CORRUPTION AT GOOGLE:

From INSIDE Google, our team saw Google manipulate the entire internet to hype up Larry Page's "boyfriend": Elon Musk and Tesla, which Google execs owned a portion of, while sabotaging Tesla's competitors. Google illicitly and illegally timed these manipulations with stock market pump-and-dump efforts to exploit insider trading. That is a felony violation of RICO, Antitrust and other laws. Every single thing that Google does is contrived to harm a competitor, a politician, an employee whistle-blower or some other business adversary. There are no "bugs", "operator errors", "server anomalies" or other media "accidents" at Google. Everything Google does is contrived, at a psychological warfare kind of level, to change a social perception.

Google must show its software to FBI, SEC, FTC and our search engine optimisation experts to prove that they did not engage in these crimes. The fact is: We can prove they did the crimes and FBI experts can help us prove it!

In a similar case unfolding in Britain over whether Google wrongly demoted price comparison rival Foundem from its search results in favour of paid-for adverts, Google must now decide which it values more: the algorithms that rank its search results, or its stance that manually fiddling with those results to promote its own paid-for products over rivals' sites doesn't break competition laws.

High Court judge Mr Justice Roth [posed the stark question](#) to Google's lawyers in mid-March, just as the global coronavirus situation began triggering governmental responses in the West.

Foundem had asked for legal permission to bring in independent expert Philipp Klöckner to read confidential documents disclosed by Google in court.

Those documents were court exhibits filed by Google engineers Cody Kwok and Michael Pohl. They sought, as the judge put it, "to explain the operation and aims of Google's ranking algorithms, and how they have been applied to shopping comparison sites generally and Foundem in particular".

Foundem has been pursuing Google since 2006, when [a flip of the switch at Mountain View](#) caused the price-comparison site to vanish down Google's search rankings. Foundem argues that Google's demotion of it was a deliberate act to penalise a commercial rival and an abuse of Google's dominant market position.

Google denies this and is defending a High Court claim from Foundem as well as an EU competition investigation triggered by the website. The High Court case is stuck at a very early stage, despite having been filed in 2012, [thanks to the EU investigation](#).

Foundem's lawyers, the company argued in the High Court, wouldn't be able to understand the technical algorithm evidence without having an SEO expert on hand. While not disputing this, Google strongly objected to Klöckner because he is a working SEO consultant: the Chocolate Factory is terrified of the SEO industry getting a proper glimpse under the bonnet and seeing how the search engine really operates. It told Mr Justice Roth:

The integrity of Google's ranking processes relies upon all webmasters or website owners having the same degree of access to information about Google's ranking... This will no longer be the case if information of this kind is made available to some individuals offering commercial services to assist companies to improve their Search ranking.

It also claimed Klöckner was potentially biased against it because he had done work for Trivago and Visual Meta, two firms that previously complained to the EU Commission about Google's anti-competitive practices.

Foundem suggested Google could simply withdraw the evidence so nobody would need to read it, while Google dug in and insisted the evidence was vital to help prove its case that nothing bad was done here. Thus Mr Justice Roth gave the adtech monolith a choice. Either it could withdraw the evidence as Foundem suggested, or it could agree to let Klöckner read the algorithm papers. The SEO expert would be given legal permission to enter two so-called confidentiality rings where he could read unredacted copies of the documents and talk to lawyers about them.

"If Google maintains its present course, then for the reasons I have explained I will grant the application that Mr Klöckner be admitted to those two rings until further order," said the judge! We are strongly advocating for full Court review of Google's manipulations in every possible Court.

Google is a criminal operation. Its executives have been publicly exposed as participants in horrific sex scandals, money laundering, political bribery and racism. It is time for the bought and paid shill politicians to stop protecting them!

One of the "Godfather's" of the Silicon Valley Cartel is Eric Schmidt. He is typical of the Cartel bosses that know each other, date each other, party together, use the same lawyers, get involved in the same sex scandals and lawsuits and pay stock bribes to the same politicians..

In July 2016, Raymond Thomas, a four-star general and head of the U.S. Special Operations Command, hosted a guest: Eric Schmidt, the chairman of Google.

General Thomas, who served within the 1991 Gulf War and deployed many times to Afghanistan, spent the higher half of a day showing Mr. Schmidt around Special Operations Command's headquarters in Tampa, Fla. They scrutinized prototypes for a robotic exoskeleton suit and joined operational briefings, which Mr. Schmidt needed to study extra about as a result of he had recently begun advising the military on technology.

After the go-to, as they rode in a Chevy Suburban towards an airport, the conversation turned to a form of artificial intelligence.

"You absolutely suck at machine learning," Mr. Schmidt informed General Thomas, the officer recalled. "If I got under your tent for a day, I could solve most of your problems." General Thomas said he was so offended that he needed to throw Mr. Schmidt out of the car, however refrained.

Four years later, Mr. Schmidt, 65, has channeled his blunt assessment of the military's tech failings into a private campaign to revamp America's defense forces with extra engineers, extra software program and extra A.I. In the method, the tech billionaire, who [left Google last year](#), has reinvented himself because of the prime liaison between Silicon Valley and the national security community.

Mr. Schmidt now sits on two government advisory boards aimed toward bounce beginning technological innovation in the Defense Department. His confidants embrace former Secretary of State Henry Kissinger and ex-Deputy Defense Secretary Robert Work. And by means of his personal enterprise capital agency and a \$13 billion fortune, Mr. Schmidt has invested millions of (dollars) into more than half a dozen defense start-ups.

In an interview, Mr. Schmidt — by turns thoughtful, pedagogical and hubristic — stated he had embarked on an effort to modernize the U.S. military because it was "stuck in software in the 1980s."

He portrayed himself as a successful technologist who didn't consider in retirement and [who owed a debt to the country](#) for his wealth — and who now had time and perception to resolve one of America's hardest issues. The purpose, he stated, "should be to have as many software companies to supply software of many, many different kinds: military, H.R. systems, email systems, things which involve military intelligence, weapons systems and what have you."

Mr. Schmidt is urgent ahead with a Silicon Valley worldview the place advances in software program and A.I. are the keys to determining nearly any situation. While that philosophy has led to [social networks that spread disinformation](#) and different unintended penalties, Mr. Schmidt stated he was convinced that making use of new and comparatively untested technology to complex conditions — together with lethal ones — would make service members extra environment friendly and bolster the United States in its competition with China.

His techno-solutionism is difficult by his ties to Google. Though Mr. Schmidt left the corporate's board final June and has no official working function, he holds \$5.3 billion in shares of Google's parent, Alphabet. He also stays on the payroll as an adviser, incomes a \$1 annual wage, with two assistants stationed at Google's Silicon Valley headquarters.

That has led to allegations that Mr. Schmidt is placing Google's financial pursuits forward of different concerns in his protection work. Late final yr, a federal court ordered a congressional advisory committee he leads to flip over data that would make clear whether or not Mr. Schmidt had advocated his business interests whereas heading the group.

Mr. Schmidt stated he had adopted guidelines to keep away from conflicts. "Everybody is rule-bound at the Pentagon, and we are too," he stated.

Google and the Defense Department declined to touch upon Mr. Schmidt's work.

Even without these issues, shifting the military's path isn't any easy process. While Mr. Schmidt has helped generate reports and recommendations about know-how for the Pentagon, [few have been adopted](#).

"I'm sure he'll be frustrated," stated Representative Mac Thornberry, a Republican of Texas who nominated Mr. Schmidt in 2018 to an advisory committee on A.I. "Unlike the private sector, you can't just snap your fingers and make it happen."

Mr. Schmidt acknowledged that progress was sluggish. "I am bizarrely told by my military friends that they have moved incredibly fast, showing you the difference of time frames between

the world I live in and the world they live in," he stated.

But he stated he had little intention of backing down. "The way to understand the military is that the soldiers spend a great deal of time looking at screens. And human vision is not as good as computer vision," he stated. "It's insane that you have people going to service academies, and we spend an enormous amount of training, training these people, and we put them in essentially monotonous work."

Mr. Schmidt's first brush with the military got here in 1976, whereas he was in graduate college on the University of California, Berkeley. There, he centered on research on distributed computing, funded by cash from Darpa, an analysis arm of the Defense Department.

The work catapulted Mr. Schmidt into his technology profession. After finishing his graduate studies in pc science, he labored at various tech firms for more than twenty years, together with the networking software maker Novell. In 2001, Google appointed him chief govt.

The search engine firm was then in its infancy. Its 20-something founders, Larry Page and Sergey Brin, were contemporary out of a Stanford University doctorate program and had little business expertise. Mr. Schmidt was hired to assist information them, offering "adult supervision," which he did — after which some.

Mr. Schmidt [took Google public in 2004](#) and built it right into a behemoth, diversifying into smartphones, cloud computing and [self-driving cars](#). The success turned him right into an enterprise movie star. In 2009, he served as a tech adviser to the Obama administration.

In 2011, with Google price almost \$400 billion, the corporate introduced Mr. Page was able to resume the C.E.O. reins. Mr. Schmidt turned govt chairman.

In that function, Mr. Schmidt took on new tasks, many of which introduced him to Washington. In 2012, he participated in categorized briefings on cybersecurity with Pentagon officers as half of the Enduring Security Framework program. In 2015, he attended a seminar on the banks of the Potomac River, hosted by then-Defense Secretary Ash Carter, on the use of know-how inside the government.

"It was all interesting to me," Mr. Schmidt stated. "I didn't really know much about it."

He additionally traveled to North Korea, Afghanistan and Libya whereas writing a guide about know-how and diplomacy, and dabbled in politics, lending technical assist to Hillary Clinton within the run-up to her 2016 presidential marketing campaign.

His enterprise capital fund, Innovation Endeavors, was lively too. It invested in start-ups like Planet Labs, which operates satellites and sells the imagery to protection and intelligence companies, and Team8, a cybersecurity firm based by former Israeli intelligence members.

At the 2016 World Economic Forum in Davos, Switzerland, Mr. Carter requested Mr. Schmidt to fulfill. He had a proposal: Could Mr. Schmidt lead the Defense Innovation Board, a civilian advisory group tasked with bringing new technology to the Pentagon?

"We were in one of these dumpy hotels, and there he is with his small entourage walking in, and he basically said to me, 'This is what I want to do. You'd be the perfect person to be chairman,'" Mr. Schmidt said.

Mr. Schmidt said he turned down the function as a result of he was busy and had no military background. But Mr. Carter argued that Mr. Schmidt's tech experience was wanted, because the U.S. military — which had as soon as been a middle of innovation — was falling behind companies like Google and Facebook in software and A.I.

Mr. Schmidt finally agreed. (Mr. Carter didn't reply to requests for remark.)

As head of the Defense Innovation Board, Mr. Schmidt started touring navy bases, plane carriers and plutonium strongholds. The journeys, which took Mr. Schmidt to about 100 bases in locations like Fayetteville, N.C., and Osan, South Korea, have been a definite break from his well-heeled life in Silicon Valley.

"You want to see these things," Mr. Schmidt stated. "I received the nuclear missile tour. Things which are exhausting. I received a tour of [Cheyenne Mountain](#) so I might perceive what their actuality was."

One of the primary journeys was to Tampa to go to General Thomas, who is named Tony, the place Mr. Schmidt saw maps and reside video feeds displayed on huge screens. "Eric's observation was that a huge part of what the military does is it sits and watches," stated Josh Marcuse, the then executive director of the Defense Innovation Board who was on the journey.

The visits made tangible what Mr. Carter had told Mr. Schmidt about how the military was lagging in technology. Mr. Schmidt quickly made ideas to vary that.

Some of his concepts have been impractical. Eric Rosenbach, then the chief of workers to Mr. Carter, recalled Mr. Schmidt as soon as telling him that the Pentagon can be higher off if it employed nobody however engineers for a year.

Others have been helpful. At an Air Force facility in Qatar in 2016, Mr. Schmidt visited officers who scheduled flight paths for the tankers that refueled planes. They used a white board and dry-erase markers to set the schedule, taking eight hours to finish the duty.

Mr. Schmidt stated he recalled considering, "Really? This is how you run the air war?" Afterward, he and others on the Defense Department labored with the tech company Pivotal to ship software to the officers.

On one other journey to a navy base in South Korea in 2017, an intelligence analyst complained to Mr. Schmidt that the software program he used to evaluate surveillance movies from North Korea was clunky.

"Let me guess," Mr. Schmidt said, according to a Defense Department aide who traveled with him. "You don't have the flexibility to change that."

In December 2017, Mr. Schmidt stepped down as Google's chairman however remained on the board. He said he was seeking a brand new chapter.

"If I stayed as chairman, then next year would have been the same as the previous year, and I wanted a change of emphasis," said Mr. Schmidt. "As chairman of Google, what I did is I ran around and gave speeches, and went to Brussels and all the things that Google still does today. It's much better to work on these new things for me."

Google declined to comment on Mr. Schmidt's departure as chairman.

By then, Mr. Schmidt's ties to Google had induced issues in his protection work. In 2016, Roma Laster, a Defense Department worker, filed a complaint on the company elevating considerations about Mr. Schmidt and conflicts of curiosity, Mr. Marcuse stated.

In the complaint, [earlier reported by ProPublica](#), Ms. Laster, who labored with the Defense Innovation Board, said Mr. Schmidt had requested a service member what cloud computing providers their unit used and whether or not they had thought-about options. She stated Mr. Schmidt confronted a battle of interest as a result of he worked for Google, which additionally gives cloud services.

Mr. Marcuse, who now works at Google, said Mr. Schmidt was "scrupulous and diligent" in avoiding conflicts. Mr. Schmidt said he adopted the principles forbidding conflicts of interest. Ms. Laster didn't reply to requests for remark.

Mr. Schmidt quickly received caught up in one other situation between Google and the military. Google had signed a contract in 2017 to assist the Pentagon to construct methods to automatically analyze drone footage to identify particular objects like buildings, vehicles, and people.

Mr. Schmidt was a proponent of the hassle, known as Project Maven. He stated he inspired the Pentagon to pursue it and testified in Congress in regards to the undertaking's deserves, however was not concerned within the company's selection of Google.

But the [effort blew up](#) in 2018 when [Google employees protested](#) and stated they didn't need their work to result in deadly strikes. More than 3,000 staff signed a letter to Mr. Pichai, saying the contract would undermine the general public's belief within the firm.

It was a black eye for Mr. Schmidt. Military officers, who stated Project Maven was not getting used for deadly missions, condemned Google for abandoning the contract. Google staff additionally criticized Mr. Schmidt's ties to the Pentagon.

"He has very different goals and values than the engineers at his company," stated Jack Poulson, a Google worker who protested Mr. Schmidt's military work and who has since left the company.

Mr. Schmidt said he sidestepped discussions about Project Maven as a result of of conflict-of-interest guidelines, however wished he might have weighed in. "I would have certainly had an opinion," he stated.

Last April, Mr. Schmidt [announced](#) he deliberate to go away Google's board. He had helped create an A.I. middle backed by the Pentagon in 2018 and had additionally turn into co-chair of the National Security Commission on Artificial Intelligence, a brand new group advising Congress on developing A.I. for defense.

A month after leaving Google, Mr. Schmidt invested in Rebellion Defense, a software program start-up based by former Defense Department staff that analyzes video gathered through drone. His enterprise agency later put more cash into the company, and Mr. Schmidt joined its board.

The funding led to extra bother. The Electronic Privacy Information Center, a nonprofit privateness and civil liberties group, sued the A.I. commission last September for failing to show over data. EPIC said the group was stacked with industry executives like Mr. Schmidt and others from Microsoft, Amazon and Oracle, who could potentially sway the government in favor of their companies' interests.

Mr. Schmidt was underneath scrutiny as a result of of Rebellion Defense and the way he might push the government to make use of the start-up's services, EPIC said.

"We don't have any public disclosure about what information Eric has provided to the commission about his business interests," said John Davisson, a legal professional at EPIC.

In December, a district court dominated the A.I. fee should disclose the data requested by EPIC. The fee has launched a whole lot of pages of paperwork, most of which don't contain Mr. Schmidt or his companies. EPIC stated extra data are set to be launched.

Chris Lynch, the chief executive of Rebellion Defense, said Mr. Schmidt suggested the company solely on hiring and growth. Mr. Schmidt said he didn't advocate for the Defense Department to purchase technology from the start-up.

He has continued plowing forward. In November, he unveiled a \$1 billion dedication by means of Schmidt Futures, the philanthropic agency that he runs along with his spouse, Wendy, to fund education for those who want to work in public service.

THE LIES, CORRUPTION AND ANTI-TRUST VIOLATING INSIDER TRADING SCAMS AT THE DEPARTMENT OF ENERGY

Any voyage onto the path of funding from the Department of Energy will be a road to hell.

While frozen-smile aides will shake your hand and tell you how "*excited they are to welcome your application*", behind your back they are sharpening their knives.

Over 100 past Applicants were lied to, defrauded, stone-walled, bottom-drawer'd, sabotaged, and generally screwed with by **The Department of Energy** in order to: 1.) protect campaign financiers who were their competitors and 2.) stone-wall those Applicant's for being competitive against the Elon Musk and Solyndra chosen insiders.

Almost EVERY competing Applicant was faster, cheaper, had better MPG, was easier to manufacture, had lower cost to the main-stream market, had a better set of financials, had a better debt ratio, was safer, etc. but they missed one key factor: **THEY DID NOT OFFER BRIBES AS LARGE AS ELON MUSK DID!**

Even in 2020 you would have to be a sucker to apply for DOE funds. There are people inside DOE who are dedicated to making sure you never get that money. You can get a faster loan from a commercial bank without thousands of hidden "gotchas" and insider trading schemes to trip you up. These tricks, built into the Department of Energy process, are created to ensure that DOE insiders have thousands of excuses to never let you get the money unless you agree to finance the correct political candidates.

Title XVII Innovative Energy Technology Loan Guarantee Program

DOE is supposed to support the commercial development of innovative clean energy technologies through its Loan Programs Office (LPO). Authorized by the Energy Policy Act of 2005, the Title XVII Loan Program enables the DOE to issue loans ranging from several million to more than \$1 billion for advanced fossil, advanced nuclear, renewable energy and energy efficiency projects that employ "new or significantly improved technology." And in 2018, LPO announced an open solicitation for energy projects on tribal lands. These solicitations remain open and are supposedly actively seeking qualified applicants as a result of continued congressional support and new programmatic direction but the historical facts prove that this program has been manipulated to operate as a political slush-fund to finance insider favorites and sabotage their competitors.

Under Title XVII program authority, the DOE can guarantee loans for up to 80 percent of total project costs for eligible proposals. As of March 2020, LPO maintains \$25.9 billion in loan guarantee authority across the solicitations mentioned above. LPO has closed only one loan since 2011 – for the Vogtle nuclear power station in Georgia and, more than ever, seems to be simply a sham for insider political campaign financiers to get payola from. Notably, LPO is under increasing pressure from Congress to move more applications through diligence and to loan close.

Advanced Technology Vehicles Manufacturing (ATVM) Program

Under the ATVM Program, automobile manufacturers or advanced vehicle automobile component or material manufacturers are supposed to be eligible to obtain direct loans from the DOE for projects that re-equip, expand or establish manufacturing facilities in the U.S. to produce "ultra-efficient vehicles," passenger automobiles, light duty trucks or associated components that meet the DOE's emission and fuel economy standards for "advanced technology vehicles." Political insiders will always, though, find a way to disqualify any applicant who competes with campaign financier favorites. Hundreds of highly qualified applicants were denied because Elon Musk knew they could put Tesla out of business without DOE's exclusive support of his monopoly. Tesla's own senior staff have written widely about the "gate-keeper" insider trading scam at DOE. DOE is an anti-trust operator who is a gatekeeper of industry winners and losers based on who donated the most to certain PACs.

To date, the DOE has funded five loans under the ATVM program totaling \$8.4 billion, approximately one-third of its \$25 billion loan authority. The ATVM program is not subject to an expiration date, and despite previous congressional efforts to rescind ATVM's corruption-based funding, the program and its remaining \$16.6 billion in loan authority remain available for insider projects that can be trusted to kick campaign financing back to certain politicians. In the most recent DOE funding bill, Congress directed LPO to "expeditiously evaluate and adjudicate all loan applications received" by the ATVM program, another sign that Congress wants to see a resumption of federal loan guarantees.

The Secretary of Energy and the Chief Counsel for the United States Department of Energy have been challenged, in writing, to provide the names of **ANY** Loan Programs Office (LPO) or Advanced Technology Vehicles Manufacturing (ATVM) Program official, reviewer, advisor or staffer who was not, from 2007 forward, either financed by, friends with, sleeping with, dating the staff of, holding stock market assets in, promised a revolving door job or government service contracts from, partying with, personal friends with, photographed at private events with, exchanging emails with, business associates of or directed by; one of those business adversaries, or the Senators and Department of Energy politicians that those business adversaries pay campaign finances to, or supply political digital services to. From 2008 forward, The White House and The Department Of Energy were controlled by the Silicon Valley tech oligarchs! That is a violation of the law, the Constitution and the American Way.

Department of Energy PR officials blindly push their revisionist history propaganda party-line hype that the DOE has been "*fair and successful*". There has never been a bigger lie on Earth since the first frat boy told the first sorority girl "*don't worry, I won't get it in your mouth..*"

One group used CIA and FBI style investigation tools to hunt down every reviewer, contractor and insider involved in the Loan Programs Office (LPO) or Advanced Technology Vehicles Manufacturing (ATVM) Program since 2007. A forensic chart was produced showing the insider trading, revolving door and social engagements of each. In almost 97% of the cases, every person was found to have glaringly unethical, often criminal, conflicts of interest between beneficiary lines of connection.

In fact, multiple groups have insisted that the FBI, the NSA, The CIA and 60 Minutes conduct their own independent studies, on a name, by name basis of the DOE staff involved and publish the results of that study to Congress and the public.

The U.S. Department of Energy has supplied no apologies, no compensation for damages to the victims and no halt in the slush-fund payola schemes!

Do you doubt the veracity of these claims? Show this letter to Bill Cooper, the head lawyer for DOE. Ask him to provide forensic data proving any of these assertions are not true! He can't do it!

We can provide thousands of FBI agents, investigative journalists and Congressional staff to prove these assertions are true.

Dept. of Energy staff claim that they got rid of all of the bad people at DOE and that the evil ones don't work there any more but OPM confirms that to be a lie. The stock market holdings, revolving door deals, voter records and social media postings of the current Dept of Energy staff prove that the corrupt ones never left. Tell DOE to take a look at their moral construct if they contact you!

Jay Carney was Obama's "Hit Man" in the Oval Office at The White House during the Cleantech Crash. It was Carney who helped order character assassinations and hit jobs on members of the public who spoke out about the crimes. Carney was recently caught, again, ordering hit jobs at Amazon, as well. In a famous magazine interview, his home was revealed to be covered in communist propaganda posters.

Leaked notes from an internal meeting of Amazon leadership obtained by VICE News reveal company executives discussed a plan to smear fired warehouse employee Christian Smalls, calling him "not smart or articulate" as part of a PR strategy to make him "the face of the entire union/organizing movement."

"He's not smart, or articulate, and to the extent the press wants to focus on us versus him, we will be in a much stronger PR position than simply explaining for the umpteenth time how we're trying to protect workers," wrote Amazon General Counsel David Zapolsky in notes from the meeting forwarded widely in the company.

The discussion took place at a daily meeting, which included CEO Jeff Bezos, to update each other on the coronavirus situation. Amazon SVP of Global Corporate Affairs Jay Carney [described the purpose to CNN on Sunday](#): "We go over the update on what's happening around the world with our employees and with our customers and our businesses. We also spend a significant amount of time just brainstorming about what else we can do" about COVID-19.

Amazon [fired the warehouse worker Smalls](#), after he led a walkout of a number of employees at a Staten Island distribution warehouse. Amazon says he was fired for violating a company-imposed 14-day quarantine after he came into contact with an employee who tested positive for the coronavirus.

Zapolsky's notes from the meeting detail Amazon's plan to deal with a wave of bad press and calls for investigations from elected officials following the firing of Smalls. They also show top Amazon brass wanted to make Smalls the focus of its narrative when questioned about worker safety.

"We should spend the first part of our response strongly laying out the case for why the organizer's conduct was immoral, unacceptable, and arguably illegal, in detail, and only then follow with our usual talking points about worker safety," Zapolsky wrote. "Make him the most interesting part of the story, and if possible make him the face of the entire union/organizing movement."

They discussed encouraging Amazon executives to use Smalls to discredit the wider labor movement at Amazon. Employees at the warehouse, known as JFK8, [launched an effort to unionize in 2018](#).

In his notes, Zapolsky wrote that there was "general agreement" on this point among the other attendees of the meeting. (Zapolsky's notes also mention SVP of worldwide operations and customer service Dave Clark and SVP of human resources Beth Galetti.) This is the typical culture of the Obama crowd of insider executives who will destroy any citizen who gets in their way. Jay Carney runs a **Massive covert organized corruption team at Amazon in order to manipulate Democracy**.

Massive covert organized corruption teams operate these kinds of manipulation of the truth and of Democracy with the cooperation of U.S. Senators and agencies like The Department of Energy.

Examples of these groups include Pacronym and American Bridge who are part of Arabella Advisors, a consulting firm that is not required to identify its donors.

Pacronym's affiliated groups create a large network of fake local news outlets that are designed to promote progressive viewpoints inside battleground states in order to rig insider trading for their top bosses.

They are all part of a wealthy dark money network that manipulates public policy for personal profiteering.

American Bridge 21st Century and Pacronym are cutting ads thrashing outsiders as super PACs who go after people they don't like, The Washington Post [reported](#). Both groups also have ties to two fake false-front large nonprofit groups — New Venture Fund and Sixteen Thirty Fund — connected to a massive extreme-leaning consulting group.

NVF gave one of Pacronym's nonprofits — ACRONYM — \$250,000 while providing American Bridge \$40,000 in 2018, [according to](#) NVF's 2018 IRS documents. IRS [records](#) also indicated American Bridge pulled in \$200,000 in 2018 from nonprofit Sixteen Thirty Fund, which reportedly spent \$141 million on various extreme-leaning causes during the midterm election year.

Sixteen Thirty Fund and nonprofit NVF are tied into the same sprawling network, according to an analysis by investigators. Arabella Advisors, a philanthropic consulting company based in Washington, D.C., manages four nonprofits, including the [NVF](#), Sixteen Thirty Fund, Hopewell Fund and the Windward Fund.

Sixteen Thirty Fund has not responded to requests for comment, while NVF acknowledged making a grant to ACRONYM in 2018 but noted that it "has nothing to do with the activities at PACRONYM or American Bridge."

Arabella representative Steve Sampson called NVF merely a "client of ours," even though the consulting group shares a Washington, D.C., office with all four groups, according to NVF and Sixteen Thirty Fund's 2018 IRS records. American Bridge has not responded to requests for comment.

Other groups have raised alarms about the network as well.

"Arabella Network is the umbrella, and they have these two funds that flow toward both of these groups. A clearly full-blown extremist arm that is casting itself as a nonprofit is politicizing this event," former Nevada Attorney General Adam Laxalt told the press.

Laxalt is the Outside Counsel to Americans for Public Trust, a group dedicated to uncovering unethical behavior. Americans for Public Trust has [covered](#) the network in the past. [\(RELATED: Billionaire Allegedly Behind A False Flag Operation In Alabama Helped Finance The Group Behind Iowa Caucus Chaos\)](#)

"American lives are more important than scoring cheap political points," he added after suggesting that the group is striking while the iron is hot and making certain they capitalize on a crisis that has so far killed thousands of people.

Laxalt is referring to Pacronym's [announcement](#) on March 17 to plow \$5 million into a digital advertising campaign railing against those they hate. The ads are published through Four is Enough, a Pacronym project.

ACRONYM's founder said the campaign makes sense from a public health and national security perspective.

Democratic operative David Plouffe another Jay Carney-type "hit-man", who managed former President Barack Obama's 2008 White House bid, sits alongside McGowan on ACRONYM's board.

ACRONYM has not responded to the DCNF's repeated requests for comment. [\(RELATED: Tech Firm Behind Iowa Caucus Disaster Also Played Role In Creating A Covert Democratic Propaganda Media Outfit\)](#)

Some academics argued that orchestrating such a campaign skirts ethical rules. Running advertisements thrashing the president during a health crisis looks bad, according to Daniel Kreiss, a professor of political communication at the University of North Carolina at Chapel Hill.

"It's a very fine line between ensuring that the president has the legitimacy to speak authoritatively on what Americans must do in order to be safe, and the very real and legitimate questions to raise regarding how the president has handled this crisis given that he's on the ballot in November," Kreiss [told](#) WaPo in a March 17 report addressing the ad campaign push.

Laxalt, Nevada's former attorney general, expressed a similar position.

"The timing of attacking the president in battleground states is appalling. If they are going to do it, then you name the place. I think that doing it right this second is outrageous," he told the DCNF.

Meanwhile, ACRONYM's McGowan is also creating a constellation of local news websites that act as progressive arms targeting the president and his policies.

McGowan, a digital [producer](#) for Obama for America in 2011 and the [proprietor](#) behind ACRONYM, raised at least \$25 million from wealthy liberals to create a media company called [Courier Newsroom](#) that is designed to deliver information favorable to Democrats. Courier is rolling out newspapers in swing states to counter what its founder believes is right-wing spin on Facebook and across the digital domain.

Along with the Courier Newsroom, McGowan is reportedly creating Virginia Dogwood and Arizona's Copper Courier, among others that are expected to roll out in Michigan, North Carolina, Pennsylvania, Virginia and Wisconsin, all battleground states.

Mind the Gap at Stanford University is an even sneakier covert group from this crowd. Their efforts haven't previously been reported. They recently petitioned some donors for at least

\$100,000 to support its efforts. Backers include people like [Facebook co-founder Dustin Moskovitz](#), former Google CEO Eric Schmidt, San Francisco power broker Ron Conway, and a coterie of major Democratic donors from across Silicon Valley, including fundraiser Amy Rao. What is also unusual is that Mind the Gap is led not by highly experienced political hands, but by academics with no professional backgrounds as fundraisers. The group's leaders are a pair of Stanford law professors: [Barbara Fried](#), who has no apparent campaign experience, and [Paul Brest](#), the former president of the William and Flora Hewlett Foundation. [Graham Gottlieb](#), a Stanford fellow who served in junior roles for former President Barack Obama's 2012 reelection campaign and in his White House, is its executive director.

While dressed in khaki's and acting like they are "saving the trees", the people behind these groups are cold-blooded mercenaries drunk on power, hookers, private jets and a sense of being above-the-law.

ELON MUSK'S COMMAND AND CONTROL OF THE CRIMES AND CORRUPTION VIA HIS TECH CARTEL CONTRACTORS

"Musk buys media hype about himself on ALL of the main stream news sites, has his own troll-farms that type self-promotion glam posts about him on every blog on the web, floods all of the search engines with PR photos of himself and is clinically diagnosed as a 'sociopath' ..."

"...Elon Musk (Along with his Silicon Valley Cartel bromance frat boy buddies Eric Schmidt and Larry Page, et al) is a mobster-class criminal sociopath who hired business assassins to attack us and operated anti-trust and RICO law violating competitor "kill programs". He used his windfall of taxpayer funded cash and Goldman Sachs assisted stock market manipulations and intelligence agency staff and tools from In-Q-Tel and Google to engage in these crimes. We have demanded that the FBI arrest him and that the SEC, FTC and NHTSA prosecute him. We will make certain that his legacy, for the rest of time, reveals the true facts about his crimes and political

manipulations..."

Per his own staff, ex-wives, partners, ex-founders, suppliers, FBI, SEC, Congress and private investigators. These are all statements from court reports, investigations, FBI submissions and Congressional reports. **Each numbered statement is associated with a numbered witness report containing the evidence for the statement. Please pass this report around and post it on Tesla windshields. We demand a hearing, with Musk on-site, on a live Senate televised and webcast investigation hearing in Congress to go over each of these points.**

Nobody On Earth Can Launder And Hide Illicit Cash, Or Bribe Politicians, Like Elon Musk

He's worth an estimated \$39 billion, but has repeatedly said he's poor. He is a scumbag liar and a crook!

In one of a series of wild tweets posted last week, [Elon Musk stated](#) he would be "selling almost all physical possessions" and that he would "own no house." He appears to be actually following through with that promise, as chronicled in a great story [in The Wall Street Journal](#) about Musk's personal finances that you should go read.

According to the *WSJ*, despite being worth an estimated \$39 billion on paper:

...he has to borrow, sometimes a lot, to pay for his lifestyle and business investments without liquidating shares that help him maintain control of the companies he runs. About half his Tesla stock is pledged as collateral for personal loans, an April 28 financial filing shows. Maintaining his equity stake—about 20%, or around \$29 billion at its current valuation—is important for him to keep control over the Silicon Valley auto maker.

Musk also doesn't take a salary at Tesla, but he apparently became eligible for stock options worth more than \$1 billion this week. To get that money, he will need an eye-watering \$592 million to exercise the option, according to the *WSJ*. It's not clear if Musk has the money on hand to exercise that option or if the money raised from the house sales will be used to help pay for the sum. "Mr. Musk said he wasn't selling his possessions because he needs the money," the *WSJ* reported.

The article also lists a few times Musk has said he's cash poor. Here's one example:

Before Tesla went public, Mr. Musk told a judge during a contentious divorce with his first wife that he had run out of cash and had taken on emergency loans from friends to support his family and pay living expenses.

Here's another:

Last year, Mr. Musk's ability to access cash came up again during a defamation lawsuit over comments he made about a man involved in the rescue of a Thai soccer team from a flooded cave in 2018. A lawyer in the case said in a filing that Mr. Musk had described himself as "financially illiquid."

The whole article has a lot of history about Musk, interesting information about his finances backed up by regulatory filings, and numerous quotes from Musk himself, and I sincerely recommend taking 10 minutes [to read it in full](#).

Musk has Goldman Sachs, Welles Fargo and Wilson Sonsini Mobster-Class executive bankers hide his money in a rabbit warren of HUNDREDS of trusts, shell corporations and fake charities from South Dakota, to Switzerland to the Cayman Islands to Russia.

A federal investigation to show the tentacular diagram of scams has been demanded!

FBI, SEC, FTC and citizen forensic investigators are hot on his trail, though!

These are the illicit things that sociopath narcissist Musk has engaged in with the taxpayer cash he mooched from government treasuries:

1. PRIVATE INVESTIGATORS HAVE PRODUCED REPORTS ON THE ELON MUSK AND TESLA MOTORS FRAUD, STOCK RIGGING, BRIBERY AND SAFETY INVESTIGATIONS that Musk's Silicon Valley Sandhill Road venture capitalists cover-up.

13. "It is so easy to hack any Tesla and crash it, break into it or give it bad braking orders that it is criminally negligent to allow Tesla's on the street. Musk has over 1000 click-farm and Russian troll bloggers under his employ via various false-front cover organization contractors.
26. "The drug and murder-for-hire website: Silk Road, was built at drug-enthusiast Musk's company SpaceX by Musk's programmer and Musk hires many people from a group called: In-Q-Tel, who were caught with tons of cocaine on their airplanes in a DEA raid"
27. "His SpaceX is nothing more than a domestic spy satellite company"
28. In-Q-Tel supplies a number of Musk's staff, yet In-Q-Tel has been accused of numerous criminal ventures and abuses of the public.
29. You never hear about these crimes because Musk's buddies in Silicon Valley control 90% of the global media these days and they censor any bad news about Musk in order to protect their Cartel.
30. "Musk's brain chip company tortures monkey's and other small animals in bad science experiments"
31. "His father screwed his daughter and got her pregnant. His father seems to be a pedophile and incest participant"

33. "You can't put out the fires when his batteries explode say fireman because Lithium fires are military class thermo-dynamics"
34. "The fumes from his lithium ion thermal battery vapors give you cancer, lung and brain damage"
35. Psychologists say that Musk is a self promoting, narcissistic, multi-billion dollar, self-aggrandizing PR hype addict.
36. Many of us know these facts from personal interaction with Musk, his companies and his politicians.
37. Everything in these reports can be proven in a jury trial, Congressional hearings or live TV debates but Musk would rather die than face uncontrolled public scrutiny.
38. Musk will do anything to keep this information from getting out, including hiring attack services like his Fusion GPS, Black Cube, Gawker and Gizmodo Kill services.
39. While Musk's dirty deeds sound like a bad Hollywood movie script. It all really happened and there is now massive hard copy evidence to prove it.
40. Elon Musk exists because he bribed DNC politicians including Obama, Clinton and Senators Feinstein, Reid, Boxer, Harris, Spier and Pelosi to give him free taxpayer cash and government resources from the Department of Energy and the California political tax pool.
41. When you follow-the-money and the insider trading, stock ownership and crony payola kick-backs. The payola between Musk, his scummy cronies and the politicians is proven.
42. The Musk empire pays bribes in billions of dollars of Google (Where Musk's boy buddy Larry Page works), Twitter, Facebook, Tesla, Netflix and Sony Pictures stock and stock warrants which is never reported to the FEC

53. The Musk empire pays bribes in "Consulting" contracts from McKinsey Consulting as fronted pay-off gigs
54. The Musk empire pays bribes in Overpriced "Speaking Engagements" which are really just pay-offs conducted for donors
55. The Musk empire pays bribes in Private jet rides and use of Government fuel depots (ie: Google handed out NASA jet fuel to staff)
56. The Musk empire pays bribes in commercial Real Estate
57. The Musk empire pays bribes in Fake mortgages
58. The Musk empire pays bribes in The use of Cayman, Boca Des Tores, Swiss and related money-laundering accounts and The use of HSBC, Wells Fargo, Goldman Sachs and Deutsche Bank money laundering accounts and covert stock accounts
59. The Musk empire pays bribes in Free spam and bulk mailing services owned by Silicon Valley corporations
60. The Musk empire pays bribes in the use of high tech law firms such as Perkins Coie, Wilson Sonsini, MoFo, Covington & Burling, etc. to conduit bribes to officials
61. The U.S. Energy Dept (DOE) has been covering-up organized political crime activities in which government funds are being used as a slush-fund to pay off political campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors via Musk political conduits.
62. Political campaign financiers and government agency staff share stock market holdings with each other under family trusts, shell corporations and layered Goldman Sachs accounts.
63. The basic Musk scam-deal goes like this: *"Obama funds Tesla, Musk conduits campaign funds to Obama, top Obama staff profit off of insider Musk stocks..."*
64. Elon Musk is a criminal, a mobster, an asshole, a balding fake-hair wearing, plastic surgery-addicted, bi-sexual douchebag, woman-abusing, sex addicted, tax evader. We can put this in writing because all of those identifications regarding Musk can be proven in court and are documented in existing lawsuits and news stories.
65. Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Look up this phrase on the top search engines: "child labor electric car batteries".

66. Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-glory look-at-me articles about himself.
67. Musk thinks he is the 'Jesus' of Silicon Valley and he will do anything to make the public think so.
68. Musk is insecure because his father was abusive and his "trophy wife" Mother is overbearing so he developed sociopath-like mental issues.
69. Musk has been professionally diagnosed as a 'psychotic narcissist'.
70. He public stated on an investor call that he uses drugs and alcohol to get through the night. We have the tapes.
71. Musk relies on Google and the DNC Main Stream News (MSN) to hide bad news about him.
72. Fake News manipulator Google is run by Larry Page. Larry is Musk's investor and bromance 'Butt buddy'. They share an apartment.
73. Musk uses massive numbers of shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading.
74. His brother ran Solar City and is now under federal investigation for securities fraud.
75. A huge number of Tesla drivers have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up.
76. Extremist politicians and their controlled news outlets refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes.
77. Investor oligarch's Tim Draper and Steve Jurvetson are so fanatical about not being embarrassed from a Tesla bankruptcy that they will pump the TSLA stock and threaten anybody who might disclose the Musk misdeeds.
78. Peter Thiel, a Musk 'boyfriend' also protects Musk. Musk, and his cronies, use Palantir, Google and related software to scan the entire internet every few minutes for any occurrence of the words: "Musk", "Tesla" or "Tesla Fire". They send trolls and fake bloggers (Many of them Russian) to put pro-Musk comments on the comments section of any blogs or articles discussing those topics and try to flood out the truth about Musk.
79. In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed their by Musk's paid skills.
80. There are no "Tesla Fan Boys". All of the fanatic Tesla comments on the internet are Musk's, Thiel's, Jurvetson's and Draper's fake fanboy trolls. Musk, himself, stays up late at night pretending to be a 'Tesla Fan Boy' on blogs.
81. The 'Silicon Valley Mafia'; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates.
82. Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders.
83. Elon Musk has gone out of his way to hire hundreds of ex-CIA and In-Q-Tel staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates.
84. Musk never founded his companies. He took Tesla away from the founder: Marty, in a hostile take-over!
85. Musk's "Starlink" satellites are domestic spy and political manipulation tools - never get your internet from one. SpaceX is entirely a spy satellite operation.
86. The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla.
87. Musk can't fix a car or build a rocket and has almost no mechanical skills he can't build or work on any of the things he made himself famous for.
88. If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history!
89. Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18+ men who rig stocks and valuation bumps for Musk.
90. Over 1000 witnesses can prove every one of those claims in any live televised Congressional hearing!
91. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies. That is why they criminally help cover-up investigations of Tesla!
92. All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI by those who supplied this information but Musk has yet to be arrested because crooked California politicians, who own his stock, protect him from arrest.
93. Why aren't all of those parties in prison if it is so easy to prove the crime? Think back to recent history: the heads of the Department of Energy, the FBI, The DOJ and the U.S. Attorney General were kicked out of their jobs for corruption. THIS was the corruption they were doing. They all knew about this crime but they were covering it up.
94. Musk took over Tesla Motors in a hostile take-over in order to exploit lithium, cobalt and other mining corruption deals for his business partners.
95. When you take a look at the 'lithium' in Musk's horrifically miss-engineered lithium ion batteries you will uncover horrible crimes engaged in to acquire it.
96. His batteries cause wars in the Congo, Afghanistan and Bolivia from the corrupt mining deals involved with mining lithium and cobalt.
97. Lithium ion batteries are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu.
98. Lithium ion batteries excrete chemicals that mutate fetuses when they burn and destroy your brain, lungs and nervous system when they burn

104. Musk's batteries are based on criminally corrupt mining schemes like URANIUM ONE
105. Musk's batteries have over 61 toxic chemicals in them
106. Musk's batteries come from an industry that spends billions on internet skills and trolls used to nay say all other forms of energy
107. Musk's batteries and are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers.
108. Apple products with lithium ion batteries have been exploding and setting people on fire.
109. Over time the chemical dendrites, or deposits, inside each Musk battery grow worse and increase the chances of explosion as they age -
110. Musk's LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE. This is not a theory. This is a scientific fact. That is why you hear about more and more lithium batteries catching fire and blowing up.

111. Additionally, scientists also speculate that the increasing presence of low energy nuclear background energy and wifi energy in the environment is making lithium ion batteries explode more often lately. This theory is upheld by the increasing number of FAA reports about commercial airline cabins suddenly "filling up with toxic smoke" as some lithium ion battery explodes in someones overhead luggage. As commercial jets go higher they lose the protection of the atmosphere and are subjected to more gamma (and other) radiation from overhead. This makes the already unstable lithium ion batteries on board blow up.
112. "Bad Guys" have figured out how to make them explode remotely in devices by making the device electronics cause the batteries to overload.
113. The dangers of lithium ion batteries are hidden by CNN and Main Stream News (MSN) because pretty much only the DNC people profit from them and the DNC folks control CNN and the MSN.
114. The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging
115. United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT & NHTSA from outlawing them.
116. Tom Steyer is a notorious DNC financier. His partner, Margaret Sullivan ran, the federal USAID agency, USAID sent all of the DNC campaign financiers in Silicon Valley a federal 'report' from USAID that said there was "A TRILLION DOLLARS OF LITHIUM IN AFGHANISTAN" and promised to give those lithium mines, EXCLUSIVELY, to the Silicon Valley venture capitalists if they funded and web search manipulated the election for Obama to take over the White House. We have the documents proving this. In other words, a re-up of the Afghan War was caused by Elon Musk and it killed American soldiers so that Musk could buy more mansions and trophy wives.
117. Alkaline, NiCAD and hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownerships.
118. Tesla Motors has caused far more deaths and injuries than the world generally knows about.
119. A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him.
120. In Florida two kids died in a Tesla, burned alive, screaming in agony.
121. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire.
122. A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla.
123. There are many more deaths and crashes than you have seen in the Main Stream News (MSN) The deaths and the cover-ups are endless.
124. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public. They, and their crony's, spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers.
125. Lithium ion EVs are more prone to battery fires. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out.
126. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames.
127. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk.
128. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers.
129. The DNC bosses, Congress people and federal executives own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC.
130. The DNC bosses and Musk use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals. The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives. They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington & Burling and a host of "media assassins".
131. Musk's "cabin boy": Jared Birchell, runs around covering up Musk crimes all day
132. Gawker and Gizmodo Media set-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose! Google and Musk are partners-in-crime.
133. Larry Page steals technology for Google and Musk meets with Larry Page to advise him on which technologies to steal and how to bypass FEC laws.
134. Musk has exceeded FEC campaign finance limits by billions of dollars via "in-kind" services.

147. Reports at <http://www.videonet111.com> prove some of these assertions
148. MUSK'S SPACEX COMPANY Will have all of it's satellites destroyed in moments as soon as China gets pissed off: <https://www.japantimes.co.jp/news/2019/02/12/asia-pacific/chinas-space-debris-cleanup-may-cover-story-arms-u-s-satellites-pentagon/>
149. WE HAVE ASKED THE FBI, DOJ, OSC, SEC, FTC, GAO, U.S. CONGRESS, AND OTHERS, TO INVESTIGATE AND PROSECUTE MUSK AND HIS CRONY OPERATION!
150. ELON MUSK'S PAID-FOR MEDIA SHILLS COVER UP HIS CORRUPTION AND PUSH PUFF-STORIES ABOUT MUSK. NEVER TRUST THEM TO BE ANYTHING BUT BIASED PROPAGANDA OUTLETS. MANY OF THEM OWN TESLA STOCK: Electrek, Google, Facebook, CNN, Huffington Post, Dianne Feinstein's PR office, Nancy Pelosi, Steven Chu, MSNBC, PayPal, KPIX-TV, San Jose Mercury News, Any Hearst owned entity, The SF Chronicle, Motley Fool, Green Car Congress, The executive staff of the DNC, The NY Times,

etc.

151. We saw Elon Musk commit crimes and we saw the Obama White House cover-up those crimes. We, and our associates, worked for Bright Automotive, Zap Electric, Apera, Eco Motors, XPV, The United States Department of Energy and the federal Office of Management and Budget and Tesla Motors itself. Americans have an expectation that their tax dollars will be used in a fair and legal manner and not to pay off crony campaign financiers like Elon Musk.
152. Americans have an expectation that fair market competition will decide which companies get to live or die and that no campaign financiers gets to order the White House to produce the death or success decision about any American business. Elon Musk's operation exists entirely because of criminal corruption and all of his companies must be shut down by federal law enforcement.
153. For nearly a decade, the U.S. Department of Energy has refused to comply with Freedom of Information Act (FOIA) requests for copies of Tesla Motors entire D.O.E. funding application documents. Former D.O.E. employees have shredded copies of those documents in order to keep them from being exposed to the public and the media. Why would they do that? Because those documents reveal felony criminal fraud by Tesla Motors, federal violations of the Section 136 law requirements and manipulations of the "hard-wiring" of the entire D.O.E. program. Those documents, which we have seen (and some Senate staff have private copies of) prove that, in a side-by-side comparison with all other applicants, the Tesla application was manipulation, rigged, false-reviewed and crony-advanced in order to pay-off certain campaign financiers and damage their competitors.
154. Demand that the U.S. Department of Energy stop breaking the law and comply with the FOIA requests to stop hiding the incriminating evidence in the Tesla files. Demand that the public be shown the original paper and not the later, "doctored" versions.
155. We saw Elon Musk operate an entirely illegal and unethical program based on State and Federal corruption. We told this, in writing and in person to the U.S. Attorney General: Eric Holder, who then quit his job after we reported these facts to him.
156. We reported that Elon Musk lied about vast number of dangers of the lithium ion chemistry he was using. Nothing was done.
157. We reported that our associates at the Department of Energy were having their safety reports on lithium ion danger suppressed. Nothing was done.
158. We reported that Elon Musk's credit rating and financial records were fraudulent and amounted to "cooking the books". Nothing was done.
159. We reported bribes paid by Musk's lobbyists and associated to government officials in order to grease the skids for his crony payola. Nothing was done.
160. We reported that Goldman Sachs and Tesla Motors were operating a stock fraud pump-and-dump scam to manipulate Elon Musk's stock holdings. Nothing was done.
161. We reported over a hundred illegal and corrupt actions by Elon Musk and his mob of Silicon Valley gangsters. Nothing was done.
162. If you have an ounce of morality, then you will not want to help Musk & Tesla profit from the crony political corruption that created them. Musk exists because he bribes politicians & acts as an illegal campaign financing conduit.
163. DOT/NHTSA has covered up years of reports about an acceleration surge issue that can suddenly crash your Tesla into walls and drive it off cliffs. It is either a known hacking attack or the effect of WiFi on Tesla electronics. Either can kill you.
164. Musk & Tesla are pure evil & exist because of hyper-corruption. You don't want to contribute to their evil or be part of it in any way. You are funding evil & supporting criminal corruption by buying a Tesla or any Elon Musk owned product like Solar City, Tesla, Space X, Hyperloop, etc.!
165. Elon Musk spent more money, than any other car company in history, to do the exact same things that any other car has done, or could do, for 20 times less money. Musk's Tesla was \$100,000.00 over budget, per car, at the time that Musk was handed his crony Dept. of Energy funds by Steven Chu. Musk has no clue how to operate a car company.
166. In one lawsuit it is noted that: "...Plaintiff and Tesla both applied for funds at the same time, in the same funding cycle in the same program. Tesla had the historically epic number of horrific issues listed below, which were known to DOE at the time of application, and Plaintiffs had NONE of these issues. How can any court, or rational person, believe that Plaintiffs were not intentionally bypassed, targeted and damaged for political reasons while Tesla was simultaneously approved for political reasons, when the comparative metrics between the two applicants prove the largest merit disparity in the entire recorded history of the U.S. Department of Energy... the singular, and only, review criteria used by Department of Energy officials was: WHICH ONE BRIBED THE CAMPAIGN FINANCE GROUP FOR BARACK OBAMA?!"; Thus proving that Tesla exists because of organized-crime level political corruption.
167. Elon Musk's self-driving "autopilot" feature, which keeps crashing and failing, is his attempt to scam taxpayer cash from Dept. of Transportation and Dept. of Energy public funds. He is only trying to do it to get more free federal cash.
168. The inventor of lithium ion batteries has confessed that lithium ion batteries blow up eventually. He says that deadly dendrites plague lithium-ion battery technology. The dendrites accumulate as part of the standard charging and recharging cycle and eventually cause a short circuit that often results in a smoldering or burning battery. These dendrites are destined to eventually blow up most Tesla cars and many electronic devices using lithium ion!
169. The CIA's software designed to take over any Tesla on Earth and kill the driver, passengers and bystanders has been released in the wild and every hacker on Earth can now easily get a copy of it and kill you in your Tesla!
170. Ex-employees have leaked faked financial records, evidence of massive click-farm fake social media manipulation and evidence of unreported deaths and accidents. They say that most Tesla's have one kind of defect or another.
171. If you read about the dirty deeds and cocaine dealings with the In-Q-Tel airplanes called "Cocaine 1" & "Cocaine 2", & the corruption behind the company called In-Q-Tel & Musk's software programmer who ran "The Silk Road" drug & murder service then you must be concerned that many In-Q-Tel people work for Musk. Why does Musk need dirty druggies & spies on his payroll unless he is running covert drug and business spying activities?
172. Ex-employees, Gawker writers and gay lawyers from Covington & Burling have leaked stories that Elon Musk, Reid Hoffman, Larry Page are "butt buddies".
173. Musk is anti-American and Anti-Worker Rights and has been caught flying in H1-B cheap offshore labor and exploiting immigrants for his deadly profits. Musk hates unions and worker rights efforts.
174. Elon Musk gets the Cobalt chemical to make his lithium ion batteries from slave trade and blood-money corruption in the Congo!
175. The lithium ion batteries that Musk uses also blow up when they naturally encounter Low Energy Nuclear (LENR) effects in the ambient environment. Millions of chemicals don't blow up from LENR'd but lithium ion does!
176. If you are a Democrat then know that Elon Musk cost you the Hillary Clinton campaign because of his payola schemes. If you are a Republican, know that Elon Musk is the epitome of the worst form of DNC crony corruption you ever saw!
177. Musk bribed California politicians to give him hundreds of millions of dollars of taxpayer dollars & resources he never earned or worked for. He only got those crony payola perks handed to him because he operated as an illicit front for corrupt campaign financing for Dianne Feinstein, Jerry Brown, Harry Reid, Barack Obama and Hillary Clinton.
178. Multiple parties have filed "Demands For The Arrest of Elon Musk" with the FBI, DOJ, AG, FTC, SEC and other law enforcement agencies. It is not likely that Musk, or his companies will survive a full investigation.
179. Tesla and Solyndra sit on the same land in Fremont, CA. Solyndra was raided by the FBI for corruption. Tesla SHOULD be raided by the FBI for corruption. Both companies had kick-back crony payola schemes with Senator Dianne Feinstein. She owned the land, lease, HR, construction company and supplier interests and stock for both companies in one of the most massive conflict-of-interest crony financing schemes in U.S. history. Elon Musk and the Feinsteins are corruption partners.
180. People who see you in a Tesla think of you as a "Tone Deaf Douchebag", "Tesla Tool!", "Arrogant Prick", "Ostentatious Obama Oaf", "Sheep", "Mindless Yuppie Scum", "Misogynistic Silicon Valley Clone", "Self-promoting Elitist Douche", "Fake News Reading Main Stream Boob", "Naive Idiot" or other bad things.
181. Elon Musk is one of the main financiers behind Barack Obama & Hillary Clinton, both of whom have been charged with corruption. Musk endlessly tweets lies & "...No I didn't do those bad things" BS but nobody else supports him.
182. Tesla financial records are "cooked" in a fraudulent manner to make the stock market valuation of Tesla a falsely manipulated factor. Musk uses "pre-orders", by his own investors, to

fake sales and wrote emails to customers asking them to put small deposits down so he could book them as fully paid sales in one of a large number of stock and loan valuation frauds. Musk and his investors practice stock market skims, pump-and-dumps and Flash Boy manipulations.

183. Lithium ion batteries are blowing up, starting fires &, generally, destroying people's homes, cars, electronics & physical health. Boeing was ordered to stop flying the 787 Dreamliner because it's Lithium ion batteries are catching fire spontaneously. A group of silicon valley venture capitalists forced/leveraged the government to buy & pay for these specific batteries, that they have stock in, in order to benefit their profit margins. Other batteries don't have these problems. They knew about the dangers from day one, but put greed ahead of safety. There are thousands & thousands of reports of spontaneous lithium ion fires but the VC's who back lithium ion pay to keep this information hushed up. Millions of these batteries have been recalled for fire risk. The VC's tried to push as many as they could before they got caught. Now they are caught. These VC's & the Senators they bribed own stock in lithium mining companies too.
184. Tesla Motors has filed a patent which states the following , THESE ARE TESLA MOTORS WORDS warning about a crisis, the level of which they never disclosed to the consumer: **"Thermal runaway is of major concern since a single incident can lead to significant property damage &, in some circumstances, bodily harm or loss of life. When a battery undergoes thermal runaway, it typically emits a large quantity of smoke, jets of flaming liquid electrolyte, & sufficient heat to lead to the combustion & destruction of materials in close proximity to the cell. If the cell undergoing thermal runaway is surrounded by one or more additional cells as is typical in a battery pack, then a single thermal runaway event can quickly lead to the thermal runaway of multiple cells which, in turn, can lead to much more extensive collateral damage. Regardless of whether a single cell or multiple cells are undergoing this phenomenon, if the initial fire is not extinguished immediately, subsequent fires may be caused that dramatically expand the degree of property damage. For example, the thermal runaway of a battery within an unattended laptop will likely result in not only the destruction of the laptop, but also at least partial destruction of its surroundings, e.g., home, office, car, laboratory, etc. If the laptop is on-board an aircraft, for example within the cargo hold or a luggage compartment, the ensuing smoke & fire may lead to an emergency landing or, under more dire conditions, a crash landing. Similarly, the thermal runaway of one or more batteries within the battery pack of a hybrid or electric vehicle may destroy not only the car, but may lead to a car wreck if the car is being driven or the destruction of its surroundings if the car is parked"**. See <http://whoiselonmusk.com> for more...
185. Tesla's own staff, & every fire department, have now admitted that once a lithium ion fire gets started in a Tesla, that it is impossible to extinguish burning lithium ion material. This is Tesla's own words in THEIR patent filing, (You can look it up online) saying that the risk is monumental. Tesla has 6800 lithium ion batteries, any one of which can "go thermal", start a chain reaction and blow up all of the rest of the 6800+ deadly batteries! Tesla drivers have been burned alive in thermal globs of flaming lithium ion, plastics & metal. Bystanders have heard their horrific screams of unutterable pain & terror as they were burned alive! Tesla fires can't be extinguished & the bodies are burned into "unrecognizable lumps of charred flesh", according to fireman.
186. Lithium ion batteries "go thermal" in peoples pockets, in your notebook, especially in a Tesla & Fisker car. There are tens of thousands of articles documenting this & there is a cover-up by the VC's that fund these things to keep this fact out-of-sight. Making Lithium ion batteries poisons the workers who make them. It is a dangerous product that is covered-up by the Obama Administration. Panasonic knows that these batteries are deadly.
187. Tesla only exists to exploit Elon Musk's bribes. The lithium ion batteries blow up when they get: wet, hot, bumped, over-charged, struck by energy fields, exposed to air or squashed. Lithium ion batteries poison the Earth & that they poison & kill the workers that make them. Lithium ion batteries come from war profiteering in Afghan & Bolivian corruption
188. Panasonic is Elon Musk's partner. Panasonic is one of the most corrupt companies in the world. Panasonic has been charged, on multiple continents with: Product dumping, bribery, collusion, price fixing, anti-trust law violations, racketeering, worker abuse, toxic poisoning of workers, & other crimes. It is no wonder that Elon Musk & Panasonic are partners. Tata Motors executive Karl Slym was killed for exposing this fact.
189. Your tax dollars were stolen in order to make Tesla Motors, as part of a political financing kick-back scam. In other words, part of your paycheck was taken away from you in order to buy hookers, rent-boys & private jets for Musk & company.
190. Tesla's are forged in criminal corruption, so anybody who drives a Tesla must be either ignorant, a weasel or one of the corrupt. The whole world now knows all of the facts in this list so you can never plead ignorance to these crimes.
191. Tesla's have a huge amount of highly documented defects. The defects are so extensive that Tesla made buyers sign confidentiality agreements to try to hide how messed up their cars are.
192. Tesla's have killed more people than the main-stream news has reported. The full Tesla death-list is covered up.
193. Musk lied about why he wanted to make electric cars, when, in fact, he actually poisons the environment because Tesla investors wanted to exploit toxic minerals & materials which can't be recycled in a clean manner
194. No other electric car has been so mundane, & yet had so many problems with it, since the electric car was first sold in the 1800's. There is nothing "novel" or "amazing" about the Tesla aside from dime store parlor tricks for PR hype.
195. More drunks have crashed Tesla's, than any other per capita car in the world, per volume of cars made
196. Elon Musk's co-founders, investors, partners, wives, investors, suppliers & employees have sued him for being a fraud &, essentially, called him an "asshole" in court records.
197. Elon Musk lied on this Department of Energy funding application and the Obama Administration refuses to allow any federal employees or witnesses to testify to these facts in public due to the devastating potential results of these facts.
198. More owners of Tesla's have been found to cheat on their taxes, & be involved in abuse-based divorces, than almost any other car brand owner. Tesla owners are bad people who rationalize their poor life choices. Owning a Tesla is a red-flag for a tax audit!
199. Elon Musk will lie, cheat & steal in order to self-aggrandize & glorify his egotistical mania. Musk has been documented engaging in over 100 lies which were later proven to be false. He has spent tens of millions of dollars to buy fake news about himself on Twitter, Facebook & Google because he is such a mentally disturbed ego-maniac.
200. None of Elon Musk's companies would exist if not for taxpayer funded handouts given to him by corrupt politicians in exchange for illegal campaign finance deals with him & his investors.
201. Google, & Tesla, who are financial & political partners, have both been caught spying on consumers & manipulating Internet data in order to cover-up their complicity in huge political corruption & kick-back deals
202. Musk took U.S. taxpayer dollars from the government & then hired cheap off-shore labor & fired U.S. Union workers & domestic workers. He lied to & screwed the NUMMI workers that were working at the Fremont plant.
203. Musk has put over 18 surveillance devices in the Tesla. Anybody can hack those devices & monitor you. WORSE YET, foreign agents have hacked the Tesla & taken over the controls & driven Tesla's into bystanders & over cliffs.
204. When Erick Strickland was head of the NHTSA he was confronted about DOT safety cover-ups of the Tesla to protect Obama. He quit 48 hours later. The DOT safety cover-ups to protect the Obama campaign finance payola scheme continue to this day. Obama's Gibbs, Emanuel, Plouffe, Axelrod and Carney quit within a week of being threatened with exposure.
205. Elon Musk paid some of the largest bribes in the history of China, facilitated by Dianne Feinstein and her Chinese spy connections, in order to get his China factory opened.
206. Tesla's have had a large number of recalls but Elon Musk refuses to call them "recalls". Tesla's have had multiple recalls for SEVERE safety dangers. DOT has been told this, in writing, for years, but won't take action in order to protect Obama.
207. Elon Musk is a bullshit artist who has no original ideas & wears black-turtle neck shirts (like Elizabeth Homes) to try to create a "cult" around himself & convince the world that he is a "Jesus-like" figure when, in fact, he is a clinical sociopath.
208. Tesla is a severe public safety hazard that has been systematically covered up by corrupt politicians.
209. Large numbers of Ex-CIA staff and In-Q-Tel spy staff work for Musk. Why does he need spies to build cars?
210. Tesla Motors batteries were promoted by those who wished to exploit the Afghanistan War for personal profit by controlling the Afghan lithium mining fields. Kleiner Perkins and

Draper Fisher hyped the "...trillions of \$ of lithium in Afghanistan."

211. Tesla Motors batteries blow up on their own because their chemistry causes them to be naturally defective.
212. Tesla Motors batteries blow up when they get wet because their chemistry is activated by water to make them explode.
213. Tesla Motors batteries fires cannot be put out by any common fire-fighting resources.
214. Tesla Motors batteries set themselves on fire.
215. Per Federal MSDS disclosure documents, Tesla Motors batteries emit cancer-causing vapors when they burn.
216. Tesla Motors Vehicles toxicity poison bystanders, nearby vehicular passengers, airline passengers in planes carrying said batteries in their holds, & environments where such incidents occur.
217. Tesla Motors batteries blow up when bumped by the same level of car incident that would, otherwise, only dent a normal car bumper.
218. In an accident, when a Tesla rolls over, molten metal & plastic can drip on & burn the occupants alive.
219. Tesla has multiple sexual harassment and unsafe work-place lawsuits against the company.
220. Per MSDS documents, Tesla Motors batteries emit brain damaging chemicals when they burn
221. Tesla is a stock pumping scam to profiteering on stock market peak manipulation at the expense of taxpayers.
222. Per MSDS documents, Tesla Motors batteries emit chemicals, burning, or not, that can damage an unborn fetus within the mother
223. Per MSDS documents, Tesla Motors batteries emit chemicals that can cause lung damage.
224. Per MSDS documents, Tesla Motors batteries emit chemicals that can cause liver damage.
225. Per published lawsuits & news reports, the factories that make Tesla Motors batteries have been charged with the deaths, & potentially fatal illness, of over 1000 workers & the poisoning of nearby towns.
226. Tesla Motors batteries become even more dangerous over time, particularly when tasked by electric transportation systems like Hover-boards & Tesla's. The chemistry in a lithium ion battery changes to become more unstable over time.
227. Tesla Motors batteries were never designed to be used in automobiles. Tesla used non-automotive batteries in one of the most dangerous configurations possible.
228. Tesla Motors occupants experience higher EMF radiation exposure than gasoline vehicle occupants.
229. Elon Musk's Space X vehicles & Tesla Motors vehicles have both had a higher-than-average number of explosions. This has caused outside experts to doubt Musk's ability to place safety considerations over his need for hyped-up PR.
230. Leaked Sandia National Labs & FAA research videos dramatically demonstrate the unstoppable, horrific, "re-percussive accelerating domino-effect" explosive fire effect of the Tesla Motors batteries.
231. Tesla's own "Superchargers" & home 3-prong chargers have set Tesla's, homes & businesses on fire
232. Consumer rights groups contacted Erick Strickland, the head of the NHTSA, & charged him with a cover-up. He quit days later. The NHTSA then issued a safety investigation request to Tesla Motors, which would have more publicly exposed these dangers, but the safety investigation was never under-taken due to White House requests & lobbyist bribes, from Tesla, which got the investigation shut down.
233. NEPA regulations for the Tesla NUMMI factory in California & the Nevada Tesla "Gigafactory" have been violated relative to environmental safety standards.
234. Tesla Motors vehicles are not "Factory Built" "like Ford" builds cars, as Tesla professes. They are hand built in small volumes & subjected to numerous defects. Blogs have documented hundreds of defects, as listed by Tesla owners. Tesla has lost at least one LEMON CAR LAWSUIT for defective manufacturing.
235. Tesla's "showrooms" are often "pop-up" retail storefronts that are in tight-proximity retail centers, putting it's neighbors at risk of total loss from fire damage.
236. Tesla Motors vehicles have been hacked & taken over. Their doors, steering, listening devices & navigation have been taken over by outside parties. Multiple Tesla have suddenly swerved off the road, over cliffs & into other vehicles, killing bystanders & Tesla drivers.
237. Three Tesla top engineers & two competing senior executives, all of whom had whistle-blown on Tesla, who were in perfect health one day, suddenly died mysteriously the next day.
238. Multiple employees, founders, investors, marital partners, suppliers & others have sued Tesla Motors, &/or it's senior executives for fraud. Musk had nothing to do with creating Tesla. He ran a hostile take-over of Tesla from the founders.
239. In addition to suing him, many of his former staff & partners have described Musk as an "Arrogant Prick".
240. Main-Stream Media (MSM) have agreed not to provide news coverage of the deadly defects of the Tesla because the MSM are owned by the same politicians who own Tesla Motors. It is now legal to sue The New York Times for hiding these deadly defects, though, particularly if your family member was injured or killed because they covered-up the danger for political reasons.
241. If you think the above bullet-points are bad there are over a 1000 more. Find the book "Is Elon Musk A Fraud" online or visit <https://stopelonfromfailingagain.com/> or thousands of other sites that expose the truth about Musk & Tesla!
242. BANKRUPT MUSK – NO CASH FOR CRONY CORRUPTION. Print this out & freely re-post it on blogs & social media. Post this on bulletin boards. Put this on the windshield of every Tesla you find. Print this out & hand these out in front of every Tesla dealership: Nobody can stop you from handing these out, it is your U.S. Constitutional First Amendment Right! Pass the word! We are prepared to back up every single fact on here at any public meeting with the FBI, Congress, FTC, GAO, SEC or before a Federal Special Prosecutor.
243. The crash of a Tesla Model X through the home of South Korean singer and actor Ji Chang Son. The crash ended with the nose of the vehicle in Ji Chang Son's living room after the Tesla malfunctioned. Hundreds of such Tesla crashes have occurred, resulting in the deaths and injuries of Tesla owners, passengers, bystanders, oncoming drivers and others.
244. Following accusations by a Korean celebrity that a Tesla car spontaneously drove through a wall, the carmaker has replied that the crash was "entirely due to the man's horrible driving" in an ongoing effort, by Tesla, to steer the blame away from Tesla faulty engineering Actor and singer Son Ji-chang (identified as Ji Chang Son in court documents) claimed he was parking his Tesla Model X SUV when the vehicle suddenly [lurched forward into his living room](#).
245. In a lawsuit filed last week in California, Son claimed that the crash was due to "sudden unintended acceleration" and sought class-action status with other Model X owners. In a nod to the car's ability to sense and avoid crashes, the lawsuit also hinted that the Model X should not be allowed take actions that the car "knows will result in the collision with a fixed object."
246. In June, another California-based Model X owner, Puzant Ozbag, similarly claimed that his Model X spontaneously accelerated through a parking lot and into a wall. A special prosecutor is needed to investigate Tesla due to the huge number of cover-ups, by Tesla and the Obama Administration, to protect campaign financier Elon Musk. Jeff Sessions needs to hire a [lawyer](#) from outside the [government](#) appointed by Sessions as [attorney general](#) or, in the United States, by [Congress](#) to investigate a government official for misconduct while in office. A reasoning for such an appointment is that the governmental branch or agency may have political connections to those it might be asked to investigate. Inherently, this creates a [conflict of interest](#) and a solution is to have someone from outside the department lead the investigation. The term "special prosecutor" may have a variety of meanings from one country to the next, from one government branch to the next within the same country, and within different agencies within each government branch. Critics of the use of special prosecutors argue that these investigators act as a "fourth branch" to the government because they are not subject to limitations in spending, nor do they have deadlines to meet.

247. Attorneys carrying out special prosecutor functions in either federal or state courts of the United States are typically appointed [ad hoc](#) with representation limited to one case or a delineated series of cases that implicate compelling governmental interests, such as: Fraud (SEC, Complex, Cybercrime, Mortgages), Public Corruption, Money Laundering & Asset Forfeiture, Civil Rights, Racketeering Across State lines, Environmental Protection, National Security, Tax & Bankruptcy, Organized Crime, or International cases where the US is a party).^[1] Special prosecutors in courts of the [United States](#) may either be appointed formally by one of the three branches of government in a criminal proceeding, or when dictated by federal law or regulation, or informally in civil proceedings, and also by one of the three branches of government, or by a non-governmental entity to prosecute alleged unlawful conduct by government agents. When appointed by the [judicial branch](#) to investigate and, if justified, seek indictments in a particular judicial branch case, the attorney is called special prosecutor.^[2] When appointed/hired particularly by a governmental branch or agency to investigate alleged misconduct within that branch or agency, the attorney is called [independent counsel](#).^[3] When appointed/hired by the state or political subdivision to assist in a particular [judicial branch](#) case when the public interest so requires, the attorney is called [special counsel](#).^[3] When appointed/hired by an organization, corporation, person or other non-governmental entity to investigate and, if justified, seek indictments against one or more government officials for acts committed under color of law, the attorney may be called [special counsel](#) or special prosecut. The term is sometimes used as a synonym for [independent counsel](#), but under the former law authorizing the independent counsel, the appointment was made by a special panel of the [United States Court of Appeals](#) for the [District of Columbia Circuit](#). The [Ethics in Government Act](#) expired in 1999, and was effectively replaced by [Department of Justice](#) regulation 28 CFR Part 600, under which Special Counsel [Patrick Fitzgerald](#) was appointed to look into the [Plame affair](#). The Tesla Motors and Elon Musk Case requires a Special Prosecutor.

251. Elon Musk's Incredible Smoke And Mirrors Dance. Elon Musk's untraceable money laundering and political bribery scam has now been exposed. It is called an "Invisible Bridge". It is the way that covert funds move through a secret conduit of close associates and family members. Elon Musk is at the head of the conduit and his mother, brother and associates Tim Draper, Steve Jurvetson, and George Soros round out the other tentacles. With operational links through Wells Fargo Bank, Silicon Valley Bank and Goldman Sachs, the scheme is perfected corruption. The "bridge" uses a combination of fake tax evasion charities and business assets, passes through Senator's pockets and is never visible to the FBI, the FEC and the SEC unless they have very good agents assigned to the matter.
252. NTSB, DOJ, SEC and FEC have been blocked from action by DNC lobbyists.
253. The overt and arrogant Musk misdeeds have now become "obvious and RICO-violating..."
254. He is protected by Senators Reid, Harris, Pelosi and Feinstein. They are beneficiaries of the scam. Musk's self promoting, narcissistic, multi-billion dollar, self-aggrandizing PR hype. Elon Musk exists because he bribed DNC politicians including Obama, Clinton and Senators Feinstein, Reid, Boxer, Harris, Spier and Pelosi to give him free taxpayer cash and government resources from the Department of Energy and the California political tax pool. This is proven when you follow-the-money and the insider trading, stock ownership and crony payola kick-backs.
255. He is protected by the Clinton and Obama organizations along with most of the DNC. He finances these politicians via this scheme.
256. The U.S. Dept of Energy (DOE) has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for Fusion-GPS attacks on Silicon Valley business competitors.
257. DNC campaign financiers and DOE staff share stock market holdings with each other under family trusts, shell corporations and layered Goldman Sachs accounts. The deal was: Obama funds Tesla, Musk conduits campaign funds to Obama, top Obama staff profit off of insider Musk stocks.
258. Elon Musk is a criminal, a mobster, an asshole, a balding fake-hair wearing, plastic surgery-addicted, bi-sexual douchebag, woman-abusing, sex addicted, tax evader.
259. Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Look up this phrase on the top search engines: "child labor electric car batteries"
260. Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-glory look-at-me articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley and he will do anything to make the public think so. Musk is insecure because his father was abusive and his "trophy wife" Mother is overbearing so he developed sociopath-like mental issues.
261. Musk has been professionally diagnosed as a 'psychotic narcissist.
262. Musk uses shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading. His brother ran Solar City and is now under federal investigation for securities fraud.
263. A huge number of Tesla drivers, per capita, have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up.
264. The DNC and the MSM refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes.
265. VC's Tim Draper and Steve Jurvetson are so fanatical about not being embarrassed from a Tesla bankruptcy that they will pump the TSLA stock and threaten anybody who might disclose the Musk misdeeds.
266. Peter Thiel, a Musk 'boyfriend' also protects Musk. Musk, and his cronies, use Palantir, Google and related software to scan the entire internet every few minutes for any occurrence of the words: "Musk", "Tesla" or "Tesla Fire". They send trolls and fake bloggers (Many of them Russian) to put pro-Musk comments on the comments section of any blogs or articles discussing those topics and try to flood out the truth about Musk. In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed there by Musk's paid shills.
267. There are no "Tesla Fan Boys". All of the fanatic Tesla comments on the internet are Musk's, Thiel's, Jurvetson's and Draper's fake fanboy trolls. Musk, himself, stays up late at night pretending to be a 'Tesla Fan Boy' on blogs.
268. Main Stream DNC-biased News organizations who refuse to cover the story reveal themselves as shills for Musk
269. The Silicon Valley Mafia promotes Musk as a "Tech God" leader but, in reality Musk is the same kind of "Leader" as Charles Manson, Jim Jones, David Koresh, Swami Rajneesh and Al Capone.
270. His own people have sued him for fraud and lies once they realized that Musk-ism and Scientology had so much in common.
271. The 'Silicon Valley Mafia'; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates.
272. Musk holds the Silicon Valley record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders.
273. Elon Musk has gone out of his way to hire hundreds of ex-CIA and In-Q-Tel staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates.
274. Musk and his culture are being sued for abuse to women and blacks and the Unions hate him for lying to them.
275. <https://stopelonfromfailingagain.com> reveals even more Musk lies.
276. Musk never founded his companies. He took Tesla away from the founder: Marty, in a hostile take-over!
277. Musk's "Starlink" satellites are domestic spy and political manipulation tools - never get your internet from anything SpaceX has launched. SpaceX is entirely a domestic spy operation.
278. Musk's "Mars" scheme is just a PR distraction to keep the news from looking too close at SPACEX domestic spying satellites.
279. The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla.

280. Musk can't fix a car or build a rocket and has almost no mechanical skills.
281. If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history! Musk's lobbyists have bribed DOT and NHTSA to stall safety inspections.
282. NO COMPLETE UNCOMPROMISING SAFETY REPORT ON TESLA CARS HAS EVER BEEN PUBLISHED but we have a copy of a hushed up report that would put Tesla out of business.
283. Musk's 'Autopilot' system is a scam to get government cash BUT IT NEVER WORKS. The Tesla 'Autopilot' has crashed into police cars, pedestrians, swamps and driven owners over cliffs.
284. Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk.
285. The "Silk Road" Cocaine and Murder-For-Hire website was created at Musk's SpaceX
286. Musk's In-Q-Tel staff ran two transport planes filled with drugs; listed as "Cocaine 1" on FAA records.
287. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies. That is why they criminally help cover-up investigations of Tesla!
288. All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI.
289. Tesla and Solyndra sit on the same land and share staff, contracts and lobbying. California politicians own parts of both companies.
290. Musk took over Tesla Motors in a hostile take-over in order to exploit lithium, cobalt and other mining corruption deals for his business partners.
291. The 'lithium' in Musk's horrifically miss-engineered lithium ion batteries cause wars in the Congo over mining corruption.
292. Afghanistan and Bolivian mobsters benefit from the corrupt mining deals involved with mining lithium and cobalt for Elon Musk's batteries.
293. Elon Musk opened a factory in China to try to avoid American worker safety laws because all of the labor cheats and safety violations he had engaged in, in America, were catching up to him. He neglected to provide adequate worker safety to quarantine for the coronavirus, though.
294. Elon Musk's Lithium ion batteries are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu and they engaged in extreme conflict-of-interest to help Musk.
295. Elon Musk's Lithium ion batteries excrete chemicals that mutate fetuses when they burn.
296. Elon Musk's Lithium ion batteries destroy your brain, lungs and nervous system when they burn.
297. Elon Musk's Lithium ion batteries kill the factory workers who make them.
298. Elon Musk's Lithium ion batteries cause Panasonic to be one of the most corrupt companies in the world.
299. Elon Musk's Lithium ion batteries poison the Earth when disposed of.
300. Elon Musk's Lithium ion batteries can't be extinguished by firemen because water makes them explode even more and then explode again hours later.
301. Elon Musk's Lithium ion batteries have chemical dendrites and deposition massing issues (revealed by X-Ray analysis) which makes them more and more likely to explode as they age.
302. Elon Musk's Lithium ion batteries poison firemen when they burn.
303. Elon Musk's Lithium ion batteries are based on criminally corrupt mining schemes like URANIUM ONE.
304. Elon Musk's Lithium ion batteries have over 61 toxic chemicals in them.
305. Elon Musk's Lithium ion batteries come from an industry that spends billions on internet trolls and trolls that they hire to say all other forms of energy
306. Elon Musk's Lithium ion batteries are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers.
307. Apple products with lithium ion batteries have been exploding and setting people on fire.
308. Over time the chemical dendrites, or deposits, inside each battery grow worse and increase the chances of explosion as they age - LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE. This is not a theory. This is a scientific fact. That is why you hear about more and more lithium batteries catching fire and blowing up. Additionally, scientists also speculate that the increasing presence of low energy nuclear background energy and wifi energy in the environment is making lithium ion batteries explode more often lately. This is upheld by the increasing number of FAA reports about commercial airline cabins suddenly "filling up with toxic smoke" as some lithium ion battery explodes in someones overhead luggage. As commercial jets go higher they lose the protection of the atmosphere and are subjected to more gamma (and other) radiation from overhead. This makes the already unstable lithium ion batteries on board blow up.
309. Tesla owner's had had more DUIs, abuse filings in divorce proceedings and crashes than any other car maker PER VOLUME. This makes Tesla the #1 car for douche bags and scummy people.
310. Tesla's own federal patent filing records confirm that Tesla batteries are as dangerous as this document reports.
311. Political activist George Soros owns part of Tesla Motors so that Soros can help conduit DNC cash.
312. The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging.
313. United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT & NHTSA from outlawing them.
314. There have been thousands of defect reports filed on Tesla cars.
315. Tom Steyer is a notorious DNC financier. His partner, Margaret Sullivan ran, the federal USAID agency, USAID sent all of the DNC campaign financiers in Silicon Valley a federal 'report' from USAID that said there was "A TRILLION DOLLARS OF LITHIUM IN AFGHANISTAN" and promised to give those lithium mines, EXCLUSIVELY, to the Silicon Valley venture capitalists if they funded and web search manipulated the election for Obama to take over the White House. We have the documents proving this. In other words, a re-up of the Afghan War was caused by Elon Musk and it killed American soldiers so that Musk could buy more mansions and trophy wives.
316. If a Tesla battery gets wet it will explode and cause all of the other batteries to explode in a "cascade of explosions".
317. Water makes Tesla batteries explode.
318. In an accident, when a Tesla rolls over, molten metal & plastic can drip on & burn the occupants alive and seal them in molten metal.
319. Alkaline, NiCAD and hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownerships.
320. Tesla Motors has caused far more deaths and injuries than the world generally knows about.

321. A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him.
322. In Florida two kids died in a Tesla, burned alive, screaming in agony.
323. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire.
324. A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla.
325. There are many more deaths and crashes than you have seen in the Main Stream News (MSN) The deaths and the cover-ups are endless.
326. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public.
327. Elon Musk's Lithium ion battery partners spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers.
328. Lithium ion EVs are more prone to battery fires.
329. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames.
330. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk.
331. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers. Another whistle-blower has suggested they were killed in a "Boston Brakes" hit-job.
332. The DNC bosses, Congress people and federal executives own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC.
333. The DNC bosses and Musk use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals. The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives.
334. Musk uses Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington & Burling and a host of "media assassins".
335. Musk buddies: Gawker and Gizmodo Media set-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose! Google and Musk are partners-in-crime.
336. Larry Page steals technology for Google and Musk meets with Larry Page to advise him on which technologies to steal and how to bypass FEC laws.
337. Musk has exceeded FEC campaign finance limits by billions of dollars via "in-kind" services.
338. Had the full scope of these facts been acted on during the Obama Administration, Barack Obama would have become the first modern sitting President to have been arrested in the White House. Barack Obama was fully aware of these schemes, crony payola deals and corruption crimes and discussed the implementation of these crimes, daily, with Rahm Emanuel, David Plouffe, Steven Rattner, Robert Gibbs, John Podesta, David Axelrod, Eric Holder and Jay Carney in the Oval Office.
339. THIS corruption involves TRILLIONS of dollars of corrupt mining deals, automotive and energy monopolies!
340. THIS is why the federal budget analysis reports are showing TRILLIONS of dollars of 'untraceable' losses from the United States Treasury from 2006 up to today!
341. THIS is why a large number of reporters, whistle-blowers and prosecutors suddenly, and mysteriously turned up dead!
342. The company that Elon Musk built to usher in the electric-car future might not have enough cash to make it through the calendar year without stock markets scams being used to keep it alive.
343. Tesla again fell far short of its own production targets for the mass-market Model 3 sedan
344. Another person died in a crash involving its assisted-driving feature.
345. Musk entered into a public dispute with federal safety regulators.
346. Tesla's once high-flying stock, buffeted by a downgrade from credit analysts, has dropped 24 percent from its peak in September but Silicon Valley Vc's will pump it up to save face.
347. No one has raised or spent money the way Elon Musk has; Nor has any other chief executive officer of a public company made a bankruptcy joke on Twitter at a time when so much seemed to be unraveling.
348. Tesla is going through money so fast that, without additional financing, there is now a genuine risk that the 15-year-old company could run out of cash in 2018. The company burns through more than \$6,500 every minute, according to data compiled by Bloomberg. Free cash flow—the amount of cash a company generates after accounting for capital expenditures—has been negative for five consecutive quarters. That will be a key figure to watch when Tesla reports earnings May 2. Read the full story here: <https://www.bloomberg.com/graphics/2018-tesla-burns-cash/>
349. In years to come, we will all look back and wonder how so many people were taken in by this shyster, who makes Enron look honest.
350. One of Tesla's greatest strengths is its ability to monetize the patience and goodwill of its customers and loyal fans. The company is sitting on a staggering \$854 million in customer deposits as of the end of 2017.
351. Since Tesla sells its products direct to consumers, without relying on a dealer network, customer deposits are cash payments that essentially serve as interest-free loans—and these loans can stretch on for years. If Tesla were to go bankrupt, those deposit holders would likely be wiped out.
352. Tesla is holding customer deposits for two vehicles that aren't even in production yet: an electric Tesla Semi (\$20,000 deposit) and a next-generation Roadster (either \$50,000 down or the \$250,000 retail price paid up front to reserve a limited edition). Even customers interested in installing an array of solar roof panels or the company's Powerwall home battery must hand over \$1,000 to place an order.
353. Tesla doesn't break out deposit numbers by car, but the vast majority comes from \$1,000 reservations for the Model 3. When Musk first introduced the lower-priced sedan in March 2016, fans stood in long lines at Tesla stores. Two years later, the slower-than-expected pace of production means that most of the more than 400,000 reservation holders are still waiting. And new people appear to be joining the queue: As of April, the company reported "net Model 3 reservations remained stable."
354. There's an additional source of free money from loyal believers: An unknown number of customers have paid up for vehicle features—\$3,000 for "Full Self Driving" capability, for example—that Tesla thus far hasn't figured out or released to anyone.
355. Elon Musk cooked the books by emailing interested sales prospects and asked them to put a deposit down before each quarter ended so he could book their tiny deposits as fully transacted \$60K+ "sales" before each quarter closed.
356. Elon Musk and SpaceX are being sued by multiple employees for "lying about safety standards, safety records" and deadly safety defects.
357. The Elon Musk Tesla Money Laundering Board Of Directors is as full of fraud and corruption as Musk. Birds of a feather stick together and the Jurvetson, Draper, Musk, et al; clan of corruption runs deep. The Board of Directors can't operate their scam without the whole pack of thieves and liars in place. An outsider will break their swamp of tax evasion, Dark Money political bribes, off-shore cash, self-dealing, book-cooking, real estate fraud, expense padding and other nefarious deeds.
358. Dianne Feinstein's family member: Herb Newman of Sausalito, California's HR firm: Newman Search (415 332-8425) has a company as of 1972 with the sole purpose of setting up

investment bank deals with the People's Republic of China. Feinstein arranged for Newman to provide the staffing for Tesla and Solyndra. Dianne Feinstein has been under investigation for spy activities with China and her senior aide was arrested as a Chinese top spy. In 1973 Mr. Newman arrived in Canton at the invitation of the Chinese Council for the Promotion of International Trade. (CCPIT). He and his company MVTG were one of fifty businesses to be invited to the Canton Trade Fair held in Kwangchow China. In 1978 Mr. Newman founded China Investments and in partnership with California Trade Delegations both companies as members of the San Francisco Chamber of Commerce began taking US Corporations to China. Mr. Newman along with one of his associates at the time Mr. Darryl Schoon helped organize Senator Dianne Feinstein's first trip to China in conjunction with the San Francisco Chamber of Commerce. Herb Newman, Mart Bailey and Feinstein's Husband; Dick Blum are on intelligence agency watch-lists, and under electronic surveillance, for potentially corrupt deals with China, Tesla and Solyndra.

359. Dianne Feinstein's husband owns CBRE which owns the real estate contracts for both Tesla and Solyndra.
360. Dianne Feinstein's family owns interests in the construction companies hired by both Tesla and Solyndra.
361. Dianne Feinstein had her staff warn other California businesses away from using the NUMMI car factory in order to protect the real estate deal for both Tesla and CBRE, which is owned by her husband.
362. Tesla began real estate deals in multiple states and then cancelled them at the last minute, which got them sued for fraud and charged with "lying" to different communities. They started, and then pulled out of these different building (San Jose, Southern California, New Mexico, Etc.) deals, because CBRE and Feinstein were trying to leverage real estate profit exploitation using taxpayer funding.
363. Panasonic and Tesla have known for decades that the Panasonic 18650 batteries used in the Tesla suffer from multiple chemistry degradation defects which will almost always make them eventually explode or "go thermal". The defects include: 1.) LENR activation, 2.) Dendrite lengthening, 3.) Particle congealing, 4.) Chemistry evolution and other defects. The Tesla projects is, essentially, a failed product product dumping effort of a failed and dangerous battery product.
364. Elon Musk has demanded that his employees sign "loyalty pledges", "vows" and engage in Omerta's in order to keep the corruption details of Tesla from being exposed to the public.
365. Tesla insider Antonio Gracias is the mob boss insider at Tesla who arranges media hit-jobs on those who displease Musk.
366. The NHTSB has issued requests to Tesla for safety tests and data that Tesla never complied with. Instead, Tesla paid bribes, which were referred to as "fees" to avoid having to complete those tests. An independent group of outside investigators issued a damning safety report to the NHTSB demanding that Tesla be compelled to produce the safety tests in 2010 but Obama appointed NHTSB executives buried the report and protected Tesla in order to keep the connection between Obama's funding and Tesla protected. NHTSB boss: Strickland, an Obama insider, was confronted with this in Washington, DC and resigned from his job 48 hours later. NHTSB has still not acted on the severe Tesla safety defects that have been reported since 2009.
367. An SEC investigation of Musk uncovered horrific evidence of Musk corruption but the SEC could not report or act on it because Obama congressional bosses and lobbyists got the SEC investigation "limited" to only examine a single Twitter "Tweet" from Musk.
368. Elon Musk is protected by top DOJ, SEC, CFTC, FEC and other Obama left-over staff as well as 45 U.S. Senators and top Federal Reserve members and Goldman Sachs, who live in terror that exposure of the entire Elon Musk financial food-chain will topple the entire DNC Dark Money payola scam. This is the reason that Tesla can get away with so much obvious and overt corruption and still continue operations. Tesla Motors book-cooking, financial frauds and political payola conduits, if fully revealed, would change the course of political influence in America.
369. Elon Musk has been sued by a man that Musk called a "Pedo", yet Musk's own father has been accused of child sex abuse, racism and, indeed, got his own daughter pregnant!
370. Elon Musk's mother has been accused of being a "self-indulgent trophy wife" who Musk was trained by to be an arrogant elitist. Her hatred of black people was imbued on Musk who has been sued by black people at his company for "running a racist culture".
371. Elon Musk divorced the same woman twice because she knew his dirty little secret and threatened to out him if he did not keep the deal going. She was hired to "act" as his wife.
372. Musical artist Iggy Azalea was at a Musk Party, with other friends, who captured Elon Musk on video on drugs and in weird sex acts. Musk had Iggy's camera stolen at the party to hide the evidence but he did not get the other cameras and did not realize that some of those cameras placed their images and videos directly on the Cloud, where hackers acquired them.
373. With cover-up help from Eric Holder, Steven Chu, Obama, Valerie Jarret, DNC FBI agents, Perkins Coie, Covington and Burling, Wilson Sonsini, etc; sociopath Musk actually believes he is "untouchable" and that he can get away with anything. His downfall will be the same downfall of every narcissist sociopath oligarch throughout all of recorded history.
374. Elon Musk is a drug addict. A simple urine and blood test proves it. Musk's downfall and the downfall of John DeLorean are seeming to align.
375. Dianne Feinstein and Nancy Pelosi are violating the law protecting Tesla by withholding investigations and prosecutions? Why are they allowing American citizens to continue to die from the 1.) "sudden acceleration electronics defect"; 2.) "The failed Auto-pilot electronics defect"; 3.) "The deteriorating and deadly lithium ion batteries" and 4.) numerous other defects widely documented in the news media and filed lawsuits?
376. Elon Musk exists because he bribed DNC politicians including Obama, Clinton and Senators Feinstein, Reid, Boxer, Harris, Spier and Pelosi to give him free taxpayer cash and government resources. This is proven when you follow-the-money and the insider trading, stock ownership and crony payola kick-backs.
377. The Energy Dept (DOE) has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors.
378. DNC campaign financiers and DOE staff share stock market holdings with each other under family trusts, shell corporations and layered Goldman Sachs accounts. The deal was: Obama funds Tesla, Musk conduits campaign funds to Obama, top Obama staff profit off of insider Musk stocks.
379. Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Look up this phrase on the top search engines: "child labor electric car batteries".
380. The Silicon Valley Paypal Mafia promotes Musk as a "Tech God" leader but, in reality Musk is the same kind of "Leader" as Charles Manson, Jim Jones, David Koresh, Swami Rajneesh and Al Capone. His own people have sued him for fraud and lies once they realized that Musk-ism and Scientology had so much in common.
381. Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders. Elon Musk has gone out of his way to hire hundreds of ex-CIA and In-Q-Tel staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates.
382. Musk and his culture are being sued for abuse to women and blacks and the Unions hate him for lying to them. <https://stopelonfromfailingagain.com> reveals even more Musk lies.
383. THIS corruption is what all of the big political scandals are about today!
384. THIS corruption involves TRILLIONS of dollars of corrupt mining deals, automotive and energy monopolies!
385. THIS is why the federal budget analysis reports are showing TRILLIONS of dollars of 'untraceable' losses from the United States Treasury from 2006 up to today!
386. THIS is why a large number of reporters, whistle-blowers and prosecutors suddenly, and mysteriously turned up dead!
387. THIS can all be proven in jury trial and in live televised Congressional hearings!
388. This is all being covered up because top State and Federal officials are in on it, own the stock in it and are so deeply involved in it that they could go to Federal prison when this all comes out.
389. The anxieties that lurk beneath the tremendous ambition of Tesla Inc. moved into the forefront in recent weeks. The company again [fell far short](#) of its own production targets for the mass-market Model 3 sedan, another person [died in a crash](#) involving its assisted-driving feature and Musk entered into [a public dispute](#) with federal safety regulators. 398. The consumer psychology that sees hundreds of thousands of people essentially extending an interest-free loan to a public company is unusual, to say the least. I think the phrase "more money than sense" rather sums it up
399. Apple and Google also named in US lawsuit over Congolese child cobalt mining deaths for Elon Musk's Tesla Cars. Dell, Microsoft and Tesla also among tech firms named in case brought by families of children killed or injured while mining in DRC. [I saw the unbearable grief inflicted on families by cobalt mining. I pray for chan](#) Elon Musk's cobalt extraction in DRC has been linked to child labour.
400. A landmark legal case has been launched against the world's largest tech companies by Congolese families who say their children were killed or maimed while mining for cobalt used to power smartphones, laptops and electric cars, the Guardian can reveal.
401. Apple, Google, Dell, Microsoft and Tesla have been named as defendants [in a lawsuit filed](#) in Washington DC by human rights firm [International Rights Advocates](#) on behalf of 14 parents and children from the Democratic Republic of the Congo (DRC). The lawsuit accuses the companies of aiding and abetting in the death and serious injury of children who they claim were working in cobalt mines in their supply chain.
402. The lawsuit argues that Apple, Google, Dell, Microsoft and Tesla all aided and abetted the mining companies that profited from the labour of children who were forced to work in dangerous conditions – conditions that ultimately [led to death](#) and serious injury. The families argue in the claim that their children were working illegally at mines owned by UK mining company Glencore. The court papers allege that cobalt from the Glencore-owned mines is sold to Umicore, a Brussels-based metal and mining trader, which then sells battery-grade cobalt to Apple, [Google](#), Tesla, Microsoft and Dell.
403. Other plaintiffs in the court documents say they worked at mines owned by Zhejiang Huayou Cobalt, a major Chinese cobalt firm, which the lawsuit claims supplies [Apple](#), Dell, and Microsoft and is likely to supply the other defendants.
404. Another child, referred to as John Doe 1, says that he started working in the mines when he was nine. The lawsuit claims that earlier this year, he was working as a human mule for Kamoto Copper Company, carrying bags of cobalt rocks for \$0.75 a day, when he fell into a tunnel. After he was dragged out of the tunnel by fellow workers, he says he was left alone on the ground at the mining site until his parents heard about the accident and arrived to help him. He is now paralysed from the chest down and will never walk again.
405. Other families included in the claim say that their children were killed in tunnel collapses or suffered serious injuries such as smashed limbs and broken spines while crawling through tunnels or carrying heavy loads. The families say that none were paid any compensation for the deaths and injuries.
406. One of the central allegations in the lawsuit is that Apple, Google, Dell, Microsoft and [Tesla](#) were aware and had "specific knowledge" that the cobalt they use in their products is linked to child labour performed in hazardous conditions, and were complicit in the forced labour of the children
407. **Is it charged that the Musk empire is an organized crime program that exists between Silicon Valley tech oligarchs, investment banks, U.S. Senators, government agency staff and White House staff who engage in these crimes.**
408. **That public officials knowingly participate in these crimes by failing to report their associates who engage in these illicit actions and by hiring suppliers who operate these illicit activities.**
409. **That the Musk empire suspects manipulate government funds for their personal profiteering at the expense of domestic citizen taxpayers like us.**
410. **That the Musk empire suspects operate a vast stock market manipulation program, as a core function of their operations, and those illicit deeds function at the expense of the public to render unjust gain to public officials.**

The Malignant Narcissism And Cartel Climate Of Elon Musk And His Billionaire Frat Boy Club

At almost every juncture, Elon Musk has made egotistical decisions that lead to more failures. His behavior is that of a person who has no care or concern for the health, safety and welfare of the American people. Nothing could epitomize that more perfectly than his grotesque suggestions that we should shoot nuclear bombs off on Mars or that nobody will care that his Starlink Satellites are designed to spy on the public. This would seem comical, and entirely unbelievable, if it had not actually happened.

In 2006 the many scientists told Elon Musk and his advisers of the high likelihood that a pandemic of lithium ion battery explosions would strike the nation and advised the incoming administration to take appropriate steps to reduce its impact. Obama officials hid the dangers because they owned stock in lithium and cobalt mines for those batteries, particularly in Afghanistan.

In November of 2007, the experts warned Obama that the country was likely to be afflicted with a devastating pandemic of lithium ion originating from Asian and Russian oligarchs.

In January 2009, the Obama administration was told by its own experts, Bernard Tse and his team who knew Tesla bosses, Sandia and others that the lithium ion batteries in Tesla cars had degrading chemistry which become a global pandemic of auto danger. Again, Obama chose inaction.

Obama and Musk have deprived Democratic-led regions of the country from receiving needed safety reviews of Tesla cars.

Over the year's since 2006, Americans working with the DOE, NHTSA, SEC and other groups accelerated warnings to Obama officials. These engineers and other science professionals were intentionally ignored in order to protect politicians stock market profits.

In these, [and any other examples](#), Musk and his inner circle of White House and Senate insiders ignored or purged experts and other truth-tellers, and lied about, misrepresented, deflected or denied the dire threat to the American people posed by the lithium ion battery scam.

Considered in total, Musk and his regime have shown themselves to be incompetent, callous, malevolent and deeply cruel in their response to the Tesla safety issue crisis (as well as to a plethora of other issues).

But to merely document the Musk regime's deadly failures in response to the dangers of his companies is to ignore the most important question: What are Musk's and his advisers' underlying motivations?

This forensic question must be answered if we are ever to have a full accounting of the Musk Corruption, and see justice done for the voters, the dead tesla victims and those who will die in the future as well as the damage done to the broader American community.

The coordinated 'main-stream' media's preferred storyline that suggests Musk is simply incompetent doesn't add up because Musk has made the wrong decision every single time in terms of how crises like this are supposed to be dealt with. (i.e. Be consistent, transparent, factual, and credible.) It's increasingly not believable for the left-wing press to suggest that Musk has been distracted or inept during this crisis, in part because of the level of his uselessness has become so staggering.

Maybe Musk is vengeful. Maybe he wants to wreck the economy to create investment opportunities? He's under the thumb of a foreign entity? He wants to cause panic and cancel the November elections? He's a fatalist? Who knows. And honestly, the specific "why" isn't what matters now. What matters is asking the difficult questions and pondering what the Musk oligarchy is truly about, no matter what lurks in the shadows...

Now the press needs to shift some of its focus and ask the truly alarming questions about Musk and his motives. Because we still don't know why he essentially ordered his companies to embark on such sinister ventures involving slicing up brains; over-priced deadly cars for rich douche-bags; digging holes for billionaire hide-outs, launching domestic spy satellites and manipulating elections along with his boyfriend: Larry Page, etc...

Psychologist and psychotherapists have an answer: Elon Musk is a **"malignant narcissist"**. Musk's mental pathologies inexorably compel him to hurt and defraud large numbers of people — including his own supporters.

Exports have looked at Musk's borderline personality disorders. They explain that sadism and violence are central to Musk's malignant narcissism and his decision-making about his self-promotion. They warn that Musk is abuser locked into a deeply dysfunctional relationship with the American people and that, like other sadists, Musk enjoys causing harm and suffering to any that do not recognize his "tech Jesus" self-proclaimed superiority.

Ultimately, all psychologists generally concludes that Musk is engaging in **"democidal behavior"** in partnership with Obama and Pelosi and cautions that the many dead and injured (so far) from the Tesla fires and crashes are not simply collateral damage from the Musk madness, but rather the logical outcome of Musk's apparent mental pathologies and the poor decisions that flow from them.

Musk is both denying responsibility by saying things such as, "I take no responsibility. We've done everything right." But at the same time, Musk is also sabotaging the efforts to stop the corruption in his empire. This is a very important aspect of Musk's behavior. Musk is not just deflecting blame onto others, he is actively interfering with the politicians' ability to do their job by controlled Senators with bribes. Musk is not just incompetent. He is actively engaging in sabotage against competitors and reporters who speak the truth about him.

You might wonder: How does someone with his type of mind reconcile claims like "I have total power" with "I take no responsibility"? He has said both things within a few days of each other. Well; That is a function of how the psychology of a malignant narcissist is structured. When Musk says things such as, "I have total power," that's the grandiosity. "I'm in total control" is a function of Musk's paranoia, where everything bad is projected outward. Therefore, anything negative or bad is someone else's fault. Bad things are "other people" in Musk's mind. The grandiosity and "greatness" are all him. Musk's mind runs on a formula which bends and twists facts, ideas and memories to suit his malignant narcissism. This is why Musk contradicts himself so easily. He lies and makes things up. His fantasies all serve his malignant narcissism and the world he has created in his own mind about his greatness.

Another component of Musk's malignant narcissism is sadism. That part of Musk's mind is more hidden. People such as Musk are malignant-narcissist sadists because they, at some deep level, are driven to cause harm to other people. Musk's life is proof of this. His pedo father and trophy wife narcissist mother demonstrate his roots. He enjoys ripping people off and humiliating people. He does this manically and gleefully. He has lied thousands of times. He threatens people online and elsewhere. Most psychologists believe that Elon Musk is also a sexual sadist, who on some basic level enjoys and is aroused by watching people be afraid of him. In his mind, Musk is creating chaos and instability so that he can feel powerful.

Professor of psychiatry and psychoanalyst Otto Kernberg called that phenomenon "omnipotent destructiveness." The bullying, the violence, the destruction, frightening people, humiliating people, getting revenge and the like — such behavior is what Elon Musk has done his whole life. It is who Elon Musk really is. Unfortunately, too many people are still in denial of that fact.

Musk has to create and control a field of negative corrupting energy around himself. For example, he pressures the scientific experts to bend the truth to his dreamworld during his press conferences. The scientists are basically Musk's hostages. The American people are hostages as well to Elon Musk's lies. We are being abused by him. We know that Musk is lying. We know that he's doing nothing to help us. We feel helpless to do anything to stop him. It is causing collective mental despair. It is not that all Americans are suckers or dupes, it is that Musk is a master at such cruel and manipulative behavior.

Elon Musk is a master at getting negative attention, and the more people he can shock and upset, the better.

Malignant narcissists like Elon Musk view other human beings as kindling wood to be burned for their own personal enrichment, media enlargement and hype expansion.

Follow the facts to the obvious and true conclusion. If all the facts show that Elon Musk (and his little boy buddies Larry Page, Eric Schmidt, John Doerr, Reid Hoffman, Steve Westly, etc.) is a malignant narcissist with these powerful sadistic tendencies, this omnipotent destructiveness, where he's getting pleasure and a sense of power from dominating people and degrading people and destroying people and plundering people and laying waste to people, both psychologically and physically, then to deny such obvious facts is willful ignorance.

When Musk is finally exposed, like Elizabeth Holmes and Theranos or ENRON, it will be glorious.

Rather than making a prediction as to Musk's specific actions when the emperor has no clothes, it is more helpful to describe the type of actions he will take. Rather than trying to say, "This is the move he'll make." Like in a relationship, Elon Musk is the abuser. He is the husband or father who is abusing his partner or children or other relatives. The American people are like a woman who is leaving her abuser. She tells her abuser, "That's it! I am done with you!" She has her keys in hand and is opening the door of the house or apartment to finally leave. What happens? The democidal maniac Elon Musk will attack us, badly. Make no mistake. Elon Musk is going to find a way to attack and cause great harm to the American people if he believes that he will be fully exposed. He will use his spy satellites, his media controls, his remote controlled cars, his stock market manipulation tools, his Goldman Sachs economic destruction team and more. Musk will strike back... unless the FBI finally arrests him first.

The Bottom Line: These people are crooks, using your tax money to conduct crimes and protect themselves from arrest at your expense!

The following person's were whistle-blowers or innocent victims in this crime. They died via strange, suspicious and untimely circumstances. Some of them may have been murdered for helping with this case. This is not a complete list.

- Rajeev Motwani taught Google how to Google. Suddenly, in perfect health, he was found floating face-down, dead, in his Silicon Valley swimming pool. It helps certain people that he can no longer talk.
- Gary D. Conley was the CleanTech competitor to, and whistle-blower on, the suspects. He was suddenly found with a bullet in his head behind Beale Air Force base. It helps certain people that he can no longer talk.
- Google programmer Forrest Hayes, who worked on Google search engine rigging, was suddenly found dead with the story that "he was overdosed by a Google hooker on his sex yacht".
- Google associate and Tesla Investments founder Ravi Kumar was aslso killed by a hooker.
- Deep Google investor VC liason and husband of Facebook executive Cheryl Sandberg was suddenly found dead with a hole is his head. The "official" story is that he was the first person in history to be killed by his treadmill.
- David Bird was the Wall Street Journal energy reporter who was working on a story that involved Cleantech energy connections of some of the suspects. He was working on a story about who controlled the modern energy industry and cleantech.He went for a walk and was found a long time later, dead, floating in a pond. It helps certain people that he can no longer talk.
- One Mr. Breitbart was a famous blogger, who railed on the web about the political manipulations of the suspects. Suddenly, he had a "heart attack" in his shower and died. It helps certain people that he can no longer talk on the blogs.
- Mr. Slym , with Tata Motors was involved in a car deal with some of the suspects for one of the biggest Indian auto-makers. Suddenly he was a stain on the sidewalk, accomplished by his fall from the top of a skyscraper hotel. It helps certain people that he can no longer talk.
- Doug Bourn, The senior electrical engineer at Tesla (Google's covert partner), Andrew Ingram of Palo Alto, a top systems electrical engineer at Tesla; and Brian M. Finn the senior manager of interactive electronics, at Tesla, had deep knowledge of financial misdeeds and technical cover-ups at Tesla Motors. They were key parts of the Tesla operation. For some reason, they all got into a private airplane, in perfect health, and then the airplane plowed into the ground, killing all three at once. It helps certain people that they can no longer talk. They wrote, and helped describe, in Tesla's own federal patent filings, the fact that Tesla's batteries would kill you, maim you and/or burn your house down. Tesla did not realize this when they paid the federal patent filing fees. When Tesla, later realized this, they were forced to give all of their patents away for free. These three senior engineers had deep inside knowledge of the Tesla Motors operations. Their aircraft suffered an "Engineering failure".

The above individuals had absolute knowledge of this case and some of them were known to have been whistle-blowers in this case.

All of these people (now over 50+ people) were in top health, had lots of money and were not likely to have died when they did. Then they died, suddenly and suspiciously, under bizarre circumstances. They were all connected to the suspects. Over 50 investment bankers connected to the suspects and their Goldman Sach's finance group are also suddenly dead under bizarre circumstances.

The tactics that the Department of Energy and Obama White House staff have practiced, so far, are to LIE, DENY, DEFLECT, DELETE and DIVERT. History has proven that those tactics didn't work for them. Now it is time for DOE to pay the damages.

THE BASICS

CAPSULE OVERVIEW: A crime involving stock market securities insider-trading, contracts, bribes and famous politicians occurred. We saw it, were invited in to it, and reported it and now a cover-up is being operated.

EXPANDED CAPSULE OVERVIEW: Department of Energy Staff (ie: Chu, Zoi, Seward, Cohen, etc.), White House Staff (ie: Emanuel, Axelrod, Carney, Plouffe, Gibbs, etc.), CIA staff (ie: Panetta, Woolsey) owned the rare earth (ie: lithium, indium, cobalt) mining scam stock (ie: Goldman Sachs & JP Morgan transfers) market securities from foreign countries (ie: Afghanistan, Congo, etc.) which only benefited themselves, Elon Musk and his Silicon Valley Cartel (ie: Page, Cohen, Schmidt, Westly, Khosla, Spinner, Hoffman, etc.). They ran hit-jobs and anti-trust schemes against competitors and whistle-blowers using a racketeering operation structure. They run corporate escort rings, lobbyist bribe PACs, money laundering and tax evasion joint operations and character assassination media cartels.

MORE DETAILED OVERVIEW:

- Famous political figures use the **trillions** of dollars in government treasuries and the stock market for illicit profiteering by rigging the system exclusively for themselves and their crony insiders.

- They attacked us using government taxpayer funded media (*Fusion GPS, Black Cube, Google, Pysops, Gizmodo, Media Matters, Blumenthal, etc.*) and spy agency tools because we competed with their businesses and reported their crimes.

- San Francisco Bay Area government has as many corrupt politicians as Chicago and relies on the same RICO-violating insider corruption network to operate; as proven by deep AI searches of their financial records. Arrests of those officials is now underway.

- Silicon Valley law enforcement records prove that these tech oligarchs engage in an organized, racketeering-based, massive sex trafficking, tax evasion, anti-trust violating, spousal abuse, money laundering, black-listing, racist, ageist, political bribery, crony racketeering crime Cartel.

- Famous U.S. Senators, Governors and their staff knowingly engage in, finance, operate and benefit from these crimes in exchange for search engine manipulation and stock market assets.

- Silicon Valley and Hollywood media companies censor and cover-up news coverage of these crimes because they have a financial connection to the perpetrators.

- [Most of the government officials working on our case were hand-picked by our business adversaries](#). Our case has never been fairly reviewed by non-biased, non-conflicted officials. Our FBI-class associates have not found a single entity in our case reviews, or determinations, who was not either: financed by, friends, with, sleeping with, dating the staff of, holding stock market assets in, promised a revolving door job or government service contracts from, partying with, personal friends with, photographed at private events with, exchanging emails with, business associates of or directed by; one of those business adversaries, or the Senators and politicians that those business adversaries pay campaign finances to, or supply political digital services to.

ASK THE INSPECTOR GENERALS AT DOJ, SEC, DOE, FBI, CFTC, SSA, SEC, FEC, GAO, OSC ABOUT THE STATUS OF OUR CASE. WE HAVE TALKED TO THEIR OFFICES, EMAILED VIA CERTIFIED MAIL, MET WITH THEM AND ...NOTHING...EVER..GETS..DONE! IS IT A COVER-UP?

Their contractors and employees pay the bribes, relay the orders, buy the 'reporters', implement their black-lists, source the hookers and do the day-to-day illicit deeds.

These are the people funding and promoting riots across the US and Europe.

[LinkedIn Co-Founder Reid Hoffman](#), who [notoriously backed](#) a group that "spread disinformation during the 2017 Alabama special election for U.S. Senate," is now being joined by other Big Tech billionaires in a plot to boost presumptive Democratic nominee for president Joe Biden in 2020.

Democrats are "scrambling to patch [Biden's] digital deficits," according to [Vox Recode](#). "[B]ehind the scenes, Silicon Valley's billionaire Democrats **are spending tens of millions of dollars on their own sweeping plans** to catch up to President Donald Trump's lead on digital campaigning." [Emphasis added.] Recode said these "sweeping plans" are "poised to make [these billionaires] some of the country's most influential people when it comes to shaping the November results."

These billionaires in particular are funding everything from "nerdy political science experiments to divisive partisan news sites to rivalrous attempts to overhaul the party's beleaguered data file."

As Recode tells it, "Joe Biden has a problem. Silicon Valley billionaires think they have a solution."

Recode identified four major players from Big Tech that have the "most ambitious plans": Reid Hoffman, Facebook co-founder [Dustin Moskowitz](#), philanthropist [Laurene Powell Jobs](#), and former Google CEO [Eric Schmidt](#).

Hoffman, in particular, stands out from the rest. [OpenSecrets](#) revealed that "political operations are pouring millions of 'dark money' dollars into ads and digital content masquerading as news coverage to influence the 2020 election." One of those progressive [operations](#) is dubbed Courier Newsroom, which "has faced scrutiny for exploiting the collapse of local journalism to spread '[hyperlocal partisan propaganda](#).'" Courier Newsroom is owned by the leftist nonprofit ACRONYM.

OpenSecrets reported that ACRONYM had "received [financial backing](#) from [Investing in US](#), an investment vehicle funded by Silicon Valley donor and billionaire LinkedIn founder Reid Hoffman." Recode said that Hoffman's "aides have indicated that setting up partisan news sites that masquerade as journalism is one of the priorities of its group of allied donors." According to Recode, Hoffman has put around \$10 million into ACRONYM.

But that isn't all Hoffman has been up to. Recode reported that Hoffman invested "\$18 million, his single-biggest bet this cycle," in a political startup called Alloy.

Recode reported that "[t]he startup is attempting to build a warehouse to store the data that various progressive groups collect on voters and use it to try to get them to the polls." Recode continued: "As part of its data acquisition, Alloy has bought some lists of voters' cellphone numbers, a data source that people say Hoffman's team, like other donors, sees as key this year due to the new need for digital campaigning."

The former [Google CEO Eric Schmidt](#) is also getting heavily involved this cycle. Recode said Schmidt "has sunk money into the Democratic Data Exchange, a modest, competing effort by the Democratic National Committee to encourage data sharing by state parties to improve the party's beleaguered digital backbone." Recode interestingly assessed that Schmidt "may be working more closely with the party than Hoffman."

Schmidt also had [reportedly](#) given a \$4.7 million gift to the taxpayer-funded liberal outlet National Public Radio with his wife Wendy.

"This focus on 'information distribution' has also led many Silicon Valley donors, directly or indirectly, to fund projects like [Pulso](#) and [PushBlack](#), which are quasi-journalistic plays focused on the Hispanic and African American communities, respectively," Recode said. "Two things both Pulso and PushBlack also do? Register voters who are likely to be Democrats."

Tech billionaires, "particularly Moskowitz and Powell Jobs," are unleashing "millions into some of the country's most ambitious voter-registration programs — **almost all of it behind the scenes** — hoping to emulate what worked for Democrats in 2018," according to Recode. [Emphasis added.]

About a dozen voter-registration groups, which included failed Democratic Georgia gubernatorial candidate Stacey Abrams's leftist group [Fair Fight](#), gathered at Powell Jobs's "Emerson Collective headquarters in mid-March to raise money for their 2020 plans, sources told Recode."

For Moskowitz, his "North Star is a desire to nail the lowest 'cost-per-net-Democratic-vote.'" Recode said "[t]hat's largely led his team toward the funding of mail and voter-registration work."

As [Big Tech platform Twitter](#) dips into editorializing Trump's tweets, it appears that other billionaire liberals from Silicon Valley are not going to be sitting idly by for a repeat of the 2016 election outcome.

These people operate like a private Mafia that use our government as their plaything!

- VICE NEWS *Motherboard* via public records request has [revealed](#) shocking details of capabilities of California law enforcement involved in Fusion Centers, once deemed to be a conspiracy theory like the National Security Agency (NSA) which was founded in 1952, and its existence hidden until the mid-1960s. "The guide doesn't just show how Gotham works. It also shows how police are instructed to use the software," writes [Caroline Haskins](#). "This guide seems to be specifically made by Palantir for the California law enforcement because it includes examples specific to California."

- Palantir is a private intelligence data management company mapping relationships between individuals and organizations alike founded by Peter Thiel and CEO Alex Karp and accused rapist Joe Lonsdale. You may remember Palantir from journalist Barrett Brown, Anonymous' hack of HBGary, or [accusations](#) that the company provided the technology that enables NSA's mass surveillance PRISM. Founded with early investment from the CIA and heavily used by the military, Palantir is a subcontracting company in its own right. The company has even been featured in the Senate's grilling of Facebook, when Washington State Senator Maria Cantwell [asked](#) CEO Mark Zuckerberg, "Do you know who Palantir is?" due to Peter Thiel sitting on Facebook's board.

- In 2011, Anonymous' breach [exposed](#) HBGary's plan, conceived along with data intelligence firm Palantir, and Berico Technologies, to retaliate against WikiLeaks with cyber attacks and threaten the journalism institutions supporters. Following the hack and exposure of the joint plot, Palantir [attempted](#) to distance itself from HBGary, which it blamed for the plot.

Bank of America/Palantir/HBGary combined WikiLeaks attack plan. You can find more here: <https://t.co/85yECxFmZu pic.twitter.com/huNtfJp8gI>

— WikiLeaks (@wikileaks) [November 29, 2016](#)

- This was in part because Palantir had in 2011 [scored \\$250 million in deals](#) ; its customers included the CIA, FBI, US Special Operations Command, Army, Marines, Air Force, LAPD and even the NYPD. So the shady contractor had its reputation to lose at the time being involved in arguably criminal activity against WikiLeaks and its supporters.

Police can then click on an individual in the chart within Gotham and see every personal detail about a target and those around them, from email addresses to bank account information, license information, social media profiles, etc., according to the documents.

- Palantir's software in many ways is similar to the Prosecutor's Management Information System (PROMIS) stolen software Main Core and may be the next evolution in that code, which allegedly [predated](#) PRISM. In 2008, Salon.com [published](#) details about a top-secret government database that might have been at the heart of the Bush administration's domestic spying operations. The database known as "Main Core" reportedly collected and stored vast amounts of personal and financial data about millions of Americans in event of an emergency like Martial Law.

[Dan Goodin](#) Dan is the Security Editor at Ars Technica, which he joined in 2012 after working for The Register, the Associated Press, Bloomberg News, and other publications.

Per the different reports in Russian media, the files indicate that SyTech had worked since 2009 on a multitude of projects since 2009 for FSB unit 71330 and for fellow contractor Quantum. Projects include:

- **Nautilus** - a project for collecting data about EVERY social media and dating site user (such as Facebook, Match.com, OKCUPID, Plenty of Fish)MySpace, and LinkedIn).
- **Nautilus-S** - a project for deanonymizing Tor traffic with the help of rogue Tor servers.
- **Reward** - a project to covertly penetrate P2P networks, like the one used for torrents.
- **Mentor** - a project to monitor and search email communications on the servers of Russian companies.
- **Hope** - a project to investigate the topology of the Russian internet and how it connects to other countries' network.
- **Tax-3** - a project for the creation of a closed intranet to store the information of highly-sensitive state figures, judges, and local administration officials, separate from the rest of the state's IT networks.

BBC Russia, who received the full trove of documents, claims there were other older projects for researching other network protocols such as Jabber (instant messaging), ED2K (eDonkey), and OpenFT (enterprise file transfer).
