Dear FBI Team:

As know you, our task force has created a large number of public-interest crowd-sourced testimony websites to provide real-time information, about this case, to your agents. We have spoken to your office on multiple occasions as informants, whistle-blowers, witnesses and providers of testimony about this large criminal matter involving well known public figures..

Congress must be forced to eliminate both the appearance and the actual operation of financial conflicts of interest that we have identified going on every day. Americans must be confident that actions taken by public officials are intended to serve the public, and not those officials and their corrupt Silicon Valley big tech leash-holders. Their actions counter-act the law, The Constitution and general morality.

A number of our associates are now dead, under mysterious circumstances. It seems like some of them were killed to shut them up.

We experienced all of the damages from each of the abuse-of-power issues listed below. The FBI, FTC, SEC, FEC must become a taskforce that ends these crimes. These are the crimes we saw and suffered from and the solutions to those crimes:

We documented modern bribes being paid through stock market scams. We saw the perpetrators do it. Please help ban individual stock ownership by Members of Congress, Cabinet Secretaries, senior congressional staff, federal judges, White House staff and other senior agency officials while in office. Please prohibit all government officials from holding or trading stock where its value might be influenced by their agency, department, or actions. The perpetrators are TODAY committing crimes and corruption in this manner.

We witnessed violations of conflict of interest laws per the President, Senators and the Vice President through the Presidential Conflicts of Interest Act, which would should require the President and the Vice President to place conflicted assets, including businesses, into a blind trust to be sold off. The perpetrators are TODAY committing crimes and corruption in this manner.

We witnessed senior Department of Energy government officials, employees, contractors and White House staff fail to divest from

privately-owned assets that could present conflicts, including large companies like Tesla, Google, Facebook, Sony, Netflix, etc., and commercial real estate. The perpetrators are TODAY committing crimes and corruption in this manner.

We, and the news media, witnessed a felony-style intent to not respond to a filing by a citizen within 48 hours. Former White House and Energy Department staff use 'stone-walling' to intentionally delay responses for a decade, or more. The perpetrators are TODAY committing crimes and corruption in this manner.

We witnessed the failure to apply ethics rules to all government employees, including unpaid White House staff and advisors. The perpetrators are TODAY committing crimes and corruption in this manner.

We witnessed the failure to require most executive branch employees to recuse themselves from all issues that might financially benefit themselves or a previous employer or client from the preceding 4 years. The perpetrators are TODAY committing crimes and corruption in this manner.

We witnessed the failure of to create conflict-free investment opportunities for federal officials with new investment accounts managed by the Federal Retirement Thrift Investment Board and conflict-free mutual funds. The perpetrators are TODAY committing crimes and corruption in this manner.

We witnessed the Revolving Door between industry and government and saw tech companies buying influence in the government or profiting off of the public service of any official. The perpetrators are TODAY committing crimes and corruption in this manner.

We witnessed lobbying by Presidents, Vice Presidents, Members of Congress, federal judges, and Cabinet Secretaries; your office

must enforce multi-year bans on all other federal employees from lobbying their former office, department, House of Congress, or agency after they leave government service until the end of the Administration, but at least for 2 years ( and at least 6 years for corporate lobbyists). The perpetrators are TODAY committing crimes and corruption in this manner.

We saw the ability of companies to buy influence through former government officials. The perpetrators are TODAY committing crimes and corruption in this manner.

We saw the income disclosures from former senior officials 4 years after federal employment. The perpetrators are TODAY committing crimes and corruption in this manner.
