Ted Cruz charges: "Obama is a sweet-talking incompetent puppet placed in power via a coup, organized by Silicon Valley Billionaires, in order to steer federal funds to all of those billionaires companies."

According to Cruz Staff, Cruz believes that Eric Holder and FBI heads were appointed by White House, in order to blockade investigations, which would uncover the truth.

Claims lower level FBI investigators embarrassed and frustrated by blockades of their investigations. Many have started whistle-blowing. Solyndra case frozen. Feinstein demands all case-files on her and campaign backers.

Staff "**sickened**" about being forced to teach IRS how to crash and erase hard-drives!

UPDATE: Cruz staff denies that these are official statements. Says comments were: "Mis-heard".
