What Does The “Silicon Valley Cartel” Do To You If They Feel Offended?

Based on testimony from multiple people who received the brunt of an attack from Kliener Perkins, Elon Musk, Eric Schmidt, Steve Jurvetson, or the rest of the Cartel, here is what has been reported in lawsuits, police reports and witness interviews:

Working with their "tactical resources contractor", a private investigation and digital attack service bureau called: **In-Q-Tel**, they do this to you:

This multi-billion dollar organized crime operation will cut off every possible source of income you have.

In the beginning, they may appear to be nice to you, and invite you in to show them your business plan. They will then act interested but say: "No Thanks". They will then hand your business plan to the VC next door and have them change the name of the technology, copy it, roll it out under his other, un-connected fund, flood the market so you can never launch, and black-list you with all the VC's in Silicon Valley via the "AngelGate" secret valuation and collusion databases.

You will get put on the famous Silicon Valley Cartel "No Poaching Blacklist" so you can never get a job in Silicon Valley or in any company associated with their parent collusion group: The National Venture Capital Association (NVCA); which the Cartel created as a front for super-deal collusion and political PAC programs.

They will use their relationship with SAP, Oracle, Axiom, Palantir, Lucid and all other database companies to put "red-flag" and character assassination notes on every career database and back-ground check database, so you can't ever get a job. You will always get wonderful first, in-person interviews, but when any possible employer runs a back-ground check on you, they will see false info about you, that was placed on HR databases to make sure you are never selected.

They will order tabloid slander journal group: Gawker Media, now being sued by many others for running the same retribution attacks on them, to write attack articles on you, and then they will have their partner: Eric Schmidt, lock them into the top page spot on Google and refused to remove them without a subpoena. They will email and FAX these attack articles, which they created, to every employer, client or potential employer or client so that you get fired if you do get a job. They will telephone those parties with slander and mysterious warnings about you.

Even if you have been working 10 hour days for most of your life, they will use the Senators and federal politicians that they pay bribes to, to be sure you can't get unemployment cash benefits.

If you were injured, they will make sure you can't collect disability or SSI. If you dispute the disability findings and ask for a hearing, your records will be manipulated for the hearing so that you will not get a favorable decision.

You will be forced to use every dime of your life savings and sell all of your assets to try to survive. They will have hacked into your bank accounts to know how long it will take them to drain your funds. Any bank with Cisco, Juniper networks, or Intel network devices in it, can be hacked into with three mouse clicks because of back-doors built into the actual hardware of those devices.

They will sabotage your businesses. They will double-down on the termination attacks on you if you made anything that competed with what they made. They will tell their politicians not to give your companies any contracts or agency access. They will force your companies to have to shut down; costing the companies millions in losses. In many cases, the Cartel's companies were just hype products so the Cartel could hype and sell your big pension funds and employee savings pools on giving the Cartel your retirement money to play with. This made their products not that much, technically, better than yours. Even though your products may have been safer, lower costs, more featured or, otherwise better, they will send "Moles", which are actually fake employees working for them, into your company to spy on you and sabotage your efforts. Kliener Perkins has already been caught using "Moles".

In essence, they will cut off every possible source of money they can find about you.

They may also have you killed. The following people are known to have crossed them, had too much information about them, or, otherwise offended them. Their, unexpected deaths, while in perfect health, seem suspicious: Gary D. Conley, Rajeev Motwani, David Bird, Forrest Hayes, Dave Sandberg, Doug Bourn, Brian M. Finn, Andrew Ingram, Ravi Kumra, Karl Slym, Nicholas Valtz, Greg Smith, William Broeksmit, Julian Knott, Ryan Henry Crane and, now, over 120 other reporters, investment specials, engineers and researchers who all worked with, or offended, the Cartel.

Who will help you?

The regular police will be confused by the complexity of the matter. The FBI, GAO, Treasury and SEC investigators will be told, by corrupt politicians, that the Cartel bribes: *"Don't be hasty...let's just slow this whole thing down and make sure your personal pensions are not going to be affected,..."*

Some independent media may help report it, but main-stream media will be afraid of the influence of the cartel and avoid covering it.

State officials are also on the take from the Cartel, and depend on them for their campaign financing, so they will not help you.

The Cartel will use the same tactics that they use to damage your ability to get income with lawyers so that you can't hire a contingency lawyer in order to sue them.

What can you do?

You can use the same tactics back against them because you are left with no other options.

You will need to learn how to be a lawyer and file "In Pro Per" lawsuits against them in federal court. Read every Nolo press, and other "how to book", and sue them for your damages.

You can file a small claims action against them and, at least, get \$10,000.00 of your damages covered, embarrass the Cartel, and possibly, get some media to cover your attack. You only need to fill out only a few pages of paper.

Personally go to each news editor and tell your story.

Join a coalition of others who were attacked.

You must realize that this is the country you live in now. It is a place where corrupt billionaires can order corrupt companies and politicians to destroy you, on a whim. Some of the very people that you pay your tax money to, that are supposed to help you, and protect you, are actually being paid to destroy your life. Become tough, aware and proactive.
