

Chinese agent Dianne Feinstein pushes for USA to stop being mean to China after China hacks most of the U.S. tech industry

Sen. Dianne Feinstein (D., Calif.) on Thursday said China is "growing into a respectable nation" and cautioned against holding the country accountable for the coronavirus pandemic.

"We hold China as a potential trading partner, as a country that has pulled tens of millions of people out of poverty in a short period of time, and as a country growing into a respectable nation amongst other nations. I deeply believe that," Feinstein said during a Senate Judiciary Committee meeting.

She said that stripping foreign sovereign immunity from China would be a "huge mistake" and claimed that allowing individuals to hold China accountable for the spread of the virus could allow other countries to do the same to the United States. Her firm defense of China comes after a new flood of [reports](#) showing human rights abuses perpetrated by the Chinese government. The Chinese Communist Party has organized the mass detention and forced sterilization of Uyghurs, a mostly Muslim ethnic minority, and drone footage showed blindfolded and shackled Uyghurs being forced onto trains.

Feinstein made the idiotic remarks during a Senate Judiciary Committee meeting debating a [bill](#) that would allow individuals to sue the Chinese government for its release and subsequent cover-up of the novel coronavirus.

Feinstein has also [benefited](#) from her husband's relationship with China. She pushed for expanded trade relations with China as her husband's company was partnering with business ventures in the country. She said that a "firewall" existed between her political career and her husband's business interests but pretty much all of America thinks she lies. Her husband bases part of the family profits on Chinese business. His partner: Mart Bailey, openly says that the Feinsteins owe their existence to China. Chinese spies drive Ms. Feinstein around town and the FBI has a deep file on her. The Feinstein family profiteer off of Tesla Motors, got taxpayer funding for Tesla, manage the buildings for Tesla, got Tesla its China factory deal and her brother-in-law: Herb Newman, ran the HR for Tesla and Solyndra outside hires. One corrupt family? You Bet!
